

Screen Shots for CEEMP PRA

The screenshot shows the 'Energy Module' web application interface. The top navigation bar includes 'Home', 'Core Activity', and a search bar containing 'Award ID PHCF000000001'. The user is logged in as 'RU101'. The main content area is titled 'CA1 » Core Activity Reporting Instructions' and displays a table of awards.

Paperwork Reduction Act Statement. The information collection requirements contained in this document have been approved by the OMB under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) and assigned OMB Control Number (2577-0264). In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless the collection displays a currently valid OMB control number. The public reporting burden for the collection of information is estimated to average 2 hours per annum per respondent.

This page displays awards for which you have access for Core Activities reporting. Please proceed to the reporting forms by either clicking the Award # or the Core Activities link. If any of your awards show "N/A" this means you do not have to submit Core Activities for these awards.

If you believe there are awards missing from this list that you should be able to edit, please check with the administrator at your organization to ensure that this award has been assigned to your account. If you are still encountering problems, please contact Recovery Act Reporting Call Center at 1-800-998-9999 or e-mail recovery@comcon.org.

 [Print Report](#)

Please use the form below to enter data to about the work being conducted with your Recovery Act grant.

Location: The AMP/development address is selected from pre-populated, and is not editable. Please provide information about where actual work is taking place. Choose from among three basic location options: 1) Select "All Buildings" if all of the buildings in this AMP/development are affected by this work; 2) Select "Some Buildings" if some of the buildings in this development are being affected and then select the buildings affected by checking the boxes for the buildings from the list of buildings affected. For the "Some Buildings" option, you must enter a valid geographic area and affects 50 or more buildings and then enter an address in the "approximate geographic address" fields that display for this selection.

Unit Counts: Report all unit counts as the total number for the development/AMP. This means that different types of work you did across the development should be summed and entered as the total number of units. For example, if you rehabilitated 40 units in one building and 30 units in a separate building, check off these buildings and enter 70 units. Do not enter 40 units for the first building and 30 units for the second building. If you have a development that you developed or rehabilitated in a previous year, report the incremental amount since the last time you reported. For example, if you report 70 units for 2009 Q4 (CY) for this development, and you modernize an additional 30 between the first report and the next quarter report, for 2010 Q1 (CY) enter the cumulative amount of 100 units.

This Core Activity Report is READ-ONLY

This report has already been submitted and you are in view only mode. No changes may be made to this report while in the view only mode.

To navigate through the report, use the section titles on the left hand side of the page.

—PHCF Development/AMP Information

1. Development/AMP Location:Address

City

State

Zip C

2. Type of Works:

Newly Developed Housing Units Rehabilitated Non-dwelling work Demolition

3. Description of Work for this AMP/Development:

4000 characters max

Starting with 2nd Qtr 2011 report, Westwood Homes Rehab of 184 dwelling units and 8 non-dwelling units of row type housing will be reported under this new AMP set-up in PIC.

Units completed must be a subset of units started. For example, if you have 10 completed units and 20 units currently started, but not completed, enter 30 units started and 10 completed.

22. Rehabilitated: Units Planned

184

23. Rehabilitated: Units Started

168

24. Rehabilitated: Units Completed

104

Figure 4 - Development Information. Address information will be pre-populated. User will provide work type information, description and numbers for units impacted.

Figure 5 - User inputs number of units receiving energy conservation measures and enumerates specific measures being implemented.
