Dear Teacher,

This questionnaire is an important part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5. You have received this questionnaire because you are the teacher of one or more of the children who are participants in this study. THIS QUESTIONNAIRE SHOULD BE COMPLETED BY TEACHERS OF CHILDREN IN FIRST GRADE OR HIGHER. IF THE ECLS-K:2011 CHILDREN YOU TEACH ARE IN KINDERGARTEN, PLEASE REQUEST A KINDERGARTEN QUESTIONNAIRE AND COMPLETE THAT ONE.

This questionnaire contains several sections:

- a) Classroom and student characteristics
- b) Class organization and resources
- c) Instructional activities and curricular focus
- d) Parent involvement
- e) Evaluation and grading practices
- f) School and staff activities
- g) Views on school climate and the school environment
- h) Teacher background

Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. However, only you can provide this information. Although we realize you are very busy, we urge you to complete this questionnaire as completely and accurately as possible. The information you provide is being collected for research purposes only and will be protected from disclosure to the fullest extent allowable by law (Education Sciences Reform Act of 2002, 20 U.S.C. § 9573). Information from multiple individuals will be combined to produce statistical reports; no information that identifies you will be included in any reports or provided to students, their parents, or other school staff.

Please record your answers directly on the questionnaire by marking the appropriate answer (as instructed on the next page) or by writing your responses in the space provided. Your best estimates are acceptable answers.

DEFINITIONS

For the purposes of this study, the following definitions apply.

- Kindergarten: Traditional year of school primarily for 5-year olds prior to first grade.
- Transitional (or readiness) kindergarten: Extra year of school for kindergarten-age eligible children who are judged not ready for kindergarten.
- Transitional first (or pre-first) grade: Extra year of school for children who have attended kindergarten but have been judged not ready for first grade.

Reference is made to English language learners (ELL), as well as to English as a Second Language (ESL), bilingual education, and dual-language programs in this questionnaire. For this study, the following definitions apply:

- English language learner (ELL): A student whose native language is one other than English and whose skills in listening, speaking, reading, or writing English are such that he or she has difficulty understanding school instruction in English.
- English as a Second Language (ESL): An instructional program designed to teach listening, speaking, reading, and writing English language skills to students with limited proficiency in English. The program may focus on a student's level of proficiency in general English. As a language instruction educational program, the ESL program should be connected to academic achievement with the goal of meeting the academic standards that all children must meet.

- Bilingual education program: A program in which a certified teacher uses a student's home language to varying degrees, in conjunction with English, to teach English and academic content to students with limited proficiency in English.
- Dual-language program: Also known as two-way immersion, the goal of these programs is for students to develop language proficiency in two languages by receiving content instruction in English and another language in a classroom that usually consists of both native English speakers and native speakers of the other language.

THANK YOU VERY MUCH FOR YOUR HELP.

Dear Teacher,

This questionnaire is a vital part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5. You have received this questionnaire because one or more of the children in your class(es) are participants in this study. The child who is the subject of this questionnaire is identified on the cover. THIS QUESTIONNAIRE SHOULD BE COMPLETED BY TEACHERS OF CHILDREN IN FIRST GRADE OR HIGHER. IF THE CHILD IDENTIFIED ON THE COVER IS IN KINDERGARTEN, PLEASE REQUEST A KINDERGARTEN QUESTIONNAIRE AND COMPLETE THAT ONE.

The Early Childhood Longitudinal Study, Kindergarten Class of 2010-11 (ECLS-K:2011) is collecting information from teachers of children who are in the study to investigate the relationship between children's academic progress and various school, classroom, teacher, and home characteristics. Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. Although we realize you are very busy, we urge you to complete this questionnaire as completely and accurately as possible. The information you provide is being collected for research purposes only and will be protected from disclosure to the fullest extent allowable by law (Education Sciences Reform Act of 2002, 20 U.S.C. § 9573). Information from multiple individuals will be combined to produce statistical reports; no information that identifies you will be included in any reports or provided to students, their parents, or other school staff.

