

2011 SOTS Finance & Personnel Survey

Background

Thank you for agreeing to complete the Safe States Alliance **2011 State of the States (SOTS) Finance & Personnel Survey**. The SOTS survey is administered to each U.S. state health department injury and violence prevention (IVP) program to develop a comprehensive picture of the status of these programs over time.

As of this year, Safe States will split the SOTS survey into two components:

1. Survey #1 (Late Summer 2011) will assess state IVP program finances and personnel; and
2. Survey #2 (Early Winter 2012) will assess other core components related to infrastructure, data, programs, training, and policy.

The SOTS Finance & Personnel Survey is intended to help us better understand how states finance their injury and violence prevention programs and strengthen our ability to advocate, such as improving our ability to quickly quantify the potential impact of losses in particular sources of funding. The information collected through this survey will:

- Be used to generate an annual report on the state of injury and violence prevention programs in the U.S.;
- Provide the fourth year of data for measuring changes in these injury and violence prevention programs over time;
- Inform partners at the federal, national, state and local levels about the activities in the states or nation;
- Be used by Safe States to share in-depth information with state directors about possible program funding sources; and
- Help Safe States develop future programs and services to support our members.

We know your time is valuable. In designing and testing this survey, Safe States has made every effort to limit the questions to those most essential in developing a profile of state IVP programs. Depending on the size and breadth of your program, it will take approximately X hours to gather the needed information and complete this questionnaire.

PLEASE COMPLETE AND SUBMIT YOUR SURVEY BY MONDAY, AUGUST 29, 2011.

Most data collected will be presented in aggregate. If you have any questions about the questionnaire, please contact Jamila Porter at 770-690-9000 or jamila.porter@safestates.org.

Thank you for your contribution to this important and exciting project!

2011 SOTS Finance & Personnel Survey

Instructions & Deadline (MONDAY, AUGUST 29, 2011)

The **2011 State of the States (SOTS) Finance & Personnel Survey** asks for information about several aspects of your state's injury and violence prevention program funding sources and personnel.

Please answer the questions based on the status of your program during Federal Fiscal Year 2011 (October 1, 2010 - September 30, 2011).

You may find it helpful to first review the hard copy of the survey (emailed to your State Representative) in order to gather all necessary information before beginning the survey. You also may find it helpful to coordinate completion of the survey among your staff by distributing hard copies of the staffing section and other portions of the survey to appropriate staff members who are most knowledgeable about the specific topics addressed.

There are several ways to complete the survey:

- **Complete the entire survey online through Survey Monkey;**
- **Complete the survey in hard copy first, then enter all responses online through Survey Monkey; OR**
- **Complete the entire survey in hard copy and fax (770-690-8996) or email it (info@safestates.org) to Safe States for data entry.**

If you cannot use one of these methods to complete the survey, please contact Jamila Porter at Safe States (770-690-9000) to identify an alternative arrangement.

PLEASE COMPLETE AND SUBMIT YOUR SURVEY BY MONDAY, AUGUST 29, 2011.

PLEASE NOTE: If you choose to complete the survey online, you will be able to save your responses to allow you to complete the survey over several days or weeks. Your responses are saved when you click on the "next" button at the bottom of each page of the survey. You can access the survey to continue or edit your previous responses by using the same computer each time. When you re-access the survey, you will begin on the last completed page (not the beginning of the survey). ***If you try to complete the remainder of the survey using a different computer, you will not see any of your previous data.***

Additional notes about the survey:

- Throughout the questionnaire, the acronym IVP is used to indicate "injury and violence prevention."
- The intent of this survey is to assess the program within the state health department that is considered the PRIMARY or CENTRAL FOCUS of IVP activities. In completing the questionnaire, please focus your responses on the one program that is considered the PRIMARY or CENTRAL IVP program -- whether the focus is on unintentional injury, intentional injury (violence), or both. In some states, however, there simply is no central IVP program. Perhaps there is no funding or personnel, or prevention activities may be spread among programs and units with no coordinating program or staff. Regardless of how your program is defined, the individual or program charged with program planning, strategic planning and/or policy development for IVP should answer the questions to the best of their ability based on what is considered to be the PRIMARY or CENTRAL FOCUS of your state's IVP activities.

If you have any questions or concerns about how to define the boundaries of your state's program, please contact Jamila Porter at 770-690-9000 jamila.porter@safestates.org to discuss. Clarification before completing the questionnaire will help ensure that the data collected are comparable across states.
