# 1 INTRODUCTION

---

The purpose of this document is to list all the data elements collected online from the health agencies that wish to submit a proposal to apply as a hosting site for the Public Health Associate Program (PHAP) program. The data element differences between PHAP and other CDC fellowship programs are documented in Appendix B. The data elements are broken by the high level entities in the system.

The Fellowship Management System (FMS) Host Site application system is a streamlined application for the Centers for Disease Control and Prevention (CDC) fellowships where the hosting agencies can submit their information online as well as track the various statuses of the application (i.e., all materials received, whether they are selected as a hosting agency). FMS is a robust flexible framework and has been successfully tailored for the various CDC fellowships including PHAP.

## 1.1 DOCUMENT STRUCTURE

---

This document is broken down by the major sections of the application process. The application instructions and login & registration pages are documented as the separate sections. A section has its own chapter that is further divided by subsections where applicable. Each section/subsection contains:

- Table that lists the data elements (columns name), columns label, high level entity, list of values, and the figure numbers.
- Screen-shots to illustrate the instructions and label of the data elements.

The consolidated lists of values are documented in Appendix C.

The emails generated by system are documented in Appendix A, and the data element differences between the PHAP and other programs are documented in Appendix B.

Below this is the CDC logo and the text 'Department of Health and Human Services, Centers for Disease Control and Prevention'. The main heading is 'PHAP Host Site Application'. On the left, there is a 'Topic Contents' sidebar with links for PHAP Home, Log In, and Help. The main content area includes the title 'PHAP Host Site Application', a link for first-time visitors to 'Register Now', a paragraph describing the program, and a link to 'Application Instructions'. On the right, there is a 'Log In' form with fields for E-mail and Password, and a 'Log In' button. Below the form is a link for 'Forgot your E-mail or Password?'. At the bottom right, there is a 'Contact PHAP' box with the program's address, phone number, and email. The footer contains links for Home, Policies and Regulations, Disclaimer, e-Government, FOIA, Contact Us, and Privacy Act and Public Burden Information.

## 3 APPLICATION INSTRUCTIONS

---

### Application Instructions

#### Eligibility

Host sites for the Public Health Associate Program (PHAP) must be public health agencies or organizations engaged in the delivery of public health services at the community level, including state, territorial, city, county and tribal entities as well as CDC Quarantine Stations. Applications will be accepted only from eligible host sites that submit an application to PHAP, utilizing the PHAP Host Site Application at (NEED URL)

Associates will be assigned to work within the host sites' organizational environments under the terms of PHAP's Agreement to Detail Civil Service Employees (linked on the CDC PHAP website). Consequently, host sites must have a signed copy of this document on file at CDC prior to the start date of the assigned Associate. Questions concerning the Agreement to Detail should be directed to PHAP at [phap@cdc.gov](mailto:phap@cdc.gov)

#### Host Site Requirements

The following program requirements apply to all Associateships:

1. Associateships should consist of two, one-year job assignments suitable for candidates with a bachelor's degree and little to no public health experience. The assignments will involve implementing public health interventions at the community level in the Program Areas listed below:  
Program Areas
  - STD
  - TB
  - HIV
  - Maternal/Child Health
  - Chronic Disease
  - Environmental Health
  - Public Health Preparedness
  - Global Migration and Quarantine
  - Injury Prevention
  - Immunization
  - Other Communicable Diseases
2. Different program areas for Year 1 and Year 2 assignments are strongly encouraged. Sites with a high HIV incidence rate may request to host an associate for HIV-related work for two years and are not required to rotate between programs.

FIGURE 3—K

3. The proposed associate activities should address the host sites needs and ensure the development of specified competencies. The competencies reflect the program's mission to prepare highly qualified, entry-level professionals who are capable of meeting public health workforce needs through frontline experience in state, tribal, local and territorial public health agencies. Therefore, a detailed plan to develop Associate competencies should be documented and noted in the application. A listing of competencies is provided at the end of this document and is listed in the Host Site Application.
  4. Host sites must assure the availability of an on-site Local Supervisor to provide day-to-day direction for the Associate, interact with CDC program managers, participate in the CDC Orientation Seminar , conduct Associate performance reviews and develop a detailed Associate Development Plan. The Local Supervisor should have direct responsibility over the functions to be performed by the Associate to ensure that the Associate is provided the level of guidance, direction, performance assessment and training needed to perform the required job functions.
  5. Financial support for work-related, in-state travel and training will be provided by the host site (or an appropriate state program) to enable the Associate to carry out assigned work and operate effectively in the local environment. Training provided by host sites will include both employment training (safety, security, information technology, standards of conduct, etc., in accordance with state/local requirements) and also program-specific training to enable and enhance work performance.
  6. Host sites may apply for more than one Associate. A separate application must be completed for each Associate being requested.
- **March 1, 2011:** Deadline for submission of the online application. All supporting documents must be postmarked by this date.

### Application Finalization

After all sections of the application are completed, the host site will be able to submit the Application. After an application is submitted it cannot be updated (but can be withdrawn – see Withdraw Application button).

The application can be printed both while in progress and after submission.

A host site can track their application status (pending, submitted, withdrawn) and the current status of the review in the Track Your Application section.

### Application Submission

Applications must be submitted through the website application.

If there is a problem with the website, please contact [phap@cdc.gov](mailto:phap@cdc.gov) with your return contact information and a PHAP Team Staff member will contact you to discuss a resolution or alternative arrangements.

### Application Deadline

Applications must be submitted no later than 11:59pm (Eastern) on MONTH, DATE, YEAR.