DEFINITIONS

For this study, the following definitions apply:

- English language learner (ELL): A student whose native language is one other than English and whose skills in listening, speaking, reading, or writing English are such that he or she has difficulty understanding school instruction in English.
- English as a Second Language (ESL): An instructional program designed to teach listening, speaking, reading, and writing English language skills to students with limited proficiency in English. The program may focus on a student's level of proficiency in general English. As a language instruction educational program, the ESL program should be connected to academic achievement with the goal of meeting the academic standards that all children must meet.
- Bilingual education program: A program in which native language is used to varying degrees, in conjunction with English, to teach English and academic content to students with limited proficiency in English.
- Dual-language program: Also known as two-way immersion, the goal of these programs is for students to develop language proficiency in two languages by receiving content instruction in English and another language in a classroom that usually consists of both native English speakers and native speakers of the other language.
- Title I: "Improving the Academic Achievement of the Disadvantaged": Title I is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. The purpose of this program is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on state academic achievement standards and state academic assessments.
- Title III: "Language Instruction for Limited English Proficient and Immigrant Students": Title III is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. One of the main purposes of this program is to help ensure that children who are limited English proficient, including immigrant children and youth, attain English proficiency, develop high levels of academic attainment in English, and meet the same state academic content and student academic achievement standards as all children are expected to meet.
- Individualized Education Program (IEP): A written statement of the educational program designed to meet the individual needs of a school-aged child with a disability that is judged to affect the child's educational performance. Children who receive special education services under the Individuals with Disabilities Education Act (IDEA) are expected to have an IEP or an IFSP.
- Individualized Family Service Plan (IFSP): A written statement of the educational program and other services designed to enhance the family's capacity to meet the developmental needs of an infant or toddler (preschool-aged) with a disability. The plan includes a description of the appropriate services needed to assist transition into elementary school.

- Section 504 plan: A written plan to provide appropriate services to a child with a disability, whether or not the disability is judged to affect the child’s educational performance. Speech therapy services may often be specified as part of a Section 504 plan.

MARKING DIRECTIONS

PLEASE READ CAREFULLY AND USE A BLACK OR BLUE BALL POINT PEN OR A SOFT LEAD (#2) PENCIL TO COMPLETE THIS QUESTIONNAIRE. DO NOT USE A FELT-TIP PEN.

MARKING BOXES

It is important that you mark an “X” in the box next to your answers and print clearly.

Shown below is the correct way to mark your answers, along with examples of incorrect ways.

Correct Mark:

Incorrect Marks:

Light and thin, outside the box, thick or scrawled.

How to Change an Answer:

Completely black out the box of the incorrect answer and mark an “X” in the box next to the correct answer.

PRINTING ANSWERS IN BOXES

Answers should be printed clearly and should not touch or cross any of the box lines. Do not cross zeroes or sevens. That is, do not write a zero with a line through it like this – 0, and do not write a seven with a line through it like this – 7.

Write one number per box like this:

1	2	3	4	5	6	7	8	9	0
---	---	---	---	---	---	---	---	---	---

Write words like this:

John Smith

THANK YOU VERY MUCH FOR YOUR HELP.

Academic Rating Scale

The Academic Rating Scale is separated into three areas: (1) Language and Literacy, (2) Science, and (3) Mathematical Thinking. Please rate the child's skills, knowledge, and behaviors within each of these three areas based on your experience with the child identified on the cover of this questionnaire. This is NOT a test and should not be administered directly to the child. Each question includes examples that are meant to help you think of the range of situations in which the child may demonstrate the identified skills and behaviors. **The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.** The examples do, however, indicate a level of proficiency a child should have reached in order to receive the highest ratings. Some of these examples describe a very high level of performance (beyond typical students) in order to evaluate achievement levels of the highest performing students.

The following **five-point scale** is used for each of the questions. It reflects the degree to which a child has acquired and demonstrated the targeted skills, knowledge, and behaviors. In addition to the five-point scale, there is a sixth response option, Not Applicable/Skill Not Yet Taught.

