

**THREE-YEAR PRODUCTION HISTORY**  
**INSTRUCTIONS FOR PREPARATION**

|   |  |
|---|--|
| <b>Purpose:</b><br>This form is used to gather three years production history from applicants.  |  |
| <b>Handbook Reference:</b><br>3-FLP   | <b>Number of Copies:</b><br>Original and One |
| <b>Signatures Required:</b><br>Applicant  |  |
| <b>Distribution of Copies:</b><br>Original in case file, copy to applicant  |  |
| <b>Automation-Related Transactions: (Instructions for writers: provide only the information required, i.e. ADPS TC 3K. If no automation actions are required, insert N/A) FBP</b> |  |

**Applicants must complete all items.**

| Fld Name / Item No.               | Instruction   |
|-----------------------------------|---|
| 1<br>Name                         | Enter the applicant's name.   |
|                                   | Enter the last two digits of the year for which information is provided at the beginning of each column. Complete the appropriate column for the year that information is being provided. |
| <b>A</b>                          | <b>Dairy Production</b>   |
| A1a<br>Herd Number                | Enter the average number of milk cows for each of the three preceding years.  |
| A1b<br>Lbs. of Milk Sold          | Enter the total pounds of milk sold for each of the three preceding years.  |
| A1c<br>Average Production Per Cow | Enter the average milk production per cow for each of the preceding three years. The number should be the Herd Number (A1a) divided by the pounds of milk sold (A1b).                     |
| A1d<br>Calves Sold                | Enter the number of calves sold each year for the preceding three years.  |
| A1e<br>Calves Average Sale Weight | Enter the average weight of calves at the time they were sold for each of the three preceding years.  |
| A1f<br>Number of Cows Culled      | Enter the number of cows culled for each of the three preceding years.  |
| <b>B</b>                          | <b>Livestock and Poultry Production</b>   |

| <b>Fld Name /<br/>Item No.</b> | <b>Instruction</b>  |
|--------------------------------|---|
| B1<br>Livestock<br>(Type)      | Enter the type of livestock being raised (cattle, hogs, sheep, etc.). For clarification purposes break down the type of livestock further, such as “brood cows,” “market animals,” “calves,” etc., when applicable.<br>Enter each different type of livestock as a separate set of information. |
| B1a<br>Units Raised            | Enter the number of livestock that were raised (for the type described only) on the farm for each of the three preceding years.   |
| B1b<br>Units<br>Purchased      | Enter the number of livestock (for the type described only) that were purchased for each of the three preceding years.  |
| B1c<br>Total Units             | Enter the total number (the total of units raised and units purchased) of livestock of this type for each of the preceding three years.   |
| B1d<br>Units Sold              | Enter the total number of livestock of this type that were sold during each of the preceding three years.   |
| B1e<br>Death Loss              | Enter the total number of loss due to death for the type of animal described in item B1 for each of the preceding three years.  |
| B1f<br>Purchase<br>Weight      | Enter the average weight per unit of livestock that was purchased for sale in each of the three preceding years.  |
| B1g<br>Sales Weight            | Enter the average weight per unit of livestock that was sold in each of the three preceding years.  |
| B2<br>Livestock<br>(Type)      | Enter the type of livestock being raised (cattle, hogs, sheep, etc.). For clarification purposes break down the type of livestock further, such as “brood cows,” “market animals,” “calves,” etc., when applicable.<br>Enter each different type of livestock as a separate set of information. |
| B2a<br>Units Raised            | For the type described only, enter the number of livestock that were raised on the farm for each of the three preceding years.  |
| B2b<br>Units<br>Purchased      | For the type described only, enter the number of livestock that were purchased for each of the three preceding years.   |
| B2c<br>Total Units             | Enter the total number of livestock (the total of units raised and units purchased) of this type for each of the preceding three years.   |
| B2d<br>Units Sold              | Enter the total number of livestock of this type that were sold during each of the preceding three years.   |
| B2e<br>Death Loss              | Enter the total number of loss due to death for the type of animal described in item B1 for each of the preceding three years.  |
| B2f<br>Purchase<br>Weight      | Enter the average weight per unit of livestock that was purchased for sale in each of the three preceding years.  |
| B2g<br>Sales Weight            | Enter the average weight per unit of livestock that was sold in each of the three preceding years.  |
| B3                             | Enter the type of livestock being raised (cattle, hogs, sheep, etc.). For   |

