

“Evaluating a HIV/AIDS Focused Video Game for Young People”

Attachment 3c. Experimental Group Immediate Post Survey

Public reporting burden of this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-0840)

Participant 30-day Post Follow up Survey

Study ID No. _____

A. Demographics

A1: What grade are you in at school? _____

B. Attitudes About HIV Testing

The next set of questions will ask about your attitudes and feelings about HIV testing. Please tell us how much you agree or disagree with the following statements.
