SENSITIVE SECURITY INFORMATION

Cover Sheet

For more information on handling SSI, contact SSI@dhs.gov.

WARNING: This record contains Sensitive Security Information that is controlled under 49 CFR parts 15 and 1520. No part of this record may be disclosed to persons without a "need to know", as defined in 49 CFR parts 15 and 1520, except with the written permission of the Administrator of the Transportation Security Administration or the Secretary of Transportation. Unauthorized release may result in civil penalty or other action. For U.S. government agencies, public disclosure is governed by 5 U.S.C. 552 and 49 CFR parts 15 and 1520.

DHS Form 11054 (8/10) Reference: 49 CFR § 1520.13, Marking SSI

DEPARTMENT OF HOMELAND SECURITY Transportation Security Administration

SCORING GUIDANCE

A score is assigned to each line item by the field inspector according to the following general convention:

The Scoring Criteria Column should be used as a guide, but is not fully inclusive of all scenarios.

- "0" Security element should be in place but does not exist. (Equates to total non-adherence)
- "1" Security element exists but does not include all essential recommended components. (Equates to minimal adherence)
- "2" Security element is in place with all essential components but not fully implemented or practiced. (Equates to partial adherence)
- '3" Security element is in place and practiced but not monitored or periodically reviewed. (Equates to strong adherence, but not full implementation)
- '4" Security element is in place, fully implemented and regularly reviewed/verified. (Equates to full implementation) Also assigned to "yes/no" question having a "Yes" response.
 "N/A" Checked - Security element is not applicable and rational must be given in the justification column to support the N/A rating.

SECURITY ACTION ITEMS (SAI'S)	REVIEW/VERIFICATION STEPS	Scoring Criteria
Management and Accountability:		
SAI #1 – Have a Designated Security Coordinator	Review Steps	Scoring Criteria
*1. This entity designates a primary Security Coordinator/ Director.	Verify through a review of documents or interviews that the entity has a person designated as Security Coordinator/Director that is responsible for overall transportation security.	Someone with this title must be identified (may be shared title). 4 = Fully implemented including this title being documented. 3, 2, 1 = Yes, but with varying degrees of implementation 0 = None
2. This entity designates an alternate Security Coordinator/Director.	that the entity has someone designated to fill this role in the primary Security Coordinator's absence.	Someone with this title must be identified (may be shared title). 4 = Fully implemented including this title being documented. 3, 2, 1 = Yes, but with varying degrees of implementation 0 = None
This entity has policies that specify the transportation related duties of the Security Coordinator.	that specific, transportation security-related duties of the Security Director are documented, not merely captured as "other duties."	 4 = Documented specific transportation security related duties of Security Coordinator. May be found in job description, security plan, or other documents as appropriate. 3, 2, 1 = Polices are in place, but not documented. Security Coordinator duties assigned and followed with varying degrees of implementation. 0 = No transportation security related duties specified.
SAI #2 – Conduct a Thorough Risk Assessment	Review Steps	Scoring Criteria
4. This entity recognizes they may have certain assets of specific interest to terrorists (i.e.: vehicles, IT information, passengers, critical personnel, etc.) and considers this factor when developing transportation security practices.	or physical inspection that the entity has (or does not have) assets that may be of interest to terrorists (passengers, chemicals, vehicles, IT, etc.) and/or may be in physical proximity to other critical assets that could be targeted, and uses these factors in	4 = Yes, entity has identified critical assets and considers this when developing security practices. 3,2,1 = Yes, entity is aware of its potential value to terrorists, and develops security practices with a varying degree of implementation. 0 = if no, or "never thought about it."
*5. This entity has conducted a documented, site specific "Risk Assessment" that addresses current threats, vulnerabilities and consequences.	Verify through a review of documents, interviews, or physical inspection that the entity has conducted a site-specific security Risk Assessment that includes threat, vulnerability and consequence components, and note any known risks identified.	4 = Specific written "Risk Assessment" that addresses T, V & C. This assessment is current or reviewed at least annually. 3 = Written "Risk Assessment" that addresses T,V & C, but is outdated or not reviewed at least annually. 2 = Written "Risk Assessment" that does not address all elements of T,V & C and/or is outdated. 1 = General vulnerability assessment (physical "walk around") 0 = Not conducted
6. Management for this entity provides funding and/or approves corrective actions to security vulnerabilities or weaknesses identified.	if entity has implemented corrective actions and/or provided funding for security enhancements.	 4 = Corrective actions taken or no vulnerabilities or weaknesses were identified. 3,2, 1 = Vulnerabilities or weaknesses were identified and corrective actions taken with varying degrees of implementation. 0 = No corrective actions identified

