

**Annual Mandatory Collection of Elementary and Secondary
Education Data through *EDFacts***

January 2013

ATTACHMENT C

***EDFacts* Data Set
Changes from SY 2012-13**

Revised based on 30-day public comments.

INTRODUCTION

This attachment lists the changes between the EDFacts data set used for school year (SY) 2012-13 and the data set proposed for clearance for SYs 2013-14, 2014-15, and 2015-16. **In order to see the comprehensive proposed collection, please review the B attachments.** Part One of this attachment contains the changes that were included during the 60-day public comment period, plus changes that were made in response to public comments received. All changes (additions, revisions, deletions) are listed together under the stewarding program office. Part Two of this document outlines additional changes that were not included in the package for the 60-day public comment period but were proposed prior to the 30-day public comment period in order to align EDFacts with other collections (e.g. the Consolidated State Performance Report), streamline data collection, or improve internal data usage. Changes made as a result of comments received during the 30-day public comment period are noted with a red “*” and are shown, where applicable, using underlined text (for additions) and stricken text (for deletions). The tables below provide a quick reference to each section.

PART ONE

EDFACTS, GENERAL

EDFACTS: AGE/GRADE CATEGORIES

As programs that bridge secondary and postsecondary education grow, there is a need to properly account for the enrollment and achievement of high school students who have successfully completed the grade 12 school year, or a 4th year of high school, but continue in high school to take college credit courses. To provide more complete and accurate reporting of student enrollment and grades offered, the permitted value “13/Postgraduate” for the Grade Level and Grade/Age data categories was replaced with “Grade 13.” This change has resulted in several of the Grade Level and Grade/Age data categories being revised and one new category being created. To see the changes and the impacted data groups, go to Attachment B-4, pages 6-9 for a full listing of the Age and Grade categories. For a detailed explanation of the proposed Grade 13 permitted value, including the definition, see the membership section of Attachment E.

NATIONAL CENTER FOR EDUCATION STATISTICS: NON-FISCAL COMMON CORE OF DATA

NCES: FREE AND REDUCED-PRICE LUNCH

Given recent changes in the National School Lunch Program, particularly the addition of the Community Eligibility Option, the quality of Free and Reduced-Price Lunch (FRPL) data in its effectiveness as a proxy for poverty is declining. ED has engaged in a number of discussions with the U.S. Department of Agriculture (USDA) to understand the new provisions and their impact on the FRPL data. We have confirmed with USDA that the proposed data are not currently collected at the school level. To better understand the data reported by state educational agencies (SEAs), ED is proposing the addition of the following data group. *Note: This proposed data group has been revised based on comments received during the 60-day public comment period and the 30-day public comment period.*

NEW

Group Name: NSLP status		DG: TBD
Section	Education Unit	
Definition	An indication of the participation by a school in the National School Lunch Program.	

Permitted Values	<ul style="list-style-type: none"> • Yes, participating without using any Provision or the CEO • Yes, under Provision 1 • Yes, under Provision 2 • Yes, under Provision 3 • Yes, under Community Eligibility Option (CEO) • No 		
*Reporting Period	October 31 <u>November 30</u>		
Reporting Levels	School <input type="checkbox"/>	LEA <input type="checkbox"/>	State <input type="checkbox"/>
Grand Total (Education Unit Total)	<input type="checkbox"/>		
Comment			
File Specification #	TBD		
STEWARD: NCES			

In response to comments received during the 60-day public comment period, the following data groups will NOT be added to EDFacts:

- Directly certified students
- Free and reduced price lunches served

NCES: LEA STUDENTS SENT AND RECEIVED

Originally proposed as “Students for whom tuition is paid (tuition-out)” and “Students for whom tuition is received (tuition-in),” these data groups have been revised based on comments received during the 60-day public comment period and the 30-day public comment period. In order to better understand the delivery of education services and to more accurately calculate per pupil expenditures, ED is proposing the addition of the revised data groups to determine the number of students who are sent to or received by an LEA. These additional counts should improve ED’s ability to reconcile differences between LEA membership (students for whom the LEA receives funding) and an LEA’s aggregated school membership (students served in schools).

