FORM I-360 Instructions
December 10, 2012
[Revised 01/07/2013](#)

Reason for Change: U.S. Customs and Border Protection (CBP) is in the process of automating Form I-94 Arrival/Departure Records to streamline passenger processing.. CBP enters data admission information into the Treasury Enforcement Communications System (TECS) and the Arrival and Departure Information System (ADIS). Form I-94 admission information is used by U.S. Citizenship and Immigration Services (USCIS) to search TECS and ADIS in order to verify applicant, petitioner or beneficiary status in the United States at the time an application or petition is filed. Additional data collection fields are being incorporated into several USCIS forms to enable verification of status in the United States based upon passport or travel document information captured by CBP at the port of entry, which also may be used to search TECS and ADIS. The changes being proposed will be made to reflect the I-94 requirements on the Form I-360 Instructions previously approved by OMB, awaiting posting to the USCIS website.