Not yet	=	Child <u>has not yet</u> demonstrated skill, knowledge, or behavior.
Beginning	=	Child is <u>just beginning</u> to demonstrate skill, knowledge, or behavior but does so very inconsistently.
In progress	=	Child demonstrates skill, knowledge, or behavior <u>with some regularity</u> but varies in level of competence.
Intermediate	=	Child demonstrates skill, knowledge, or behavior <u>with increasing regularity and average competence</u> but is not completely proficient.
Proficient	=	Child demonstrates skill, knowledge, or behavior <u>competently and consistently</u> .
Not Applicable or Skill Not Yet Taught	=	Skill, knowledge, or behavior has <u>not been introduced</u> in classroom setting.

Rate only the child's **current** skills, knowledge, and behaviors. Rate each child compared to other children of the same age level. Please consider the full range of ratings when answering. If the skill, knowledge, or behavior has been introduced in the classroom, please rate the child by placing an "X" in the appropriate box for your rating. Place an "X" in the box for "*Not Applicable or Skill Not Yet Taught*" only if the skill, knowledge, or behavior has not been introduced in your classroom setting.

Child with Limited English Proficiency/English language learner: Please answer the questions based on your knowledge of this child's skills. If the child does not yet demonstrate skills in English but does demonstrate them in his/her native language, please answer the questions with the child's native language in mind.

Child with Special Needs: It may be necessary to consider adaptations for some questions to make them more inclusive for this child's skills and/or use of adaptive equipment. Some children may utilize alternative forms of verbal communication (for example, sign language, communication boards) or written communication (for example, word processors, Braille, dictation). Please answer the questions with these adaptations in mind.

Social Skills

Twenty-six items ask teachers to rate children in their classroom on social skills (including their ability to exercise self-control, interact with others, resolve conflict, and participate in group activities); problem behaviors (e.g., fighting, bullying, arguing, anger, depression, low self-esteem, impulsiveness, etc.); and learning dispositions or “approaches to learning” (e.g., curiosity, self-direction, and inventiveness). The social skills items and the problem behavior items are not listed as they are copyright protected. The learning disposition items are not copyright protected and are listed below.

Classroom Behaviors

Twelve items from the Child’s Behavior Questionnaire (short form) ask teachers to assess the attentional focusing and inhibitory control of the children in their classroom. The items are not listed as they are copyright protected.

No individual data that links your name, address, telephone number, or identification number with your responses will be included in the statistical reports.

Dear Teacher,

This questionnaire is an important part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5. You have received this questionnaire because you are the teacher of one or more of the children who are participants in this study. THIS QUESTIONNAIRE SHOULD BE COMPLETED BY TEACHERS OF CHILDREN IN KINDERGARTEN. IF THE ECLS-K:2011 CHILDREN YOU TEACH ARE IN FIRST GRADE OR HIGHER, PLEASE REQUEST A QUESTIONNAIRE FOR TEACHERS OF CHILDREN IN THOSE GRADES AND COMPLETE THAT ONE.

This questionnaire contains several sections:

- a) Classroom and student characteristics
- b) Class organization and resources
- c) Instructional activities and curricular focus
- d) Parent involvement
- e) Evaluation and grading practices
- f) School and staff activities
- g) Views on school readiness, school climate, and the school environment
- h) Teacher background

Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. However, only you can provide this information. Although we realize you are very busy, we urge you to complete this questionnaire as completely and accurately as possible. The information you provide is being collected for research purposes only and will be protected from disclosure to the fullest extent allowable by law (Education Sciences Reform Act of 2002, 20 U.S.C. § 9573). Information from multiple individuals will be combined to produce statistical reports; no information that identifies you will be included in any reports or provided to students, their parents, or other school staff.

Please record your answers directly on the questionnaire by marking the appropriate answer (as instructed on the next page) or by writing your responses in the space provided. Your best estimates are acceptable answers.

Many of the questions ask that you respond separately for each kindergarten class that you teach – half-day morning and/or afternoon or full-day.