	SENSITIVE SECURITY INFORMATION	
SAI # 3 - Develop a Security Plan (Security Specific Protocols)	Review Steps	Scoring Criteria
*7. This entity has written, site specific transportation security procedures (may be in the form of a Security Plan) that address, at a minimum, personnel security, facility security and vehicle security along with actions to be taken in the event of a security incident or security breach.	that the entity/facility has written, site specific	3 = Documented security procedures are in place, incorporated as part of another document, but are not in a clearly segmented section. 2, 1 = Some, but not all security procedures are documented and addressed.
		0 = No security plan / procedures documented.
8. This entity limits access to its security plan or security procedures to employees with a "need-to-know."	Verify through a review of documents or interviews that confidential security measures used, vulnerabilities identified, and known threat concerns are made known only to employees having a valid "need to know." Note: Generally not all employees may have a	
	"need-to-know."	110
9. This entity requires that employees with access to		4= Security specific NDA
security procedures sign a non-disclosure agreement		3 = General corporate NDA
(NDA).	information are required to sign a non-disclosure agreement designed keep confidential information	0 = No NDA
10 TH 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	confidential	
 This entity has written security plans/policies that have been reviewed and approved at the entity's 		4 = Security Procedures have been approved and signed at the entity's executive level.
executive level.	security procedures at this entity/facility and their	3 = Reviewed and signed at lower level without executive
	endorsement is documented.	endorsement.
		2, 1 = Verbal plan/policies discussed and approved without
		signature.
		0 = No security plan to be reviewed.
*11. This entity has security procedures to be	Verify through a review of documents, interviews,	4 = Yes, written security procedures for all employees
followed by all personnel (i.e., drivers, office workers, maintenance workers, laborers and others)	or physical inspection that procedures are in place setting forth the expectations, responsibilities, or	
in the event of a security breach or incident.	limitations for all personnel (drivers, office workers,	3, 2, 1 = Partially, with unique variations
,	administrators, etc.) in the event of a security	0 – No procedures in place
	incident or breach at this entity.	0 = No procedures in place
12. This entity requires that their security policies	Verify through a review of documents or interviews	4 = Documented review within past year
be reviewed at least annually and updated as	that an annual review of any written security	3,2,1 = Documented review occurred but not within past year
needed.	procedures is required, and note the date they were last reviewed or updated to determine how often	and/or with unique variations
	updates are actually being conducted.	0 = No security policies exist and/or reviewed
40 P 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	77.16.1	4 37 1 1 1 19 9 11 81
13. Employees are provided with site-specific, up to date contact information for entity management	Verify through a review of any "contact lists" provided to employees that entity/facility security	4 = Yes, documented and readily available. Phone-tree exercises in place.
and/or security personnel to be notified in the event	personnel are included on the list and that the data is	
of a security incident and this entity periodically	current.	exercises in place. 2,
tests their notification or "call-tree" procedures.		0 = No
14. This entity has procedures for 24/7 notification		4 = Yes, documented and readily available. Note: If 911 is the
of entity security personnel and/or	that guidelines are provided to employees requiring	only notification number, this does not qualify as a 4.
local/state/federal authorities to be notified in the event of a security incident.	them to notify, at a minimum, local law enforcement authorities and the entity/facility	3,2 = Partially, with unique variations
event of a security incident.	security coordinator in the event of a security	1 = 911 is the only notification made
	incident or breach.	$0 = N_0$

