The OneNet T/TA Activity Form captures substantial T/TA. "Substantial T/TA" describes services that are tailored to the specific needs of the State/Tribe in response to a request or application for T/TA. Substantial T/TA is expected to build the requestor's capacity. For the purposes of OneNet entry, substantial T/TA involves at least one hour of either direct TA (in person or remote communication between the provider and the T/TA recipient) or indirect TA (efforts by the provider to prepare tailored products, content, or feedback in lieu or support of direct consultation) in a single business day. Substantial T/TA can be provided either during an onsite visit at a State/Tribal jurisdiction or when a provider is off-site. OneNet records substantial T/TA in two ways. First, it capture the hours of direct contact received by the recipient. Second, it captures the total hours of direct and indirect effort involved in the delivery of the substantial T/TA.

Items with an asterisk after the label are required.
