Disaster Recovery Grant Reporting System Training for NSP Users

Release 7.3

Session Rules

- Ask lots of questions
- Set all cell phones to silent or vibrate.
- Raise your hand if you are having computer problems or fall behind. We are here to help!

Today's Agenda

- Quick overview of yesterday's material
- Items to be covered:
 - Drawdown Module
 - Admin Module
 - Reports Module
 - Telling Your NSP Story via DRGR
 - Common Issues & Troubleshooting
- Q&A Session

The Basics: DRGR Modules

Admin

Assign and certify users; add and track TA and Monitoring Events

Action Plans

Identify activities to be funded by organization, activity type, and project.

Drawdowns

Obligate funds for draws; create, approve, edit vouchers; receipt program income

QPRs

Summarize drawdowns, expenditures, obligations, and achievements for the quarter

Reports

Look at financial, reporting, and user account information in an easy-to-read and exportable format

Action Plan Review: City of Zorro Example - Activity Structure

- Financing Mechanisms (Eligible Use A)
 - City LLR LH25
 - City LLR LMMI
 - Sub recipient LLR LH25
- Acquisition/Rehab (Eligible Use B)
 - Sub recipient Acquisition/Rehab LH25
 - City Single Family Acquisition/Rehab LMMI
 - City Multi-Family Oak Street Property LH25
 - City Multi-Family Elm Street Property LH25

Action Plan Review: Accomplishments

<u>Performance Measure</u>	<u>NSP1</u>	<u>NSP2</u>	<u>NSP3</u>
Households Benefitting	Required	Required	Required
Housing Units	Required	Required	Required

Green Measures	Encouraged	Required*	Required*

NSP2 & NSP3 grantees are required to identify and report on certain green features. HUD is requiring all 'gut rehab' and new construction must be designed to meet, at a minimum, the standard for Energy Star Qualified New Homes. Those grantees who chose to include higher green measures (like Enterprise Green Communities or LEED) in their application and/or substantial amendment should be reporting on that.

QPR Review

- Purpose
 - Report progress for quarter and cumulative basis by:
 - Identifying accomplishments once a national objective has been met
 - Pulling financial data as entered in the Drawdown Module
 - Detail, in narrative format, progress of the grant as a whole and per activity
- HUD FO role
 - Approval or rejection of the QPR in a timely manner
 - Provide and share comments with grantees (if desired)

DRGR Navigation Rules

- Navigate using DRGR Links, rather than your browser's.
- Never use your browser's BACK button.
- Logout using the Logout link in Utilities – don't just close the window.
- Save early, save often! System times-out after 20 minutes.
- If you want to copy/paste text into DRGR, do so from Notepad or a file in .txt format.

Program Income (PI)

- Purpose and Functionality of Updates (Release 7.3)
 - Budgeting
 - PI Receipts
 - PI Accounts

Program Income (PI): Purpose of Updates

As of Release 7.3, the changes in DRGR now:

- allows Activity budgets and obligations to include estimated program income for budgeting to be more interactive.
- complies with the requirements for spending program income first.
- creates a means (called Program Income Accounts) that identifies organizations that a grantee allows to retain PI, and not return to the grantee, for their own uses.
- identifies each PI transaction rather than recording amounts quarterly as in the past.
- creates a means (at the Project level) for users to identify Revolving Loan Funds (RLF)

PI: Functionality of Updates

Budgets: Add estimated PI at the grant level as a distinct line item.
Add estimated PI as a component of the Project/Activity Budget.

Draws: To draw funds, DRGR *requires all Program Income received in each RLF or PI account to be used before Program Funds*. Similar rules apply to activities outside RLF and PI accounts (termed “General Account” for PI)

PI Account: *Add and Edit/Search Program Income Accounts* to identify activities with the organization they fund that are allowed to retain PI for their own uses.

PI Receipt: *Create and Edit/Search Program Income Receipts* to identify each PI transaction rather than recording amounts quarterly as in the past.

PI: Budgets at the Grant Level

Estimate the amount of Program Income the grant will receive over the grant. Re-evaluate regularly to ensure enough funds to accommodate project and activity budgets.

