## OMB No: EXPIRATION DATE:

THE PAPERWORK REDUCTION ACT OF 1995: Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

## **Survey of Organization/System Readiness**

Section A, **Respondent's Characteristics**, gathers basic information about you and your familiarity with the Permanency Innovations Initiative (PII).

A7. Which of the following best describes your current position?

Questions A8-A9 ask about your experiences with evidence based interventions (EBI). An EBI has an evidence base which supports its effectiveness and is typically "manualized" which means that it has specific practice guidelines that are described in a written manual. Case workers are expected to follow these practice guidelines when providing services prescribed by an EBI.

Section B, **Evidence Based Interventions**, contains questions that explore your perceptions of using an established evidence based intervention or building a new evidence based intervention to improve permanency outcomes for children at risk of long term stays in foster care.

Please indicate the extent to which you agree with the following statements using the following scale: Strongly Disagree; Disagree; Neither Agree nor Disagree, Agree, Strongly Agree.
