Attention: CCAMLR Data Management

Completion of this application is required to obtain a permit to re-export Antarctic marine living resources under provisions of the Antarctic Marine Living Resources Convention Act of 1984 (16 USC 2431 *et seq.*). No authorization to re-export will be issued without completion of this application. Completion of re-export certificates enable NMFS to track all re-exports to ensure that all AMLR that are being re-exported are products that were originally imported in compliance with all applicable regulations. Continuing measures and U.S. regulations implementing them are found in Volume 50, Part 300, Subpart G of the Code of Federal Regulations. Annual measures are available at CCAMLR website located at <http://www.ccamlr.org>.

Public reporting burden for completing this form is estimated to average 15 minutes per response, including the time reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Notwithstanding any other provision of the law, no person is required to respond nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to National Marine Fisheries Service, F/IA, 1315 East West Highway, Attention: CCAMLR Permit Office, Silver Spring, Maryland, 20910.

To the extent permitted under the Trade Secrets Act and the Freedom of Information Act, NMFS will maintain the confidentiality of information determined to be a trade secret or privileged and confidential commercial or financial information.

No resources may be imported in violation of conservation and management measures adopted by CCAMLR and adopted by the United States. Continuing measures and U.S. regulations implementing them appear in Volume 50, Part 300, Subpart G of the Code of Federal Regulations. Annual measures are noticed in the Federal Register and are also available at CCAMLR website located at <http://www.ccamlr.org>.

NOTE: The United States can only authorize imports of AMLR harvested by vessels licensed to fish by their flag states for AMLR and fishing consistent with measures adopted by the Commission for the Conservation of Antarctic Marine Living Resources for the conservation and management of the harvested species. No authorization to import will be granted for any product that has been harvested from FAO statistical area 51 or 57.

The Antarctic Marine Living Resources Act of 1984 is the U.S. statutory authority for requiring import permits. In addition, it addresses the activities of brokers and any U.S. entity in the market chain for Antarctic Marine Living Resources.

Section 306 (3) makes it unlawful to any person to ship, transport, offer for sale, sell, purchase, import, export, or have custody, control of, any Antarctic Marine Living Resource (or part thereof) which he knows or reasonably should have known, was harvested in violation of conservation measures in force with respect to the United States pursuant to Article IX of the Convention [i.e., CCAMLR] or in violation of any regulation promulgated under this title, without regard to the citizenship of the person that harvested, or vessel that was used in the harvesting of, the Antarctic Marine Living Resource (or part or product thereof). This is in addition to making it unlawful to import without a permit. Thus, this section applies to brokers and any other entity offering to sell Antarctic Marine Living Resources, whether that entity is an importer of record or not, and whether the resource enters the U.S. market or an overseas market.

Thus, in your contacts with brokers and with vessels that may be potential sources of AMLR, it is important that you inquire as to whether the vessel holds a currently valid license authorizing it to fish for AMLR species.
