

Early Head Start Follow-up Study
Third party contact script

Hello, this is _____ calling from RAND. I am trying to reach PARENT NAME about a research study he/she participated in. When we last spoke with PARENT NAME, he/she gave us your name and number and said that if we couldn't reach him/her, we could call you, and you would know how to reach him/her.

We would like to speak with PARENT NAME for a very brief phone interview. After he/she completes the survey, we will send \$10 with our thanks. This is a voluntary research study. He/she can choose not to participate.

Do you have a phone number for PARENT NAME?

Would you willing to give him/her a message with our phone number?
This is the Early Head Start Study, and our project toll-free number is 1 (888) 800-3748.

Thank you.
