HOME VISITOR LOG

The U.S. Department of Health and Human Services has contracted with MDRC to evaluate the federal Maternal, Infant and Early Childhood Home Visiting program (MIECHV).

The Mother and Infant Home Visiting Program Evaluation (MIHOPE) is designed to build knowledge for policymakers and practitioners about the effectiveness of MIECHV.

Your answers will be kept private. Only the research team will have access to this information. Your answers will not be shared with anyone at your program or any other agencies. In our research reports, the information you provide will not be attributed by name to you or your individual program.

Please complete a log for *each* study participant on your caseload (until the case is closed) that is participating in the MIHOPE study. After you complete a log for one client, you will have the opportunity to complete the same set of questions for any additional clients. At the end of every month, you will also be prompted to answer a few questions about training you have received during the past month.

If you spent time with a participating family during the past week, the log should take approximately five minutes to complete.

This collection of information is voluntary and will be used to learn how home visiting programs benefit families. Public reporting burden for this collection is estimated to be 5 minutes per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection 0970-0402 and it expires XX/XX/XXXX.