	SENSITIVE SECURITY INFORMATION	
SAI # 4 – Plan for Continuity of Operations	Revew Steps	Scoring Criteria
*15. This entity has procedures designed to ensure restoration of facilities and services following a significant operational disruption. (May be in the	Verify through a review of documents or interviews that this entity/facility has a plan to address the recovery of business operations (Continuity of	4 = Plan is either a standalone document or clearly segmented part of another plan that is readily available.
form of a Business Recovery Plan, Continuity of Operations Plan or part of the Emergency	Operations Plan) in the event of a significant operational disruption.	3 = Documented procedures are in place, incorporated as part of another document, but are not in a clearly segmented section.
Response/Safety Plan).		2, 1 = Some, but not all continuity of operations procedures are documented and addressed.
		0 = No plan / procedures documented.
16. This entity ensures all facilities have an auxiliary power source if needed <u>or</u> the ability to operate effectively from an identified secondary site.	Verify through a review of documents, interviews, or physical inspection that this entity/facility has an auxiliary power source if needed, and/or the ability to operate effectively from another identified secondary site. (Secondary site must be named and immediate availability must be confirmed).	4 = Full facility auxiliary power source on site/tested or secondary site named and immediately available. Procedures are tested or practiced occasionally. 3 = Secondary site/ auxiliary power source is identified and in place, but not tested or practiced.
	, ,	0 = No auxiliary power available and no secondary site considered.
SAI # 5 – Develop a Communications Plan	Review Steps	Scoring Criteria
*17. This entity has methods for communicating with drivers during normal conditions.	Verify through a review of documents or interviews that adequate equipment is available for the entity to	4 = Yes, documented methods are in place and
	communicate with drivers during normal conditions.	 3 = Documented methods are in place, but there are no methods of preparation employed (practice, discussion, etc.) 2,1 = Yes, but with varying degrees of implementation
		0 = No
18. This entity has emergency procedures in place for drivers on the road to follow in the event normal communications are disrupted.	that this entity has alternative emergency procedures for drivers on the road to follow in the event normal	4 = Yes, documented methods in place, and the entity utilizes back-up technology that will function in the even normal communications are disrupted.
	communications are disrupted.	3 = The entity has documented, clearly-defined steps for drivers to take in the event normal communications are lost. 2,1 = Yes, but with varying
		degrees of implementation 0 = No
SAI # 6 - Safeguard Business and Security Critical Information	Review Steps	Scoring Criteria
*19. This entity controls access to business	Verify through a review of documents or interviews	4= Has written policy to address Operation Security (OPSEC)
documents (i.e. security plans, critical asset lists, risk/vulnerability assessments, schematics, drawings, manifests, etc.) that may compromise	if this facility controls and minimizes internal and external access to sensitive business information (Operational Security – OPSEC).	3,2,1 = Yes, but with varying degrees of implementation
documents (i.e. security plans, critical asset lists, risk/vulnerability assessments, schematics,	if this facility controls and minimizes internal and external access to sensitive business information	
documents (i.e. security plans, critical asset lists, risk/vulnerability assessments, schematics, drawings, manifests, etc.) that may compromise	if this facility controls and minimizes internal and external access to sensitive business information (Operational Security – OPSEC). Verify through a review of documents, interviews, or physical inspection if this facility controls and minimizes internal and external access to personnel	3,2,1 = Yes, but with varying degrees of implementation
documents (i.e. security plans, critical asset lists, risk/vulnerability assessments, schematics, drawings, manifests, etc.) that may compromise entity security practices. 20. This entity controls personnel information (i.e. SSN, address, drivers license, etc.) that may be	if this facility controls and minimizes internal and external access to sensitive business information (Operational Security – OPSEC). Verify through a review of documents, interviews, or physical inspection if this facility controls and	3,2,1 = Yes, but with varying degrees of implementation 0 = Issue not addressed 4= Has written policy to address personnel information
documents (i.e. security plans, critical asset lists, risk/vulnerability assessments, schematics, drawings, manifests, etc.) that may compromise entity security practices. 20. This entity controls personnel information (i.e. SSN, address, drivers license, etc.) that may be deemed sensitive in nature. 21. This entity maintains and safeguards an up-to-date list of all assets that are critical to the continuation of business operations (i.e. vehicles, IT equipment, products, other equipment, etc.), periodically inventories these assets, and has the ability to determine their general location at any given time.	if this facility controls and minimizes internal and external access to sensitive business information (Operational Security – OPSEC). Verify through a review of documents, interviews, or physical inspection if this facility controls and minimizes internal and external access to personnel information (keeps files or office locked). Verify that the facility/entity has an adequate inventory control process that ensures	3,2,1 = Yes, but with varying degrees of implementation 0 = Issue not addressed 4= Has written policy to address personnel information 3,2,1 = Yes, but with varying degrees of implementation
documents (i.e. security plans, critical asset lists, risk/vulnerability assessments, schematics, drawings, manifests, etc.) that may compromise entity security practices. 20. This entity controls personnel information (i.e. SSN, address, drivers license, etc.) that may be deemed sensitive in nature. 21. This entity maintains and safeguards an up-to-date list of all assets that are critical to the continuation of business operations (i.e. vehicles, IT equipment, products, other equipment, etc.), periodically inventories these assets, and has the ability to determine their general location at any	if this facility controls and minimizes internal and external access to sensitive business information (Operational Security – OPSEC). Verify through a review of documents, interviews, or physical inspection if this facility controls and minimizes internal and external access to personnel information (keeps files or office locked). Verify that the facility/entity has an adequate inventory control process that ensures accountability for all at-risk assets (i.e.; products, vehicles, equipment, computers) that may be of	3,2,1 = Yes, but with varying degrees of implementation 0 = Issue not addressed 4= Has written policy to address personnel information 3,2,1 = Yes, but with varying degrees of implementation 0 = Issue not addressed 4 = A specific, descriptive list of identified "critical assets" along with the knowledge of their general location. These "critical assets" are also periodically inventoried, employees receive some sort of training or briefing on critical asset protection. 3 = A specific list of critical assets without known locations and/or periodic inventory. 2, 1 = A general inventory of equipment
documents (i.e. security plans, critical asset lists, risk/vulnerability assessments, schematics, drawings, manifests, etc.) that may compromise entity security practices. 20. This entity controls personnel information (i.e. SSN, address, drivers license, etc.) that may be deemed sensitive in nature. 21. This entity maintains and safeguards an up-to-date list of all assets that are critical to the continuation of business operations (i.e. vehicles, IT equipment, products, other equipment, etc.), periodically inventories these assets, and has the ability to determine their general location at any given time. SAI # 7 - Be Aware of Industry Security Best Practices. *22. Personnel at his entity meet with industry peers, partners or associations that share security	if this facility controls and minimizes internal and external access to sensitive business information (Operational Security – OPSEC). Verify through a review of documents, interviews, or physical inspection if this facility controls and minimizes internal and external access to personnel information (keeps files or office locked). Verify that the facility/entity has an adequate inventory control process that ensures accountability for all at-risk assets (i.e.; products, vehicles, equipment, computers) that may be of specific interest to criminals and/or terrorists. **Review Steps** Determine through interview or documentation if security or administrative personnel at this	3,2,1 = Yes, but with varying degrees of implementation 0 = Issue not addressed 4= Has written policy to address personnel information 3,2,1 = Yes, but with varying degrees of implementation 0 = Issue not addressed 4 = A specific, descriptive list of identified "critical assets" along with the knowledge of their general location. These "critical assets" are also periodically inventoried, employees receive some sort of training or briefing on critical asset protection. 3 = A specific list of critical assets without known locations and/or periodic inventory. 2, 1 = A general inventory of equipment 0 = No inventory control