| <b>Fld Name /<br/>Item No.</b> | <b>Instruction</b>  |
|--------------------------------|---|
| Livestock<br>(Type)            | clarification purposes break down the type of livestock further, such as “brood cows,” “market animals,” “calves,” etc., when applicable.<br>Enter each different type of livestock as a separate set of information.   |
| B3a<br>Units Raised            | For the type described only, enter the number of livestock that were raised on the farm for each of the three preceding years.  |
| B3b<br>Units<br>Purchased      | For the type described only, enter the number of livestock that were purchased for each of the three preceding years.   |
| B3c<br>Total Units             | Enter the total number of livestock (the total of units raised and units purchased) of this type for each of the preceding three years.   |
| B3d<br>Units Sold              | Enter the total number of livestock of this type that were sold during each of the preceding three years.   |
| B3e<br>Death Loss              | Enter the total number of loss due to death for the type of animal described in item B1 for each of the preceding three years.  |
| B1f<br>Purchase<br>Weight      | Enter the average weight per unit of livestock that was purchased for sale in each of the three preceding years.  |
| B1g<br>Sales Weight            | Enter the average weight per unit of livestock that was sold in each of the three preceding years.  |
| <b>C</b>                       | <b>Crop Production</b>  |
| C1<br>Crop/Unit                | Enter a description for each type of crop and how that unit is marketed (bushels, pounds, etc.) for all crops raised in each of the three preceding years.<br><b>Note:</b> Complete a separate section for each type of crop raised, including crops that were only raised for a portion of the reporting period. |
| C1a<br>Total Yield             | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C1b<br>Acres                   | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C1c<br>Average<br>Yield        | Enter the average yield per acre of the described crop for each of the three preceding years. Average yield should be the total yield divided by the number of acres.   |
| C2<br>Crop/Unit                | Enter a description for each type of crop and how that unit is marketed (bushels, pounds, etc.) for all crops raised in each of the three preceding years.  |
| C2a<br>Total Yield             | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C2b<br>Acres                   | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C2c                            | Enter the average yield per acre of the described crop for each of the  |

| <b>Fld Name /<br/>Item No.</b> | <b>Instruction</b>  |
|--------------------------------|---|
| Average Yield                  | three preceding years. Average yield should be the total yield divided by the number of acres.  |
| C3<br>Crop/Unit                | Enter a description for each type of crop and how that unit is marketed (bushels, pounds, etc.) for all crops raised in each of the three preceding years.            |
| C3a<br>Total Yield             | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C3b<br>Acres                   | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C3c<br>Average Yield           | Enter the average yield per acre of the described crop for each of the three preceding years. Average yield should be the total yield divided by the number of acres. |
| C4<br>Crop/Unit                | Enter a description for each type of crop and how that unit is marketed (bushels, pounds, etc.) for all crops raised in each of the three preceding years.            |
| C4a<br>Total Yield             | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C4b<br>Acres                   | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C4c<br>Average Yield           | Enter the average yield per acre of the described crop for each of the three preceding years. Average yield should be the total yield divided by the number of acres. |
| C5<br>Crop/Unit                | Enter a description for each type of crop and how that unit is marketed (bushels, pounds, etc.) for all crops raised in each of the three preceding years.            |
| C5a<br>Total Yield             | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C5b<br>Acres                   | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C5c<br>Average Yield           | Enter the average yield per acre of the described crop for each of the three preceding years. Average yield should be the total yield divided by the number of acres. |
| C6<br>Crop/Unit                | Enter a description for each type of crop and how that unit is marketed (bushels, pounds, etc.) for all crops raised in each of the three preceding years.            |
| C6a<br>Total Yield             | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C6b<br>Acres                   | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C6c<br>Average Yield           | Enter the average yield per acre of the described crop for each of the three preceding years. Average yield should be the total yield divided by the number of acres. |
| C7                             | Enter a description for each type of crop and how that unit is marketed   |

| <b>Fld Name / Item No.</b> | <b>Instruction</b>  |
|----------------------------|---|
| Crop/Unit                  | (bushels, pounds, etc.) for all crops raised in each of the three preceding years.  |
| C7a<br>Total Yield         | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C7b<br>Acres               | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C7c<br>Average Yield       | Enter the average yield per acre of the described crop for each of the three preceding years. Average yield should be the total yield divided by the number of acres. |
| C8<br>Crop/Unit            | Enter a description for each type of crop and how that unit is marketed (bushels, pounds, etc.) for all crops raised in each of the three preceding years.            |
| C8a<br>Total Yield         | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C8b<br>Acres               | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C8c<br>Average Yield       | Enter the average yield per acre of the described crop for each of the three preceding years. Average yield should be the total yield divided by the number of acres. |
| C9<br>Crop/Unit            | Enter a description for each type of crop and how that unit is marketed (bushels, pounds, etc.) for all crops raised in each of the three preceding years.            |
| C9a<br>Total Yield         | Enter the total yield (bushels, pounds, etc.) for each crop described above, for each of the three preceding years.   |
| C9b<br>Acres               | Enter the total number acres of the described crop raised in each of the three preceding years.   |
| C9c<br>Average Yield       | Enter the average yield per acre of the described crop for each of the three preceding years. Average yield should be the total yield divided by the number of acres. |
| <b>D</b>                   | <b>Signature</b>  |
| D1<br>Signature            | Enter the applicant's signature.  |
| D2<br>Date                 | Enter the date the applicant signed the form.   |
