DEPARTMENT OF ENERGY

U.S. Energy Information Administration

Proposed Agency Information Collection

AGENCY: U.S. Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Agency Information Collection Activities: Proposed Information Collection; Notice and Request for Comments.

SUMMARY: The EIA invites public comment on a proposed collection of information that EIA is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. The EIA is soliciting comments on the proposed reinstatement of the Forms EIA-871A-J, "2012 Commercial Buildings Energy Consumption Survey."

The Federal Energy Administration Act of 1974 (Pub. L. 93-275, 15 U.S.C. 761 *et seq.*) and the DOE Organization Act (Pub. L. 95-91, 42 U.S.C. 7101 *et seq.*) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer-term domestic demands.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Any comments received help the EIA to prepare data requests that maximize the utility of the information collected, and to assess the impact of collection requirements on the public. Also, the EIA will later seek approval by the Office of Management and Budget (OMB) under Section 3507(a) of the Paperwork Reduction Act of 1995.

The Commercial Buildings Energy Consumption Survey (CBECS) has been conducted nine times covering the years 1979, 1983 and 1986 under the name of the "Nonresidential Buildings Energy Consumption Survey," and years 1989, 1992, 1995, 1999, 2003, and 2007 under the current name, "Commercial Buildings Energy Consumption Survey." CBECS collects baseline data on energy consumption and expenditures in commercial buildings, and on the energy-related characteristics of those buildings. To obtain this information, interviews are conducted for a sample of commercial buildings representing the 50 States and the District of Columbia. For buildings in the survey, data are collected on the types, amount and cost of energy consumed in the building, how the energy is used, structural characteristics of the buildings, activities conducted inside the buildings that relate to energy use, building ownership and occupancy, energy conservation measures, and energy-using equipment. The information will be collected using computer assisted interviewing for the 2012 CBECS; interviews will be conducted both in-person and by telephone. For those buildings that cannot provide energy consumption data for the building, the data will be obtained in a follow-up survey (historically a mail survey) from the suppliers of electricity, natural gas, fuel oil and/or district heat to the building, after receiving permission from the building owner, manager or tenant. This survey to the energy suppliers is mandatory. The data obtained from the CBECS are available to the public in a variety of EIA electronic tables and reports at <http://www.eia.gov/emeu/cbecs>. Public use files that have been screened to protect the identity of the individual respondents are also available electronically at the above web address. Selected data from the surveys