Personnel Security:		
SAI #8 – Conduct Licensing & Background Checks for Drivers / Employees / Contractors	Review Steps	Scoring Criteria
*24. This entity requires verification and documentation that persons operating entity vehicles have a valid driver's license for the type of vehicle drivers along with any applicable.	Review through interview or documentation that this entity verifies and documents that persons operating entity vehicles have a valid driver's	4 = DMV inquiry required upon hire and periodically (multiple times per year) thereafter or is enrolled to receive automatic updates.
vehicle driven, along with any applicable endorsement(s) needed.	license for the type of vehicle driven, along with any applicable endorsement(s) needed.	3 = DMV inquiry required upon hire and reviewed annually.
		2, 1 = DMV inquiry required upon initial hire and not periodically reviewed.
		0 = No DMV record required
*25. This entity requires a criminal history check, verification of Social Security number and verification of immigration status for personnel	Review through interview or documentation that this entity requires a criminal and/or TSA recognized background check for personnel	4 = A fingerprint based FBI background check, CDL-HME or TWIC
operating entity vehicles.	operating entity vehicles.	3 = Background check thru reputable private entity w/o fingerprints
	Note: E-Verify gives verification of immigration status, not criminal background history.	2 = State or federal "Name Only" background check 1 = Local PD name check only
		0 = No check
26. This entity requires a criminal history check, verification of Social Security number and		4 = A fingerprint based FBI background check, CDL-HME or
verification of immigration status for non-driver	TSA recognized background check on non-driver	TWIC 3 = Background check thru reputable private entity w/o
employees with access to security related information or restricted areas.	employees with access to security related information or restricted areas.	2 = State or federal "Name Only" background check
		1 = Local PD name check only
		0 = No check
27. This entity asks perspective employees if they have been denied employment elsewhere	Verify through interview or a review of documents that this entity asks applicants if they have been	4 = Yes, in application process
specifically as the result of a security background check.	denied employment elsewhere specifically as the result of a security background check.	0 = No, not part of application process
28. This entity has security-related criteria that would disqualify current or prospective personnel	Verify through interview or a review of documents that this entity/facility has security criteria that	4 = Yes, written policies
from employment.	would disqualify current or prospective personnel	3, 2, 1 = Yes, but with varying degrees of implementation
	from employment.	0 = No
29. This entity has policies to address criminal allegations that may arise or come to light involving	Verify through interview or a review of documents that this entity reviews and evaluates any new	4 = Has written policy to address issue
current employees.	criminal activity information for current employees	3,2,1 = Informal process in place with varying degrees of implementation
	that may come to light.	0 = Not been addressed
30. The entity requires that contractors having	Verify through interview or a review of documents	4 = Yes, contractor and entity standards are identical
	that this entity/facility has comparable licensing and background check requirements for both entity	3, 2, $1 = Partially$, with varying degrees of implementation
background checks as those required of regular company employees (contracted employees may include contractual drivers, unescorted cleaning crews, etc.).	employees and contracted employees.	0 = No
SAI # 9 – Develop and Follow Security Training Plan(s)	Review Steps	Scoring Criteria
*31. This entity provides general <u>security</u> awareness	Verify through interview or a review of documents	4 = Provides security training for all employees
training to employees (separate from or in addition to regular safety training).	that this entity provides general security awareness training for all employees.	3 = Provided to employees with security related duties and front line employees (i.e. drivers, ticket agents, station managers, etc.)
		2, 1 = Minimal training provided during safety meetings
		0 = No security training provided
32. This entity provides additional security training to employees having security responsibilities.	Determine if this entity conducts more in-depth security training to familiarize employees with their specific responsibilities as outlined in the entity security plan.	4 = Yes 0 = No
33. This entity provides periodic security re-		4 = Yes, at least every 3 years for all employees.
training.	to determine if this entity provides periodic security re-training (recurrent training) no less than every three years.	3 = Provided every 3 years to employees with security related duties and front line employees (i.e. drivers, ticket agents, station managers, etc.)
		2, 1 = Minimal informal security re-training provided occasionally.
		0 = No security re-training.

