

Screener Intro

We are asking people to be in a research study that will help us learn more about what people think about a new online tool that is being developed by the Centers for Disease Control and Prevention (CDC). If you participate in the study, you will be asked to complete a brief survey so that we can learn more about you. After you complete the survey, you will be asked to review an online HIV prevention tool developed by CDC. You will then be asked to complete another brief survey so that we can learn your opinions about the online tool. The study will take about 45 minutes to complete. The CDC in Atlanta, Georgia is funding the research.

To see if you are a good match for this study, we will need to ask you some personal questions. Some of the questions will be about your sexual orientation and your HIV status. It is your choice to answer the questions. Your answers will be kept private to the extent allowed by law. You can refuse to answer any question or stop at any time.

May we ask you the questions to see if you are a good match for this study?

- Yes, I agree to be screened
- No, I do not wish to be screened

Public reporting burden of this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-0840)
