

## Earthquake Hazards Program

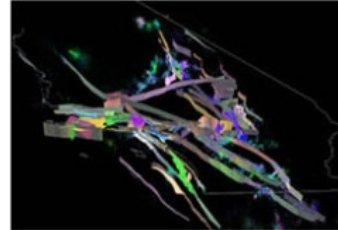

### External Research Support

#### Annual Competitive Grants

External Research Support issues an annual announcement of [Funding Opportunities](#) for competitive proposals for grants and cooperative agreements to support research in earthquake hazards, the physics of earthquakes, earthquake occurrence, and earthquake safety policy.

The application period is generally open from early March to mid May. Sign up with [www.grants.gov](http://www.grants.gov) for a notice for CFDA number 15.807 actions.

During the Application period, applicants must submit proposals and other required documents through [Grants.gov](#); paper copies will not be accepted. Please note that the requirements and other guidance for submitting proposals, referred to as the Program Announcement, can only be accessed through [www.grants.gov](http://www.grants.gov). Past Program Announcements are available through the [Funding Opportunities](#) section.

#### External Research Support Manager and Program Analyst

Elizabeth Lemersal is the Manager for External Research Support.  
Deb McCray Skinner is the Program Analyst for External Research Support.

#### Technical and Financial Reporting

Our [For PIs](#) and [For Sponsored Programs Offices](#) sections list

#### Funded Grants and Cooperative Agreements

Our [Funded Research](#) section lists current and past awards including titles and PIs.

#### Funded Network Operations

Our [Funded Network Operations](#) section lists current and past awards including network titles and PIs.

If you would like to be on a mailing list to receive External

reports required from grant or cooperative agreement recipients.

Research Support announcements, [sign up here](#).

### Final Technical Reports

Our [Funded Research](#) and [Funded Network Operations](#) sections lists Final Technical Reports that have been submitted by Principal Investigators describing the work carried out and findings of their grants or cooperative agreements. These reports are searchable by year and/or region.

Each year the Earthquake Hazard Program (EHP) accepts proposals for earthquake hazards research. The application period is usually open from early April through mid-May. Interested researchers can sign up for email notices of Program Announcement postings at Grants.gov (EHP's CFDA number is 15.807).