NEW

Group Name: Students sent to schools outside the LEA (students sent)		DG: TBD
Section	Students	
Definition	The number of students for whom the LEA is financially responsible, but who are educated in schools outside of the LEA.	
Permitted Values	<ul style="list-style-type: none"> • Integer 	
Reporting Period	October 1	
Reporting Levels	School <input type="checkbox"/>	LEA <input type="checkbox"/> State <input type="checkbox"/>
Grand Total (Education Unit Total)	<input type="checkbox"/>	

Comment	These are students included in the sending LEA's reported membership, but not in the membership of any of the sending LEA's own schools.
File Specification #	TBD
STEWARD: NCES	

NEW

Group Name: Students received from other LEAs (students received)		DG: TBD
Section	Students	
Definition	The number of students from other LEAs who are educated in schools in the reporting LEA.	
Permitted Values	<ul style="list-style-type: none"> • Integer 	
Reporting Period	October 1	
Reporting Levels	School <input type="checkbox"/>	LEA <input type="checkbox"/>
Grand Total (Education Unit Total)	<input type="checkbox"/>	
*Comment	These students are included in the sending LEA's reported membership, but not in the membership of any of the sending LEA's own schools. They are not included in the receiving LEA's reported membership, but are included in the membership of the receiving LEA's school where they are instructed.	
File Specification #	TBD	
STEWARD: NCES		

.....
NCES: VIRTUAL SCHOOL STATUS
.....

The provision of virtual education is rapidly evolving. A school's status as a "virtual only" school could have a major impact on its allocations of resources, teacher and student relationships, and numerous other variables. Many traditional measures of school progress may make no sense for a virtual school, whose student composition and size may change radically from year to year. In order to accurately track changes and evaluate validity of certain school-level indicators, ED is proposing the addition the following data group denoting virtual school status that will be used to designate schools reported in the school-level directory file as virtual schools. *Note: This proposed data group has been revised based on comments received during the 60-day public comment period.*

NEW

Name	DG	Source	Level(s)
Virtual school status	TBD	SEA	School

Definition: A public school that offers only instruction in which students and teachers are separated by time and/or location, and interaction occurs via computers and/or telecommunications technologies. A virtual school generally does not have a physical facility that allows students to attend classes on site.

Code Set:

- Yes
- No

OFFICE OF CIVIL RIGHTS

.....
CIVIL RIGHTS DATA COLLECTION (CRDC)
.....

The Civil Rights Data Collection (CRDC) will no longer be cleared as part of the EDFacts collection. Beginning with the SY 2013-14 survey, the CRDC will be cleared as a separate data collection.

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION

.....
OESE: EDUCATION TECHNOLOGY
.....

The following data groups will be **deleted** from the EDFacts data set.

DELETED

Group Name: 8th grade technology literacy table		DG: 650	
Section	Student		
Definition	The unduplicated number of 8th graders in each local education agency (LEA) evaluated for technology literacy under the LEA's methodology as defined by the state at the end of 8th grade (according to Title II, Part D, Section 2402 of ESEA as amended).		
Permitted Values	• Integer		
Reporting Period	By the End of the School Year		
Reporting Levels	School <input type="checkbox"/>	LEA <input type="checkbox"/>	State <input type="checkbox"/>
Grand Total (Education Unit Total)	<input type="checkbox"/>		
Comment	States determine the evaluation method. Examples of evaluation		

	methods are teacher assessment through direct observation and statewide technology assessments.

OFFICE OF INNOVATION AND IMPROVEMENT

OII: CHARTER SCHOOL PROGRAM

The Charter School Program (CSP) has made significant progress in obtaining reliable data needed to respond to questions related to statutory requirements and the study of charter schools; however, sufficient authorizer data are not currently available to the CSP through EDFacts. Authorizer data are important to assist ED with the development of program policy, guidance, and technical assistance for grant administration. Charter school authorization is also at the crux of any efforts to expand and ensure high-quality public school choice options through public charter schools because charter school authorizers are the public entities primarily responsible for initial charter authorizations, on-going monitoring and oversight, and charter renewal and closure decisions.

ED is proposing the creation of a Charter Authorizer Roster (or directory) through EDFacts that would include the following changes and new data groups:

- Change DG27, Charter status, by dropping the LEA level. Instead, in the directory file, charter districts will be identified using the agency type of “charter district.” In addition, charter districts will provide information on LEA type (DG 653), which was first collected in SY 2012-13 and is shown below. This data group will be moved to the directory file beginning with SY 2013-14.
- Collect directory data groups related to charter authorizers.

In addition to the changes related to LEA charter status and charter authorizers, four data groups that were approved for collection beginning with SY 2010-11 but were never implemented within the EDFacts collection system will be removed from the EDFacts data set.

Listed below are the specific changes. For additional information, see Attachment B-1.

