Mathematics resource teachers provide additional instructional support to students and have special expertise in assessing and diagnosing students’ mathematics strengths and needs to assist with learning and understanding.

Mathematics coaches work with teachers to help them implement and use strategies to improve their students’ ability to use mathematics in their classes.

In some schools, a single person may serve in both roles regardless of the title they have. Please answer questions 5–8 based on the roles as defined in this paragraph.

National Indian Education Study

School Questionnaire: Grade 4

The questions in this survey are designed to gather information about schools that serve American Indian or Alaska Native (AI/AN) students. In particular, we ask about the inclusion of native languages and cultural perspectives in the curriculum and about interactions between the school and the AI/AN community. Schools that serve only a few AI/AN students may adopt different approaches than schools that serve many such students. There are no wrong answers to these questions.

This questionnaire should be completed by the principal or the head administrator. Use only a No. 2 pencil to answer all hard-copy questions in this booklet. Some questions require you to answer by filling in the ovals completely. For other questions you are asked to fill in numbers. For these questions, please print the appropriate numbers LEGIBLY in each of the boxes provided. Keep all printing within the boxes.

Example:

National Indian Education Study

School Questionnaire: Grade 8

The questions in this survey are designed to gather information about schools that serve American Indian or Alaska Native (AI/AN) students. In particular, we ask about the inclusion of native languages and cultural perspectives in the curriculum and about interactions between the school and the AI/AN community. Schools that serve only a few AI/AN students may adopt different approaches than schools that serve many such students. There are no wrong answers to these questions.

This questionnaire should be completed by the principal or the head administrator. Use only a No. 2 pencil to answer all hard-copy questions in this booklet. Some questions require you to answer by filling in the ovals completely. For other questions you are asked to fill in numbers. For these questions, please print the appropriate numbers LEGIBLY in each of the boxes provided. Keep all printing within the boxes.

Example:
150 should be written as

0	,	1	5	0
---	---	---	---	---

Other questions require you to PRINT ANSWERS LEGIBLY on the lines indicated. For all questions, do not make any stray marks.