34. The security training/re-training offered by this entity is specific to and appropriate for the type of transportation operation being conducted (trucking, school bus, motor coach or infrastructure mode). 35. This entity has comparable security training	that the security training/re-training being offered by this entity/facility is specific to the type of transportation operation being conducted (trucking, school bus, motor coach or infrastructure).	4 = Yes, security specific and specific to appropriate mode. 3, 2, 1 = Partially, with unique variations. May be some type of general transportation security training. 0 = No 4 = Yes, contractor and entity standards are identical
requirements for both internal employees and contracted employees with security responsibilities or access to security-related information.	that his facility requires identical training requirements for both entity employees and contracted employees.	3, 2, 1 = Partially, with varying degrees of implementation 0 = No
36. This entity requires documentation and retention of records relating to security training received by employees.	documents that this entity/facility documents and	4 = Yes 0 =No
SAI # 10 –Participate in Security Exercises & Drills	Review Steps	Scoring Criteria
support and or issues.	Verify through interview or a review of documents that this entity meets with outside agencies (i.e.; law enforcement/first responders) regarding security issues or security exercises/ drills.	4 = Meets regularly 3, 2, 1 = Score based on frequency and/or degree of interaction 0 = Does not meet with outside agencies
38. Personnel at this entity have actually conducted or participated in some type of exercises/drills that involve security related activities.	Verify through interviews or a review of documents that this entity has conducted or participated in some type of security exercises/drills. Examples would include active participation in exercises/drills such as: Tabletops, ISTEP, Situational Drills (bomb threats, hijacking, lock downs, etc.).	4 = Yes, within last 12 months 3, 2, 1 = Score based on frequency and/or degree of interaction 0 = No
39. This entity has administrative and/or security personnel trained in the National Incident Management System (NIMS) or Incident Command System (ICS).	Verify through interview or a review of documents that this entity has security personnel trained in the National Incident Management System (NIMS) or Incident Command System (ICS).	4 = Yes 0 = No
SAI # 11 - Maintain Facility Access Control	Facility Security: Review Steps	Scoring Criteria
*40. This entity has controlled points of entry/exit for employees and restricts non-employee access to buildings, terminals and/or work areas.	Verify through interview, a review of documents, or physical inspection that this entity/facility restricts non-employee access to the buildings, terminals or	4= Yes, employee entrances and exits are controlled and entry 3 = Entry is restricted to most areas, but not all.
	work areas. Note: If this is a BASE conducted on the corporate office, scores should be rated as it applies to all of their facilities (not just the corporate office/facility of visit).	2, 1 = Access is partially restricted, with varying degrees of 0 = Access is not restricted.
*41. This entity has secured all doors, windows, skylights, roof openings and other access points to all buildings, terminals and/or work areas.	Note: If this is a BASE conducted on the corporate office, scores should be rated as it applies to all of their facilities (not just the corporate office/facility of visit).	implementation
skylights, roof openings and other access points to all buildings, terminals and/or work areas.	Note: If this is a BASE conducted on the corporate office, scores should be rated as it applies to all of their facilities (not just the corporate office/facility of visit). Verify through interview, a review of documents, or physical inspection that this entity/facility has secured all doors, windows, skylights, roof openings, and other access points to all buildings, terminals, and/or work areas. Verify through interview, a review of documents, or physical inspection that this entity/facility restricts employee access to certain secure areas.	0 = Access is not restricted. 4= Yes, all doors, windows, etc. are inoperable or secured with adequate locking mechanisms, and entry to all buildings, terminals and/or work areas is secure at all facilities. 3= Access points are secure in most areas, but not all. 2, 1 = Access is partially restricted, with varying degrees of implementation 0 = Access is not restricted. 4= Secure areas are clearly identified and access to these secure areas is restricted to certain employees based on job function. 3 = Access to these secure areas is restricted to certain
skylights, roof openings and other access points to all buildings, terminals and/or work areas. 42. This entity restricts employee access into certain secure areas (i.e.; computer room, administrative	Note: If this is a BASE conducted on the corporate office, scores should be rated as it applies to all of their facilities (not just the corporate office/facility of visit). Verify through interview, a review of documents, or physical inspection that this entity/facility has secured all doors, windows, skylights, roof openings, and other access points to all buildings, terminals, and/or work areas. Verify through interview, a review of documents, or physical inspection that this entity/facility restricts employee access to certain secure areas. Note: If this is a BASE conducted on the corporate office, scores should be rated as it applies to all of their facilities (not just the corporate office/facility of visit).	0 = Access is not restricted. 4= Yes, all doors, windows, etc. are inoperable or secured with adequate locking mechanisms, and entry to all buildings, terminals and/or work areas is secure at all facilities. 3= Access points are secure in most areas, but not all. 2, 1 = Access is partially restricted, with varying degrees of implementation 0 = Access is not restricted. 4= Secure areas are clearly identified and access to these secure areas is restricted to certain employees based on job function.

	SENSITIVE SECURITY INFORMATION	
44. This entity requires employees to carry and/or display their identification card/badge or other form of positive employee ID while on duty.	physical inspection that this entity/facility requires employees to carry and/or display an identification	4 = This entity requires that all employees display and/or carry their entity ID card/badge while on duty, and methods of verification are in place.
	badge while on duty	3 = Requirements are in place, but no measures of verification take place.
		2,1 = Some employees are required to display/carry ID cards/badges, but not all (i.e. drivers, warehouse workers, office workers, etc.)
		0 = No ID cards/badges issued or there is no requirement in place.
45. This entity has a challenge procedure that requires employees to safely report unknown persons or persons not having proper identification.	Verify through interview, a review of documents, or physical inspection that this entity/facility requires employees to report unknown persons or persons not having proper identification.	4 = This entity has a written policy in place requiring employees to safely report unknown persons or those not having proper identification.
		3 = This entity has a verbal policy requiring employees to report unknown persons or those not having proper
		2,1 = Varying degrees of implementation. No specific policy, but a general understanding is in place.
		0 = No policy in place.
46. This entity utilizes advanced physical control locking measures (i.e.; biometric input, key card, PIN, combination locks) for access to buildings, sites or secure areas.	Verify through interview, a review of documents or physical inspection that this entity/facility requires biometric input, key card, PIN, combination locks, for access to buildings, sites or secure areas.	4 = This entity utilizes personal identifying access control (i.e. biometric, key card and/or PIN). Access is deactivated upon employee separation.
		3 = This entity utilizes combination type locks and combinations are changed periodically and upon employee
		2,1 = Personal identifying access control or combination locks are in use, but not deactivated or periodically changed.
		0 = No advanced physical control locking measures are used.
47. Where appropriate, entrance and/or exit data to facilities and/or to secure areas can be reviewed as needed (may be written logs, PIN or biometric data, or recorded camera surveillance).	Verify through interview, a review of documents or physical inspection that this entity/facility records entrance/exit data for persons accessing restricted areas, and the data can be reviewed, if needed, either manually or electronically.	4 = This entity captures personal identifiers (PIN, key card, biometric ID, photograph, computer log-in, or other electronic means of identifying who enters the facility or certain restricted areas) and the data can be examined if needed.
	can managery of circumstany.	3 = The entity requires the use of an entry/exit written log, time card or signature of personnel entering that is retained for review as needed.
		2,1 = Entry/Exit requirements are sporadically used or other unique variations in place.
		0 = The entity captures no info on persons entering or exiting.
48. This entity utilizes visitor control protocols for non-employees accessing non-public areas.	Verify through interview, a review of documents or physical inspection that this entity/facility requires documented visitor control protocols for	4 = Yes, visitor positively identified, logged-in, is issued visitor badge and escorted while on premises.
	visitors/guests.	3 = Visitors are positively identified, but not escorted –OR–Visitors are escorted, but not positively identified. 2, 1 = Unique variations of above.
		-