- Report on **half-day morning and half-day afternoon classes** separately, in the appropriate columns. If you teach only half-day classes, do not report any information in the full-day class column.
- If you teach a **full-day class** (the same children are with you for the full day), please record your answers in only the full-day class column; do not report on the morning and afternoon sessions of the class separately.
- If you teach a class with a **day care** component, please report only on the instructional portion of the class, in the appropriate class column. For example, if the instructional portion of the class is held in the morning, and the day care portion in the afternoon, record your answers in the morning class section.

DEFINITIONS

Reference is made to English language learners (ELL), as well as to English as a Second Language (ESL), bilingual education, and dual-language programs in this questionnaire. For this study, the following definitions apply:

- English language learner (ELL): A student whose native language is one other than English and whose skills in listening, speaking, reading, or writing English are such that he or she has difficulty understanding school instruction in English.
- English as a Second Language (ESL): An instructional program designed to teach listening, speaking, reading, and writing English language skills to students with limited proficiency in English. The program may focus on a student's level of proficiency in general English. As a language instruction educational

program, the ESL program should be connected to academic achievement with the goal of meeting the academic standards that all children must meet.

- Bilingual education program: A program in which native language is used to varying degrees, in conjunction with English, to teach English and academic content to students with limited proficiency in English.
- Dual-language program: Also known as two-way immersion, the goal of these programs is for students to develop language proficiency in two languages by receiving content instruction in English and another language in a classroom that usually consists of both native English speakers and native speakers of the other language.

Dear Teacher,

This questionnaire is a vital part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5. You have received this questionnaire because one or more of the children in your class(es) are participants in this study. The child who is the subject of this questionnaire is identified on the cover. THIS QUESTIONNAIRE SHOULD BE COMPLETED BY TEACHERS OF CHILDREN IN KINDERGARTEN. IF THE CHILD IDENTIFIED ON THE COVER IS IN FIRST GRADE OR HIGHER, PLEASE REQUEST A QUESTIONNAIRE FOR TEACHERS OF CHILDREN IN THOSE GRADES AND COMPLETE THAT ONE.

The Early Childhood Longitudinal Study, Kindergarten Class of 2010-11 (ECLS-K:2011) is collecting information from teachers of children who are in the study to investigate the relationship between children's academic progress and various school, classroom, teacher, and home characteristics. Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. Although we realize you are very busy, we urge you to complete this questionnaire as completely and accurately as possible. The information you provide is being collected for research purposes only and will be protected from disclosure to the fullest extent allowable by law (Education Sciences Reform Act of 2002, 20 U.S.C. § 9573). Information from multiple individuals will be combined to produce statistical reports; no information that identifies you will be included in any reports or provided to students, their parents, or other school staff.

DEFINITIONS

For this study, the following definitions apply:

- English language learner (ELL): A student whose native language is one other than English and whose skills in listening, speaking, reading, or writing English are such that he or she has difficulty understanding school instruction in English.
- English as a Second Language (ESL): An instructional program designed to teach listening, speaking, reading, and writing English language skills to students with limited proficiency in English. The program may focus on a student's level of proficiency in general English. As a language instruction educational program, the ESL program should be connected to academic achievement with the goal of meeting the academic standards that all children must meet.
- Bilingual education program: A program in which native language is used to varying degrees, in conjunction with English, to teach English and academic content to students with limited proficiency in English.
- Dual-language program: Also known as two-way immersion, the goal of these programs is for students to develop language proficiency in two languages by receiving content instruction in English and another language in a classroom that usually consists of both native English speakers and native speakers of the other language.
- Title I: "Improving the Academic Achievement of the Disadvantaged": Title I is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. The purpose of this program is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on state academic achievement standards and state academic assessments.
- Title III: "Language Instruction for Limited English Proficient and Immigrant Students": Title III is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. One of the main purposes of this program is to help ensure that children who are limited English proficient, including immigrant children and youth, attain English proficiency, develop high levels of academic attainment in English, and meet the same state academic content and student academic achievement standards as all children are expected to meet.
- Individualized Education Program (IEP): A written statement of the educational program designed to meet the individual needs of a school-aged child with a disability that is judged to affect the child's educational performance. Children who receive special education services under the Individuals with Disabilities Education Act (IDEA) are expected to have an IEP or an IFSP.
- Individualized Family Service Plan (IFSP): A written statement of the educational program and other services designed to enhance the family's capacity to meet the developmental needs of an infant or toddler (preschool-aged) with a disability. The plan includes a description of the appropriate services needed to assist transition into elementary school.

