Survey Log Instructions

Begin a new Log Form for each site on each survey date.

Name: Write surveyor name (first and last)

Date: Indicate month and day

Site: Indicate one of the 11 survey sites

Visitors at Site: When you first arrive at the site, count the number of recreational visitors present (including adults, children, guided clients, and private parties).

Complete one line for each group that is completing recreation/preparing to leave the site. Include the following information for every group, including both those who agree to participate in the survey and those who refuse.

Time: Indicate time of day that you approach a group.

Weather/temp: Describe weather and approximate temperature. Be sure to note if there are conditions that might contribute to non-response (such as rain, cold).

Group #: Assign a unique number (beginning with 1) to each group contacted at the site.

Personal Group Size: Indicate the number of adult (>16 yrs) men (M), adult women (F), and children in the personal group. Children are persons less than 16 years old.

Type: Indicate if group is guided/outfitted (O) or private (P)

Race/Ethnicity: Indicate the race or ethnicity, if able to observe, or if the participant discloses it.

Language: Indicate if primary language is other than English (Y).

Activity: Indicate the primary recreational activities of the group: F (fishing), W (whitewater kayaking or rafting), D (drift boating), M (mountain biking), H (hiking).

Participation: Indicate the number of adults who agreed to complete a survey and the number who refused.

Survey Numbers: Write a unique survey number on each completed survey and enter those numbers on the survey log.

Reasons for Refusal: If visitors state any reasons for not doing the survey (e.g., "I don't have time"), write them here.