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The control number assigned to this collection is OMB 1652-XXXX, which expires on XX/XX/XXXX.

DEPARTMENT OF HOMELAND SECURITY Transportation Security Administration

Baseline Assessment & Security Enhancement Review Checklist Company Name: Lead Inspector: Assessment Date: 12/30/1899 Description Findings Justification SECURITY ACTION ITEMS (SAI'S) N/A Score Score Rational Source Management and Accountability SAI #1 – Have a Designated Security Coordinator This entity designates a primary Security Coordinator/ Director. This entity designates an alternate Security Coordinator/Director. This entity has policies that specify the transportation related duties of the Security Coordinator. SAI #2 – Conduct a Thorough Risk Assessment This entity recognizes they may have certain assets of specific interest to terrorists (i.e.: vehicles, IT information, passengers, critical personnel, etc.) and considers this factor when developing transportation security This entity has conducted a documented, site specific "Risk Assessment" that addresses current threats, vulnerabilities and consequences. Management for this entity provides funding and/or approves corrective actions to security vulnerabilities or weaknesses identified. SAI #3 - Develop a Security Plan (Security Specific Protocols) This entity has written, site specific transportation security procedures (may be in the form of a Security Plan) that address, at a minimum, personnel security, facility security and vehicle security along with actions to be taken in the event of a security incident or security breach. This entity limits access to its security plan or security procedures to employees with a "need-to-know." This entity requires that employees with access to security procedures sign This entity has written security plans/policies that have been reviewed and approved at the entity's executive level. This entity has security procedures to be followed by all personnel (i.e., drivers, office workers, maintenance workers, laborers and others) in the event of a security breach or incident. This entity requires that their security policies be reviewed at least annually and updated as needed. Employees are provided with site-specific, up to date contact information for entity management and/or security personnel to be notified in the event of a security incident and this entity periodically tests their notification or "call-tree" procedures. This entity has procedures for 24/7 notification of entity security personnel and/or local/state/federal authorities to be notified in the event of a security incident. SAI # 4 – Plan for Continuity of Operations This entity has procedures designed to ensure restoration of facilities and services following a significant operational disruption. (May be in the form of a Business Recovery Plan, Continuity of Operations Plan or part of the Emergency Response/Safety Plan). This entity ensures all facilities have an auxiliary power source if needed or the ability to operate effectively from an identified secondary site. SAI # 5 – Develop a Communications Plan This entity has methods for communicating with drivers during normal This entity has emergency procedures in place for drivers on the road to follow in the event normal communications are disrupted.