PI: Budgets for Project/Activity

- Total Project and Activity budgets must include program funds and **estimated program income**.
- Re-evaluate regularly to ensure enough funds to accommodate project and activity budgets.
- Math Rules:

Project/Activity Budget = Program Funds + Estimated PI

Total Budget (Grant Funds + Estimated PI/RL Funds) \geq
Sum of Total Project Budgets \geq
Sum of Total Activity Budgets (per Project)

PI Categories

PI will now be categorized as:

- *General Account*: Pool of all PI receipted that is not in any individual RLF or PI Account(s).
- *PI Account(s)*: Separate accounts created by grantee to identify Activities under their funding agreements with their organizations that allow these organizations to RETAIN and use PI on their own Activities. In effect, *PI Accounts allow users to “wall off” PI receipts for specific Activities.*
- *Revolving Loan Fund(s)*: Projects to identify activities of a single Activity type where loan repayments are used to fund new loans

General Account

All PI received on any unassigned Activity must be disbursed before PF on any unassigned Activity

PI Account

All PI received in an any Activity in each PI Account must be disbursed before PF in the PI Account

RLF Project

All PI received in an any Activity in each RLF project must be disbursed before PF in the RLF Project

PI Receipts

PI received is recorded in the Drawdown Module as a receipts for individual PI transactions

PI Accounts: Set-Up

- Established by Responsible Organization with, typically, all of the Activities associated with that Responsible Org. in their own PI Account.
- Program Income generated by an Activity in this account can only be used for itself or other Activities in that same account.
- Any Activities not assigned to a PI Account will remain in a General PI Account.

Program Income: Prior to Update

- Program Income recorded prior to the update was automatically turned into receipts based on the QPR and Activity in which it was entered.
- Activity Budgets and Obligations may have been automatically increased if PI was previously receipted through those activities.
- By using the Search/Edit Receipt function, grantees can modify previously recorded PI to be associated with another Activity.
(That Activity's budget might first need to be increased)

Program Income Review

- Activity budgets and obligations include estimated PI.
- Reinforces compliance with the FIFO requirements.
- Grantees can set up PI Accounts to allow their organizations to retain PI.
- PI is recorded in Drawdown module instead of QPR.
- Revolving Loan Funds (RLF) can be created at the Project Level.

Create/Approve Vouchers

Funds Drawn at Activity Level: Must have Request Drawdown role

Two Step Process for a Grantee

- Step 1: Create the voucher
 - Must have Draw Requester Role
 - Determine Program Funds v Program Income Funds
 - Select Activities to draw from
- Step 2: Approve Voucher
 - Must have Draw Approval role to approve
 - Approve / Reject entire voucher
 - Approve / Reject on line item basis
 - Provide comments

Create/Approve Vouchers: Daily Draw Thresholds

- Draw limit for NSP1 and NSP3 = \$5 million daily per draw
- Draw limit for NSP2* =
 - Units of general local governments and States: \$1,000,000 daily per draw;
 - Nonprofits: \$500,000 daily per draw
- If threshold exceeded, status = Approved Pending HQ
- Grantee must e-mail supporting info to HUD Rep
 - sufficient detail that the draw request was reviewed and approved in accordance with grantee procedures: should include support documentation with two grantee staff signatures/initials.
- HUD Review (by HUD HQ users with Draw Approval rights)
 - CPD Representatives must consult with HHQ prior to taking any action on a voucher.
 - Rely on HHQ for Guidance

Create/Approve Vouchers: Block Draws

- Draws can be blocked
 - at the grant and activity level by HUD (see next slide) or
 - at the activity level by the Grantee Admin
- Communicate with FO if draw is blocked by HUD
- Check for Restricted Balance projects

PI Available is calculated at the RLF and PI Account Level across activities

(Left Column)

Program Funds Available is calculated within the activity based on total budgets, draws and PI availability

Available Amount: Example

For this Activity, only have \$132,566.55 to Draw. PI MUST be drawn first and there is an available balance of PI will cover the entire balance of \$132,566.55

How is this information calculated?

- 1) PI available for the PI Account: \$5,679,494.47 Receipts - \$4,947,661.810 PI Draws = \$731,832.66
(General Account)
- 2) Total Drawn for Activity: \$296,771 PF Drawn + \$0 PI Drawn = \$296,771.00
- 3) Total Available for Activity: \$429,337.55 Obligated - \$296,771 Drawn = \$132,566.55
- 4) PF available for Activity: \$132,566.55 TOTAL Available - \$731,832.66 PI Available = \$0.00

Available Amount: Example #2

For this Activity, grantee has a total of \$630,000 to Draw. PI MUST be drawn first and there is an available balance of PI of \$140,000 to draw. After \$140,000 has been drawn, the grantee may draw the available Program Funds available equaling \$490,000.

