

FERC-920 (OMB Control No. 1902-0255, pending ICR 201302-1902-003 on the final rule in Docket RM12-3 on the Electric Quarterly Report [EQR]).

Notes

On 4/18/2013, the FERC issued rehearing Order 768-A (at <http://elibrary.ferc.gov/idmws/common/OpenNat.asp?fileID=13237098>, in Docket RM10-12-002) with an updated EQR Data Dictionary (Version 2.2) attached. The updates to the Data Dictionary are basically corrections or clarifications and administrative in nature; there are **no** changes to the FERC-920 reporting requirements.

Subsequent to a conversation with OMB, FERC is adding Order 768-A to the Supplementary Documents in ROCIS in the pending ICR. The attached, updated EQR Data Dictionary (Version 2.2, issued 4/18/2013) supersedes earlier Version 2.1¹ of the Data Dictionary.

¹ The EQR Data Dictionary (Version 2.1 (issued 11/15/2012), attached to an Errata Notice issued 11/19/2012 in Docket RM12-3) is retained in Supplementary Documents in ROCIS in the pending ICR for information only.