	SAI # 6 - Safeguard Business and Security Critical Information				
19	This entity controls access to business documents (i.e. security plans, critical asset lists, risk/vulnerability assessments, schematics, drawings, manifests, etc.) that may compromise entity security practices.				
20	This entity controls personnel information (i.e. SSN, address, drivers license, etc.) that may be deemed sensitive in nature.				
21	This entity maintains and safeguards an up-to-date list of all assets that are critical to the continuation of business operations (i.e. vehicles, IT equipment, products, other equipment, etc.), periodically inventories these assets, and has the ability to determine their general location at any given time.				
	SAI # 7 - Be Aware of Industry Security Best Practices.				
22	Personnel at this entity meet with industry peers, partners or associations that share security related information or best practices. (May include individual or corporate membership with an industry trade association).				
23	Personnel at this entity have sought and/or obtained transportation related security information or "best practices" guidance from external sources.	D	1 C	••	
	SAI # 8 – Conduct Licensing & Background Checks for Drivers / Employees / Contractors	Pers	onnel Secu	irity	
24	This entity requires verification and documentation that persons operating entity vehicles have a valid driver's license for the type of vehicle driven, along with any applicable endorsement(s) needed.				
25	This entity requires a criminal history check, verification of Social Security number and verification of immigration status for personnel operating entity vehicles.				
26	This entity requires a criminal history check, verification of Social Security number and verification of immigration status for non-driver employees with access to security related information or restricted areas.				
27	This entity asks perspective employees if they have been denied employment elsewhere specifically as the result of a security background check.				
28	This entity has security-related criteria that would disqualify current or prospective personnel from employment.				
29	This entity has policies to address criminal allegations that may arise or come to light involving current employees.				
30	The entity requires that contractors having access to security related information or restricted areas be held to comparable licensing and background checks as those required of regular company employees (contracted employees may include contractual drivers, unescorted cleaning crews, etc.).				
21	SAI # 9 – Develop and Follow Security Training Plan(s)				
31	This entity provides general <u>security</u> awareness training to employees (separate from or in addition to regular safety training).				
32	This entity provides additional security training to employees having security responsibilities.				
33 34	This entity provides periodic security re-training. The security training/re-training offered by this entity is specific to and appropriate for the type of transportation operation being conducted (trucking, school bus, motor coach or infrastructure mode).				
35	This entity has comparable security training requirements for both internal employees and contracted employees with security responsibilities or access to security-related information.				
36	This entity requires documentation and retention of records relating to security training received by employees.				
07	SAI # 10 –Participates in Security Exercises & Drills				
37	This entity meets with outside agencies (i.e.; law enforcement/first responders) regarding security support and or issues.				
38	Personnel at this entity have actually conducted or participated in some type of exercises/drills that involve security related activities.				
39	This entity has administrative and/or security personnel trained in the National Incident Management System (NIMS) or Incident Command System (ICS)				

		ъ.	11. C.	٠.	
	CAL# 11 Maintain Facility Assess Control	Fac	ility Secur	щу	
40	SAI # 11 - Maintain Facility Access Control				
	This entity has controlled points of entry/exit for employees and restricts non-employee access to buildings, terminals and/or work areas.				
41	This entity has secured all doors, windows, skylights, roof openings and other access points to all buildings, terminals and/or work areas.				
42	This entity restricts employee access into certain secure areas (i.e.; computer room, administrative areas, dispatch, etc.).				
43	This entity issues photo-identification cards/badges or uses other effective identification methods to identify employees.				
44	This entity requires employees to carry and/or display their identification card/badge or other form of positive employee ID while on duty.				
45	This entity has a challenge procedure that requires employees to safely report unknown persons or persons not having proper identification.				
46	This entity utilizes advanced physical control locking measures (i.e.; biometric input, key card, PIN, combination locks) for access to buildings, sites or secure areas.				
47	Where appropriate, entrance and/or exit data to facilities and/or to secure areas can be reviewed as needed (may be written logs, PIN or biometric data, or recorded camera surveillance).				
48	This entity utilizes visitor control protocols for non-employees accessing non-public areas.				
	SAI # 12 - Implement Strong Physical Security at all Locations				
49	This entity utilizes perimeter physical security barriers (fences/gates/planters /bollards, etc.) that restrict both unauthorized vehicle and pedestrian access.				
50	All perimeter physical security barriers on site are functional, used as designed, and adequately maintained to effectively restrict vehicle and/or pedestrian access.				
51	This entity utilizes a tamper resistent intrusion detection system(s) (burglary/robbery alarm).				
52	This entity utilizes closed circuit television cameras (CCTV).				
53	The CCTV cameras present are functional and adequately monitored and/or recorded.				
54	This entity has adequate security lighting.				
55	This entity utilizes key control procedures for buildings, terminals and gates.				
56	This entity employs on-site security personnel.				
57	This entity provides a secure location for employee parking separate from visitor parking.				
58	Clearly visible and easily understood signs are present that identify restricted or off-limit areas.				
59	Vehicle parking, stopping or standing is controlled, to the extent possible, along perimeter fencing or near restricted areas.				
60	This entity controls the growth of vegetation so that sight lines to vehicles, pedestrians, perimeter fences or restricted areas are unobstructed.				
61	This entity conducts random security checks on personnel/vehicles and/or other physical security countermeasures (i.e. random perimeter checks, breach/trespass tests, bomb threat drills, etc.).				
	SAI # 13 - Enhance Internal and External Cyber Security				
	This entity requires an employee logon and password that grants access to limited data consistent with job function.				
63	This entity utilizes an Information Technology (IT) "firewall" that prevents improper IT system access to entity information from both internal and external threats.				
64	This entity has IT security guidelines.				
65	This entity identifies an IT security officer or coordinator.				
66	This entity tests their IT system for vulnerabilities.				
67	This entity has off-site backup capability for data generated.				