How is this information calculated?

- 1) PI available for the PI Account : \$350,000 Receipts - \$210,000 PI Draws = \$140,000.00
- 2) Total Drawn for Activity: \$1,750,000 PF Drawn + \$120,000 PI Drawn = \$1,870,000.00
- 3) Total Available for Activity: \$2,500,000 Obligated - \$1,870,000 Drawn = \$630,000.00
- 4) PF available for Activity: \$630,000 TOTAL Available - \$140,000 PI Available = \$490,000

Program Income: Common Issues

1. Accounting for a NSP Revolving Loan Fund.
2. How does the grantee identify activities with the organizations they fund that are allowed to retain their program income?
3. PI previously entered under the wrong Activity.
4. Error message when attempting to receipt new PI.

1. PI: Common Issues

- Accounting for a NSP Revolving Loan Fund.

Solution: Grantees will be able to identify Revolving Loan Funds (RLF) using the PROJECT screen. Each RLF will allow users to identify activities where receipts will be recorded and PI will be disbursed under the RLF. RLF projects can only include activities with a single activity type.

2. PI: Common Issues

- A grantee has five organizations for their NSP grant. Of that, two of the organizations are allowed to retain their PI and three have to return their PI to the grantee. How does the grantee identify activities with the organizations they fund that are allowed to retain their program income?

Solution: Grantees are able to create PI accounts that allow them to identify activities and by Responsible Organization. Through these accounts, organizations can retain and use program income on their activities if allowed. Each PI account will allow users to identify activities where receipts will be recorded and program income will be disbursed. The grantee can also receipt PI received in a General Account to be used for other purposes.

3. PI: Common Issues

- If a grantee entered PI received in past QPRs under the wrong Activity, they may have difficulties in drawing down funds if they are identified as Scenario B or Scenario C (and D only if they should have established an RLF and hadn't yet).

Solutions:

- Edit the new RECEIPTS (created from past QPRS) in the drawdown module by an user with draw rights.
- Create RLFs and/or PI Account(s)
- Increase/Decrease Projects and Activity budgets as needed.

4. PI: Common Issues

- Error message when attempting to receipt new PI.

Solution: If a grantee has already drawn all of the estimated PI/RL funding (from Edit Action Plan screen), a grantee must increase the estimated amount. Then, they must increase the Project Budget and Activity Budget associated with the PI received.

To drawdown those funds, a grantee will also need to increase the obligated amount of the Activity.

Voucher Corrections: Revising A Voucher

- Grantee may need to revise an original voucher for numerous reasons:
 - Original costs incurred are not for the correct Activity
 - Error in accounting and costs need to be moved to another Activity
 - HUD deemed costs ineligible
- Grantee has two options:
 - Revise original voucher in DRGR AND off set next draw
 - Wire funds back to LOCCS
 - This option is used sparingly. Contact your CPD rep before wiring funds back. And, once a the wired funds is processed by HUD's CFO staff (out of Ft. Worth), there will show a negative draw on the grant and the grantee must assign the negative draw to the desired Activity.
 - ***When funds are returned to DRGR through wires or offsetting draws, users can now categorize these as collections and recaptures when assigning funds to new activities through the revisions.***

Voucher Corrections: Revising A Voucher Line Item

- Roles
 - To revise: Draw Requester
 - To approve the revisions: Draw Approver
- Conditions
 - Both activities funded from same grant
 - Destination activity has sufficient balance (budget and obligation)
 - Destination activity cannot be cancelled
 - Neither activity is blocked.
- Total amount of voucher does not change: only the amount charged to each activity changes

Voucher Corrections: Verifying sufficient balance (Fin Rept07b)

Monitoring, Audit, and Technical Assistance

Admin Module Review

- Module helps grantees demonstrate and detail oversight efforts
- Tracks grantees, not HUD's, oversight efforts
- Not a monitoring system – only captures summary data.
- Only summary info available on QPR; more detail available in Admin module

DRGR Reports

The Optional Module
Standard Reports
Modifying/Saving Reports
Public Reports

Reports

- Purpose:
 - Reports provide a relatively quick and easy way of accessing the most up-to-date information in DRGR related to user accounts, obligations and drawdowns, report status, etc.
- HUD FO:
 - Examine financial information and user account info
 - Determine AP/QPR review status.
- Grantee:
 - Examine financial information and user account info
 - Determine AP/QPR status.

