Eligibility Screener

Thank you for your interest in the Messages4Men: Exploring New Health Information for Our Communities study, which is focused on learning more about the health behavior of men who have sex with men to help develop efforts to keep them healthy.

We would like to let you know that funding for this study is provided by the Centers for Disease Control and Prevention. To find out if you are eligible for this study, we need to ask you a few questions. It should not take more than 5 minutes.

Some of these questions are personal, including questions about sexual activity. Answering these questions is completely voluntary and you can refuse to answer a question or stop at any time. If you answer the questions and we determine that you are eligible, you will then be offered the opportunity to participate in the research study by taking part in a longer survey today about similar topics.

If you complete that longer survey, you will receive a \$40 gift card as a token of appreciation. Would you like to continue to see if you are eligible for this study?

Public reporting burden of this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-0840)

You are eligible to participate in this study. If you are interested in participating, you will take a survey today on this computer. The survey will take about one hour. If you complete the survey, you will receive a \$40 gift card as a token of appreciation.

Before we begin, there is some important information we would like to share with you. Please read carefully the information on the next page.

Continue

I'm sorry but you are not eligible to participate in this study at this time. There are many possible combinations of reasons why people are not eligible to be in the study, reasons that were decided earlier by the researchers. We appreciate your interest in this study and willingness to consider helping to improve health programs in our community. Thank you.