		Vel	icle Secur	rity	
	SAI # 14 - Develop a Robust Vehicle Security Program	, (.	nere occur	rty	
68	The vehicles used by this entity are equipped with appropriate				
68	door/window locks and their use is required (if not prohibited by State law).				
69	This entity provides some type of supplemental equipment for securing vehicles, which may include steering wheel locks, theft alarms, "kill switches," or other devices.				
70	This entity utilizes a key control program for their vehicles.				
71	This entity employees technology that requires the use of key card, PIN or biometric input to enter or start vehicles.				
72	This entity uses vehicles with panic button capability.				
73	This entity uses vehicles equipped with on-board video camera(s) to monitor/record interior activities.				
74	This entity uses vehicles equipped with GPS or land based tracking system.				
75 76	This entity prohibits unauthorized passengers in entity vehicles.				
76	This entity restricts or has policies regarding overnight parking of entity vehicles at off-site locations (i.e.; residences, shopping centers, parking lots, etc.).				
	SAI # 15 - Develop a Solid Cargo/Passenger Security Program.				
77MC	Motor Coach Version (Questions 77MC-80MC)				
77MC	areas.				
	This entity equips vehicles with a safety/security barrier between the driver and passengers.				
79MC	This entity utilizes some type of cargo, baggage or passenger screening system.				
80MC	assessment (CSR, BASE, etc.).				
7760	School Bus Version (Questions 77SB-80SB)				
77SB	This entity requires the use of adequate locks on vehicle cargo/ storage areas.				
78SB	N/A - This Question Intentionally left blank.	X			
79SB	This entity or the appropriate school board requires the presence of a school official (other than driver) onboard during all extracurricular transports.				
80SB	This entity has previously participated in a DHS/TSA sponsored security assessment (CSR, BASE, etc.).				
	Trucking Version (Questions 77TR-80TR)				
77TR	This entity provides appropriate locks for vehicle cargo doors, valves, and/or hatch openings, and requires their use.				
78TR	This entity provides an adequate supply of seals for vehicle cargo doors, valves, and/or hatch openings, and requires their use.				
79TR	This entity provides or requires some type of supplemental trailer security measures (i.e.; kingpin locks, glad-hand locks, high-grade door locks, any type of cargo alarm system, etc.).				
80TR	This entity has previously participated in a DHS/TSA sponsored security assessment or certification program (i.e. CSR, BASE, C-TPAT, CFATS, IAC/CCSF, etc.).				
0.1	SAI # 16 - Plan for High Alert Level Contingencies				
81	This entity has additional security procedures that take effect in the event of a heightened security alert status from the DHS National Terrorist Alert System (NTAS) or other government source.				
82	This entity monitors news or other media sources for the most current security threat information.				
83	This entity distributes relevant or evolving threat information to affected entity personnel as needed.				
84	Administrative or security personnel at this entity have been granted access to the unclassified intelligence based internet site HSIN (Homeland Security Information Network), and they regularly review current intelligence information relating to their industry.				
85	Administrative or security personnel at this entity/facility regularly check the status of the DHS sponsored National Terrorism Alert System (NTAS) or have enrolled to receive automatic electronic NTAS alert updates at www.dls.gov/alerts.				

		0211011111	020011111	 0.1	
	SAI # 17 - Conduct Regular Security Inspections				
	In addition to any pre-trip safety inspection conducted, this entity requires a pre-trip vehicle security inspection.				
87	This entity requires a post-trip vehicle security inspection.				
88	This entity requires additional vehicle security inspections at any other times (vehicle left unattended, driver change, etc.).				
	Motor Coach Version (Question 89MC)				
89MC	This entity requires a 'passenger count' or ticket re-verification be taken				
	any time passengers are allowed to exit and re-enter the bus.				
	School Bus Version (Question 89SB)				
89SB	This entity requires a 'passenger count' be taken any time passengers are allowed to exit and re-enter the bus.				
	Trucking Version (Question 89TR)				
89TR	This entity requires drivers to verify (to the extent possible) that the materials being shipped match the trip manifest/shipping papers.				
	SAI # 18 - Have Procedures for Reporting Suspicious Activities				
90	This entity has participated in or received some type of domain awareness/counterterrorism training (First Observer™ or equivalent).				
91	This entity has policies requiring employees to report security related "suspicious activities" to management and/or law enforcement.				
92	This entity has notification procedures (who to call, when to call, etc.) for all personnel upon observing suspicious activity.				
93	This entity has policies requiring a written report be filed for suspicious activities observed.				
	SAI # 19 - Ensure Chain of Custody & Shipment/ Service Verification				
	Motor Coach Version (Questions 94MC-96MC)				
94MC	This entity requires confirmation of arrival upon reaching final destination.				
95MC	This entity prohibits the use of alternate drivers without specific entity authorization.				
96MC	This question is intentionally left blank. N/A	X			
	School Bus Version (Questions 94SB-96SB)				
94SB	This entity requires confirmation upon arrival at final non-school destinations (final drop-offs, field trips, extracurricular activities, etc.)				
95SB	This entity prohibits the use of alternate drivers without specific entity				
96SB	This question is intentionally left blank. N/A	X			
	Trucking Version (Questions 94TR-96TR)				
94TR	This entity requires confirmation of shipment delivery upon arrival.				
95TR	This entity requires that shipments not be subcontracted or turned over to another driver without specific entity authorization.				
96TR	This entity requires advance notice to the consignee or point of destination regarding anticipated delivery information.				
97	This entity requires specific security protocols be followed in the event a trip must be delayed, discontinued, requires multiple days to complete or exceeds hours-of-service regulations.				
	SAI # 20 - Pre-plan Emergency Travel Routes.				
	This entity prohibits drivers from diverting from authorized routes, making unauthorized pickups or stopping at unauthorized locations without justification.				
99	This entity has identified alternate routes in the event primary routes cannot be used under certain security related emergencies.