Which reports you can access will vary based on the type of account you have. It is a purely OPTIONAL module.

Accessing Reports

1.  **Disaster Recovery Grant Reporting System (DrgrRep) - FY2008 - 001A**
Project description unavailable
 2.  **Shared Reports**
Run reports and share reports with others.
 3.  **Public Reports**
Owner: Administrator
Modified: 2/26/11 11:17:07 AM
Available reports: n/a
- OR
-  **Standard Reports**
Owner: Ivo Djoubrailov
Modified: 2/26/09 4:03:42 PM
Contains custom defined reports

Public vs. Standard Reports

- **Public Report:** Interactive charts and graphs showing progress by grants, activity category or grantee projects. Contain any shared reports that can be accessed by all users
- **Standard Reports:** Data files like spreadsheets used for tracking and quality control often containing data at the activity level. More commonly used by grantees.

Standard Reports

- Administrative Reports
 - User information
 - Action Plan/QPR status
- Financial Reports
 - Budgets
 - Disbursements
 - Cumulative financial data
- Performance Reports

Public Information: Action Plan

- There are two options to view a grantee's Action Plan. The first is through DRGR and requires two steps,
 - A. Search for Action Plan then select "View Action Plan"
 - B. For PDF select "Download Print Version"

A.

The screenshot shows a user interface for a grantee administrator. At the top, there is a header with 'Admin' and 'Action Plans'. Below this, a sidebar on the left contains a menu with 'Action Plan' (sub-items: View All, View Action Plan), 'Projects' (sub-items: Add, Search), and 'Responsible Organization' (sub-item: Add). A mouse cursor is hovering over the 'View Action Plan' link. The main content area on the right shows 'Action Plans' and 'Edit Action Plan' buttons, along with fields for 'Grant Number: B-08-DN-99-001' and 'Grant Amount:'.

NSP Grantees

Grantees are the heart of NSP, as they work on the ground level to purchase, rehabilitate, and resell foreclosed properties in especially hard-hit neighborhoods that might otherwise become sources of abandonment and blight within their communities. HUD has allocated \$6.82 billion to 307 NSP1 grantees, 56 NSP2 grantees, and 283 NSP3 grantees.

Use the search option to find the following information on all NSP grantees:

- Contact information
- Grant allocation and expenditure amounts
- HUD-approved action plans and quarterly performance reports detailing how grantees are using their NSP funds and the achievements they've reached so far
- Snapshot reports
- Project highlights
- Photos, videos, and website links

QPR Checklist: Overall Progress

- Is the Overall Progress Narrative sufficient to explain the progress or lack of progress of this grant?
- Does it, when combined with the grant-level financial data, provide enough information to determine if sufficient progress is being made?
 - Statutory Timelines
 - NSP1: Expend amount equal to or greater than allocation within 4 yrs
 - NSP2 and NSP3:
 - Expend at least 50 percent of allocated funds within 2 years
 - Expend 100 percent within 3 years of such date.
- Program income funds:
 - Do the narratives and/or accomplishment data imply program income has been generated by an Activity but none has been receipted?

QPR Checklist: Activity Progress

- Accomplishments are entered after an end-use has been met.
 - There may be a lag between quarters when funds are drawn for an activity to when accomplishments are entered.
 - Grantees must estimate accomplishments in the Action Plan before they can report on them in the QPR.
- Additional review items:
 - Addresses entered have not been previously reported.
 - 25% Set-Aside metrics are properly identified in the LH25 activities.
 - For activities that do not appear in the QPR, is their enough information over time to indicate the reason for the lack of demonstrated progress?

Common Issues & Troubleshooting

Pop Quiz
Common Problem Areas

Pop Quiz

- Don't Worry...No Grading!
- Please organize into teams of three or four.
- I will present you with a potential issue a grantee confronts. Please brainstorm and let the class know what measures you would take to solve it.