- Section 504 plan: A written plan to provide appropriate services to a child with a disability, whether or not the disability is judged to affect the child's educational performance. Speech therapy services may often be specified as part of a Section 504 plan.

THANK YOU VERY MUCH FOR YOUR HELP.

MARKING DIRECTIONS

PLEASE READ CAREFULLY AND USE A BLACK OR BLUE BALL POINT PEN OR A SOFT LEAD (#2) PENCIL TO COMPLETE THIS QUESTIONNAIRE. DO NOT USE A FELT-TIP PEN.

MARKING BOXES

It is important that you mark an "X" in the box next to your answers and print clearly.

Shown below is the correct way to mark your answers, along with examples of incorrect ways.

Correct Mark:

Incorrect Marks:

Light and thin, outside the box, thick or scrawled.

How to Change an Answer:

Completely black out the box of the incorrect answer and mark an "X" in the box next to the correct answer.

PRINTING ANSWERS IN BOXES

Answers should be printed clearly and should not touch or cross any of the box lines. Do not cross zeroes or sevens. That is, do not write a zero with a line through it like this – 0, and do not write a seven with a line through it like this – 7.

Write one number per box like this:

1	2	3	4	5	6	7	8	9	0
---	---	---	---	---	---	---	---	---	---

Write words like this:

John Smith

Academic Rating Scale

The Academic Rating Scale is separated into two areas: (1) Language and Literacy, (2) Mathematical Thinking. Please rate the child's skills, knowledge, and behaviors within each of these areas based on your experience with the child identified on the cover of this questionnaire. This is NOT a test and should not be administered directly to the child. Each question includes examples that are meant to help you think of the range of situations in which the child may demonstrate the identified skills and behaviors. **The examples do not exhaust all the ways that a child may demonstrate what he/she knows or can do.** The examples do, however, indicate a level of proficiency a child should have reached in order to receive the highest ratings. Some of these examples describe a very high level of performance (beyond typical students) in order to evaluate achievement levels of the highest performing students.

The following **five-point scale** is used for each of the questions. It reflects the degree to which a child has acquired and demonstrated the targeted skills, knowledge, and behaviors. In addition to the five-point scale, there is a sixth response option, Not Applicable/Skill Not Yet Taught.

Not yet	=	Child <u>has not yet</u> demonstrated skill, knowledge, or behavior.
Beginning	=	Child is <u>just beginning</u> to demonstrate skill, knowledge, or behavior but does so very inconsistently.
In progress	=	Child demonstrates skill, knowledge, or behavior <u>with some regularity</u> but varies in level of competence.
Intermediate	=	Child demonstrates skill, knowledge, or behavior <u>with increasing regularity and average competence</u> but is not completely proficient.
Proficient	=	Child demonstrates skill, knowledge, or behavior <u>competently and consistently</u> .
Not Applicable or Skill Not Yet Taught	=	Skill, knowledge, or behavior has <u>not been introduced</u> in classroom setting.

Rate only the child's **current** skills, knowledge, and behaviors. Rate each child compared to other children of the same age level. Please consider the full range of ratings when answering. If the skill, knowledge, or behavior has been introduced in the classroom, please rate the child by placing an "X" in the appropriate box for your rating. Place an "X" in the box for "*Not Applicable or Skill Not Yet Taught*" only if the skill, knowledge, or behavior has not been introduced in your classroom setting.

Child with Limited English Proficiency/English language learner: Please answer the questions based on your knowledge of this child's skills. If the child does not yet demonstrate skills in English but does demonstrate them in his/her native language, please answer the questions with the child's native language in mind.

Child with Special Needs: It may be necessary to consider adaptations for some questions to make them more inclusive for this child's skills and/or use of adaptive equipment. Some children may utilize alternative forms of verbal communication (for example, sign language, communication boards) or written communication (for example, word processors, Braille, dictation). Please answer the questions with these adaptations in mind.

