

"Evaluating a HIV/AIDS Focused Video Game for Young People"

OMB 0920-0840

Exp. 02/29/2016

Attachment 4a. Recruitment Flyer

Appendix A- Recruitment Flyer

HHS Health Game Jam Study

Do you like playing Games??? Does your child like playing Games??? Come and be a part of our study!!

We are seeking youth (11-24) in Metro Atlanta area to participate in a study designed to test a video game designed to educate youth about HIV/AIDS. The study will consist of completing 2-3 short surveys over a 30-day period that can take up to 15 minutes each, and possibly playing a video game. Those who are selected for the study and participate will each be provided a small token of appreciation for their time of up to \$25.

Please follow up with this organization's staff to find out more about the study and to enroll.

For more information about participation, please contact:

Leigh Willis

Phone: (404) 639-8447