Common Issues

1. Administrative Issues
2. Moving Budgets and Draws
3. Accomplishments

***This is not an NSP policy training.** When it comes to discussions of policy, we'll lean on the experience of the HUD staff in the room.*

1. Administrative

- Problems:
 - Access to the system:
 - Getting locked out of the system
 - Access to Reports
 - User Roles and Certification Status
- How to know if you have this problem:
 - Error message when attempting to log on to DRGR or, in particular, activating the Reports Module.
- How to solve it:
 - If timed-out message or cannot access the Reports module, wait for at least 30 minutes. If still locked-out, call the DRGR Help Desk at 1-800-998-9999, and coordination with your field office.
 - If locked-out of the system, check with the Grantee Administrator to verify you are Active and Certified on each grant you need access to (if you are a Grant Administrator, check with your CPD Rep).
 - A quick way to check the status is to pull AdminReport 04b. If you need to change your user role, then submit to your CPD Rep the change along with your B#.

2. Moving Budgets and Draws

- Common Problems
 - Q1. How does a user revise a voucher line item?
 - Q2. How does a grantee get credit for funds spent on LH25 that were originally budgeted for LMMI?

2. Moving Budgets and Draws

- How to solve it:

Q1: In order to revise a voucher it must first be in a status of Open (not approved) or Completed (paid by Treasury).

- If the voucher line item is Open, the user with the Draw Approver role will reject the amount allowing the Draw Requester to resubmit with correct funding.
- If the voucher has been completed, the Voucher Creator will modify the voucher per line item and move the funding to another Activity under the same grant (assuming budget and obligation amounts are enough for the modification). The modifications need to be approved by the user with the Approver Role.

2. Moving Budgets and Draws (Q2)

- How to solve it:
 - Q2: If an activity was originally projected for LMMI, but ended up going towards LH25 and you would like to receive credit for this there are two options;
 1. If the entire amount that has been invoiced and budgeted for the activity can be changed to LH25, simply change the status on the first page of Add Activity (changes to Action Plan will trigger a resubmission of Action Plan for approval).
 2. The second option may require moving the invoiced and funding amounts to an existing or completely new activity. For this, follow the directions outlined for question 1 and utilize the Reports module to build out what you would like to move before changing information in DRGR. *Keep in mind that all Accomplishments will need to be moved as well.*

3. Accomplishments

- Common Potential Problems:
 - Q1: A Grantee does not see owner v renter or SF v MF (when reporting the actual measures in the QPR or when pulling reports)
 - Q2: Cumulative households, or housing units, appears to be over projected (as seen in the QPR or per reports pulled)
 - Q3: I continue to receive error messages when entering data in the QPR for a Direct Benefit Activity.

3. Accomplishments

- How to solve it:

Q1: A Grantee does not see owner v renter or SF v MF (when reporting the actual measures in the QPR or when pulling reports)

- Grantee did not complete required elements in the Action Plan and must enter all beneficiary data in the Action Plan for every applicable Activity (make a note in QPR)

Q2: Cumulative households, or housing units, appears to be over projected (as seen in the QPR or per reports pulled)

- Grantee may have entered total units completed to date in each quarter, rather than entering only the additional/incremental units completed that quarter. Grantee may need to manually correct data by entering negative numbers in certain data fields in the next QPR.

4. Accomplishments

- How to solve it:

Q3: I continue to receive error messages when entering data in the QPR for a Direct Benefit Activity.

- When a grantee modifies certain accomplishment data fields in the Action Plan (for example, modifying the household field so that the Activity is serving owners where it was previously reported as serving renters), there may be an error in reporting in that quarter's QPR if there is already data entered in prior quarters.
- DRGR automatically checks totals across categories and subcategories and will identify discrepancies. To rectify the error messages and complete prior-period corrections, a grantee must first identify the cumulative totals entered in prior QPRs and then determine the category(ies) and subcategory(ies) to be updated.

DRGR News:

March 29, 2011: Known Issues with Area Benefit Data Duplication: Release 7.0 from Sept 2010 was supposed to make the number of CUMULATIVE ACTUAL PERSONS = PROJECTED PERSONS for the area benefit activities regardless of whether data is entered using the CENSUS or SURVEY methods in the DRGR Action Plan. We recently noticed it has been built where IN QUARTER = PROJECTED for each QPR that a grantee has edited the area benefit activity. This has resulted in doubling and tripling of some beneficiary numbers. Our contractors are working towards a data correction to clear out extra data and determine what code changes that will be needed for a permanent fix. - - - - -