Social Skills

Twenty-five items ask teachers to rate children in their classroom on social skills (including their ability to exercise self-control, interact with others, resolve conflict, and participate in group activities); problem behaviors (e.g., fighting, bullying, arguing, anger, depression, low self-esteem, impulsiveness, etc.); and learning dispositions or “approaches to learning” (e.g., curiosity, self-direction, and inventiveness). The social skills items and the problem behavior items are not listed as they are copyright protected. The learning disposition items are not copyright protected and are listed below.

Dear Teacher,

This questionnaire is a vital part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5. You have received this questionnaire because one or more of the children in your class(es) are participants in this study. The child who is the subject of this questionnaire is identified on the cover.

The Early Childhood Longitudinal Study, Kindergarten Class of 2010-11 (ECLS-K:2011) is collecting information from teachers of children who are in the study to investigate the relationship between children's academic progress and various school, classroom, teacher, and home characteristics. Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. Although we realize you are very busy, we urge you to complete this questionnaire as completely and accurately as possible. The information you provide is being collected for research purposes only and will be protected from disclosure to the fullest extent allowable by law (Education Sciences Reform Act of 2002, 20 U.S.C. § 9573). Information from multiple individuals will be combined to produce statistical reports; no information that identifies you will be included in any reports or provided to students, their parents, or other school staff.

Language and Literacy Skills

For each of the items below, please rate the skills of the child whose name appears on the cover of this booklet. Rate only the child's **current** skills, knowledge, and behaviors, compared to other children of the same age level. Please consider the full range of ratings when answering. If the skill, knowledge, or behavior has been introduced in the classroom, please rate the child by placing an "X" in the appropriate box for your rating. Place an "X" in the box for "*Not Applicable or Skill Not Yet Taught*" only if the skill, knowledge, or behavior has not been introduced in your classroom setting.

The following **five-point scale** is used for each of the questions. It reflects the degree to which a child has acquired and demonstrated the targeted skills, knowledge, and behaviors. In addition to the five-point scale, there is a sixth response option: Not Applicable/Skill Not Yet Taught.

- Not yet = Child has not yet demonstrated skill, knowledge, or behavior.
- Beginning = Child is just beginning to demonstrate skill, knowledge, or behavior but does so very inconsistently.
- In progress = Child demonstrates skill, knowledge, or behavior with some regularity but varies in level of competence.
- Intermediate = Child demonstrates skill, knowledge, or behavior with increasing regularity and average competence but is not completely proficient.
- Proficient = Child demonstrates skill, knowledge, or behavior competently and consistently.
- Not Applicable or Skill Not Yet Taught = Skill, knowledge, or behavior has not been introduced in classroom setting.

	MARK ONE RESPONSE FOR EACH ITEM.					
	Not Yet	Beginning	In Progress	Intermediate	Proficient	Not Applicable or Skill Not Yet Taught
THIS CHILD ...						
1. Contributes relevant information to classroom discussions – for example, during a class discussion, can express an idea or a personal opinion on a topic and the reasons behind the opinion.						
2. Composes a story with a clear beginning, middle, and end.						
3. Demonstrates an understanding of some of the conventions of print – for example, by appropriately using question marks, exclamation points, and quotation marks.						
4. Demonstrates beginning writing skills - for example writes sentences to express ideas while correctly spelling many short words like "hop" or "bed," and, if necessary, attempts approximate phonetic spelling for more difficult words (e.g., "vakashun" for "vacation").						

Social Skills

Twenty-six items ask teachers to rate children in their classroom on social skills (including their ability to exercise self-control, interact with others, resolve conflict, and participate in group activities); problem behaviors (e.g., fighting, bullying, arguing, anger, depression, low self-esteem, impulsiveness, etc.); and learning dispositions or “approaches to learning” (e.g., curiosity, self-direction, and inventiveness). The social skills items and the problem behavior items are not listed as they are copyright protected. The learning disposition items are not copyright protected and are listed below.
