EHV-1 Study Questionnaire

Form Approved
OMB Number 0579-XXX
Expires XXXXXX

Please complete a separate Questionnaire for each EHV/EHM suspect or confirmed case or control horse identified in the outbreak.

Date questionnaire completed: _____

Owner name: _____

Trainer name: _____

Horse's registered name: _____

Horse's barn name: _____

Premises where horse resides:

Facility name: _____

City/State: _____

Is this horse part of an EHV/EHM outbreak? _____ Yes No

IF YES, what is the likely place of exposure to EHV (including event name, location, city, and State)?

If you have not read the instructions,
please do so before completing the survey.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-XXXX. The time required to complete this information collection is estimated to average 1 hour per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collected.

5. In how many events did this horse compete in the 30 days prior to February 15, 2013? C104 _____ #
(e.g., show, race, western performance, organized trail ride.)
6. What was the average level of exercise¹ in the 30 days prior to February 15, 2013? *[Check only one.]*
C106
- ₁ Light
 - ₂ Moderate
 - ₃ Heavy
 - ₄ Very heavy

¹ Light exercise is described as 1 to 3 hours/week of mostly walking and trotting. Many horses kept for recreational riding would be included in the light exercise category. Moderate exercise consists of 3 to 5 hours/week of mostly trotting with some walking, some cantering and possibly some jumping or other type of more difficult activity. Horses used for horse shows, ranch work and frequent recreational riding would fit into the moderate exercise category. Heavy exercise is described as 4 to 5 hours/week of trotting, cantering, galloping and some jumping, cattle work, etc. Horses engaged in three day eventing, polo, endurance racing, cutting, or other competitive events would be in this category. The very heavy exercise category includes racehorses and a few other horses that compete at the elite level of endurance or three day eventing.

Section 2—Clinical Information

1. Has this horse shown any clinical signs of illness, such as a fever (temp >101.5°F) or neurologic signs, since February 15, 2013? ₁ Yes ₃ No

[If NO, skip to Section 3.]

2. What was the date of onset of illness?..... Cxx _____ date

3. Has this horse had a rectal temperature greater than 101.5°F since February 15, 2013?..... C402 ₁ Yes ₃ No ₉ No temp taken

[If No or No Temperature Taken, skip to Item 7.]

4. What was the date of onset of fever?..... C403 _____ date

5. What was the highest temperature documented during the course of disease?..... C404 _____ temp

6. What was the date of last fever?..... C405 _____ date

7. Has the horse exhibited neurologic signs since February 15, 2013? C406 ₁ Yes ₃ No

[If NO, skip to Item 10.]

8. What was the date of onset of neurologic signs?..... C407 _____ date

9. Of the following neurologic signs listed, check all that were observed in this horse since February 15, 2013. *[Check all that apply.]*

- Incoordination/wobbly gait C500
- Dogsitting C501
- Down (unable to rise) C502
- Exaggerated limb movements, either when walking or while down C503

10. Of the following clinical signs, check all that were observed in this horse since February 15, 2013: *[Check all that apply.]*

- Nasal discharge C511
- Coughing C512
- Off feed C513
- Excessive sweating C514
- Colic C515
- Limb edema/stocking up C516
- Abortion C516a
- Other (specify: _____) C517OTH C517

11. On what date did this horse: (write in n/a if not applicable)

- a. fully recover? _____ date
- b. return to previous performance level? _____ date
- c. died or was euthanized? _____ date

If the horse died or was euthanized, please attach a copy of the necropsy report and any laboratory results.

Section 3—Travel Information

1. In the 30 days **PRIOR** to February 15, 2013, list the location or event and the number of miles this horse was transported:

Location or event	Total miles (round trip)	Dates
C602	C608	
C603	C609	
C604	C610	
C605	C611	
C606	C612	
C607	C613	

2. When traveling by trailer/van, on average, how many hours does the horse travel before resting/unloading?.....C614 _____ hrs

3. In general, which of the following best describes this horse's response to the stress of travel? *[Check the most appropriate description.]* C615

- ₁ Tends to get more stressed than the average horse
- ₂ About average for a horse
- ₃ Very tolerant of travel and does not appear stressed compared to other horses