REVISED

Name	DG ID	Source	Level(s)
Charter status	27	SEA	School

Definition: An indication of whether the school provides free public elementary and/or secondary education to eligible students under a specific charter granted by the state legislature or other appropriate authority and designated by such authority to be a charter school.

Permitted Values:

- Yes
- No
- NA

REVISED

Name	DG ID	Source	Level(s)
Charter LEA status	653	SEA	LEA

Definition: The status of a charter district as an LEA for purposes of federal programs.

Permitted Values:

- NA – State does not have charters or state does not permit charter LEAs
- Not a charter district – State has charter LEAs but this LEA is not a charter LEA.
- Charter district which is an LEA for programs authorized under *IDEA*, *ESEA* and *Perkins*
- Charter district which is an LEA for programs authorized under *ESEA* and *Perkins* but not under *IDEA*
- Charter district which is an LEA for programs authorized under *IDEA* but not under *ESEA* and *Perkins*
- Charter district which is not an LEA for any federal program

NEW

Name	DG	Definition

OFFICE OF SPECIAL EDUCATION PROGRAMS

.....
OSEP: IDEA PART B, SECTION 618, TABLE 8

The following new data element will be added to the Table 8 collection in EMAPS:

- Report the identification category for each LEA or ESA that provided coordinated early intervening services:
 - Identification
 - Identification by disability
 - Placement
 - Disciplinary Actions

The following new metadata request will be added to the Table 8 collection in EMAPS:

- Provide the state’s definition of significant disproportionality.

In addition, in response to public comments, the reporting of subtotals for DG74, Children with disabilities (IDEA) school age table, will be optional beginning with SY 2013-14.

PART TWO

This section includes additional changes that have been proposed following the publication of the 60-day comment clearance package. These changes are being proposed to improve alignment with other collections (e.g. the Consolidated State Performance Report), streamline data collection, or improve internal data usage.

In addition to these proposed changes, the EDFacts Data Governance Board has discussed the need to review the Standard Occupational Codes used by the Equal Employment Opportunity Commission (EEOC) and consider integrating these codes into EDFacts where data are collected on staff. Such changes are not being included in this clearance, but ED has recently begun discussion on these changes in anticipation of revising permitted values for staff data in the next three-year EDFacts clearance.

OESE: NEGLECTED OR DELINQUENT PROGRAM

ED is streamlining its collection of data on long term students served by the Neglected or Delinquent (N or D) Program. ED is proposing the elimination of two existing data groups

(DG672 N or D long term table – state agency, and DG671 N or D long term table – LEA) plus the elimination of two categories (Pre-post Test Indicator and Pre-test Results) and the addition of one new category (N or D Long Term Status) to be used in DG656 N or D participation – state agency and DG657 N or D participation – LEA. These changes will allow ED to improve the quality of the long term student counts by collecting these data directly, rather than aggregating them from the pre- post-test indicator in category set A of DG671 and DG672. In addition, it reduces burden by eliminating data on pre-test results that were not widely used. These changes also allow the N or D Program to extend flexibility to states in whether they administer mathematics and reading assessments to long term at-risk students. In previous years, assessment data were needed to calculate the long term N or D participant counts for all programs, including at-risk programs.

OESE: SCHOOL IMPROVEMENT GRANT PROGRAM

ED has begun making extensive use of the data collected on the School Improvement Grant (SIG) program. In order to better evaluate and monitor the grant program, beginning with SY 2013-14 ED had proposed collecting data for all schools for the data groups listed below. Formerly, these data were only collected for Tier I and Tier II SIG schools. However, it is not possible to evaluate the SIG program and provide technical assistance to grantees without having comparable data for non-participating schools. ***As a result of comments received during the 30-day public comment period, the collection of these data groups will not be expanded to all schools.**

Data Group Name	DG ID	Current File Spec
LEP English language proficiency results table	676	139
Achievement percentile table	751	159
Average scale score table	730	159
Truants	664	163
Advanced coursework/dual enrollment classes	734	167
Advanced coursework	732	167
Dual enrollment classes	733	167
School year minutes	729	167
Student attendance rate	731	167
Teacher attendance rate	735	167

OESE: TITLE I PROGRAM (NON-ACCOUNTABILITY PROVISIONS)

In order to accurately calculate the percentage of Title I, Part A funds reserved for parental involvement as required in the Consolidated State Performance Report (CSPR), a new data group will be added to collect Title I, Part A allocations. This new data group, together with the DG777, Parental involvement reservation, will be used in the CSPR beginning in SY 2013-14, thereby eliminating the need for manual data entry for this CSPR question.

NEW

Group Name: Title I, Part A Allocations		DG: TBD
