

“Development of a Motion Comic for HIV/STI Prevention Among Young People – ages 15-24
—Phase 2”

Attachment 4a. Recruitment Flyer

MOTION COMIC PROJECT

We are seeking youth (ages 15-24) to participate in focus groups to develop an innovative new method of delivering HIV/AIDS and sexually transmitted infections (STI) prevention messages using art, sound effects and animation. The focus groups will consist of questions about using motion comics to deliver HIV/AIDS and STI information. Focus groups will take approximately 2 hours to conduct and will be made up of 6-8 participants who will each be provided a small token of appreciation for their time. ***You will receive a \$35 token of appreciation for your participation.***

We value your input and look forward to speaking with you about the possibility of participating in this focus group.

For more information about participation, please contact:

Ted Castellanos
