

programs such as the National Forest Revenue Act, the Mineral Lands Leasing Act, and the Taylor Grazing Act. PILT payments supplement the payments that local governments receive under these other programs. The President signed the Transportation bill (H.R. 4348) on July 6, 2012, which reauthorizes PILT for 2013, so this necessitates renewing the collection authority for another 3 years beyond 2012.

The PILT Act requires that the Governor of each State furnish the Department of the Interior with a listing of payments disbursed to local governments by the States on behalf of the Federal Government under 12 statutes described in Section 6903 of 31 U.S.C. The Department of the Interior uses the amounts reported by the States to reduce PILT payments to units of general local governments from that which they might otherwise receive. If such listings were not furnished by the Governor of each affected State, the Department would not be able to compute the PILT payments to units of general local government within the States in question.

In fiscal year 2004, administrative authority for the PILT program was transferred from the Bureau of Land Management to the Office of the Secretary of the Department of the Interior. Applicable DOI regulations pertaining to the PILT program to be administered by the Office of the Secretary were published as a final rule in the **Federal Register** on December 7, 2004 (69 FR 70557). The Office of Budget, Office of the Secretary is now planning to extend the information collection approval authority in order to enable the Department of the Interior to continue to comply with the PILT Act.

Residents, emergency responders, and engineers rely on the USGS for this accurate and scientifically sound information. Respondents to Program Announcements submit proposals to support research and monitoring related to earthquake hazard assessments, earthquake causes and effects, and earthquake monitoring. This information is used as the basis for selection and award of projects meeting the USGS's Earthquake Hazards Program objectives. Final reports of research and monitoring findings are required for each funded proposal; annual progress reports are required for awards of a two- to five-year duration. Final reports are made available to the public at the Web site <http://earthquake.usgs.gov/research/external/>.

Responses are voluntary. No questions of a "sensitive" nature are asked.

Affected Public: Research scientists, engineers, and the general public.

Respondent Obligation: Voluntary; necessary to receive benefits.

Frequency of Collection: Annually; Grant proposals and reporting; Every two to five years: Cooperative Agreement proposals and reporting.

Estimated Annual Number of and Description of Respondents: 250 Educational institutions, and profit and non-profit organizations.
