Assurance number: FWA00003425
 IRB number: IRB00000051
 Administrator:

The HSPC is RAND's Institutional Review Board to review research involving human subjects, as required by federal regulations. RAND's "Federalwide Assurance for the Protection of Human Subjects" (FWA00003425, effective through August 5, 2013, at <http://intranet.rand.org/groups/hspc/fwa.pdf>) serves as our assurance of compliance with the regulations of 16 federal departments and agencies. According to this assurance, the Committee is responsible for review regardless of source of funding.

Principal investigators are responsible for:

- * Submitting research for HSPC screening (<http://rhino>) and review if determined to involve human subjects and be nonexempt,
- * Complying with HSPC requirements before subject enrollment or data acquisition begins (or reporting any objections to those conditions for further consideration),
- * Submitting any changes in the research that affect human subjects or in HSPC-approved documents for HSPC approval before implementation (<http://rhino>),
- * Reporting progress of reviewable research at least annually,
- * Reporting immediately any harms to human subjects or other unanticipated events involving risks to subjects or others, or potential disclosure of private identifiable information (<http://rhino>), and
- * Complying with the RAND Policy and Procedure on Acquiring and Safeguarding Proprietary and Private Information (<http://intranet.rand.org/pp/priv.info.html>).

Sincerely,

Name
Tora Bikson
