SUPPLEMENTARY INFORMATION:

A. Purpose

Pursuant to section 3506(c)(2)(A) of the PRA, GSA specifically solicits comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses. In particular, GSA is requesting comments from very small businesses (those that employ less than 25) on examples of

specific additional efforts that GSA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for GSA?

You may find the following suggestions helpful for preparing your comments.

1. Explain your views as clearly as possible and provide specific examples.

2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by GSA, be sure to identify the ICR title on the first page of your response. You may also provide the **Federal Register** citation.

Data.gov is inspired by the President's program for ''Open Government'' and ''Transparency''. In response to the President's direction to improve the transparency of government, the Federal Chief Information Officer (CIO) Council created a Web site/portal that improves public access to a wide variety of U.S. Government data. Data.gov is a public-friendly Web site that provides descriptions of the federal datasets, information on how to access the datasets, points of contact information, metadata information, interactive datasets, ''Communities'' areas centered on specific topics, and links to publicly accessible applications that leverage the datasets. This information collection request is being submitted in order to fulfill the public feedback aspects of this important initiative. Data.gov visitors will be provided opportunities to provide feedback and ratings in the spirit of the President's open government and transparency initiative. Examples of feedback mechanisms are:

(1) A five-star rating system to give visitors information about which datasets other visitors found most useful and interesting on the Data.gov Web page,

(2) A ''Suggest Other Datasets'' entry page for the public to submit ideas for datasets with an optional contact email address provided for those visitors wishing to identify themselves,

(3) A ''Contact Us'' entry page with an optional contact email address for those visitors wishing to identify themselves,

(4) Pages for visitors to advise how they leverage the datasets in new and different ways to build applications, conduct analysis, and perform research,

(5) Pages for visitors to rate the benefit of the reported new solutions, etc.

B. Annual Reporting Burden

Number of Respondents: 9882.
Total Annual Responses: 9882.
Average Hours per Response: 0.017.
Total Burden Hours: 168.
Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1275 First Street NE., Washington, DC 20417, telephone (202) 501–4755. Please cite OMB Control No. 3090–0284, Data.gov Feedback Mechanisms, in all correspondence.

Dated: December 19, 2012.

Casey Coleman,

Chief Information Officer.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404–639–7570 or send comments to Ron Otten, 1600 Clifton Road, MS D–74, Atlanta, GA 30333 or send an email to *omb@cdc.gov.*

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the

use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

CDC Oral Health Management Information System (OMB No. 0920–0739, exp. 5/31/2013)—Extension—National Center for Chronic Disease Prevention and Public Health Promotion (NCDDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The CDC seeks to improve the oral health of the nation by targeting efforts to improve the infrastructure of state and territorial oral health departments, strengthen and enhance program capacity related to monitoring the population's oral health status and behaviors, develop effective programs to improve the oral health of children and adults, evaluate program accomplishments, and inform key stakeholders, including policy makers,

of program results. Through a cooperative agreement program (Program Announcement DP08–802 and DP10–1012), CDC has provided funding to 20 states to strengthen their core oral health infrastructure and capacity. CDC funding also helps states reduce health disparities among high-risk populations including, but not limited to, those of lower socioeconomic status (SES), Hispanic Americans, African Americans, and other ethnic groups.

NCCDPHP is currently pursuing a key initiative to improve the efficiency and effectiveness of CDC project officers who oversee the state and territorial oral health programs. An electronic management information system (MIS) to support program management, consulting and evaluation has been developed in support of the cooperative agreement. The MIS provides a central repository of information, such as the plans of the state or territorial oral health programs (their goals, objectives, performance milestones and indicators), as well as state and territorial oral

health performance activities including programmatic and financial information. State oral health programs have used the MIS to submit their required semi-annual reports to CDC (CDC Oral Health Management Information System, OMB No. 0920–0739, exp. 5/31/2013). The last report under the current Funding Opportunity Announcement (FOA) is due on October 31, 2013.

CDC is requesting OMB approval to extend clearance for the MIS until December 31, 2013. Information will be reported to CDC once during this period. The extension will allow CDC to receive final reports from the state oral health programs and to provide any technical assistance or follow-up support that may be needed to produce accurate final reports. The estimated burden per response is 11 hours.

All information will be collected electronically. There is no change to the estimated number of respondents or the burden per response. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
State Oral Health Programs	20	1	11	220

Dated: December 27, 2012.

Ron A. Otten,

Director, Office of Scientific Integrity (OSI), Office of the Associate Director for Science (OADS), Office of the Director, Centers for Disease Control and Prevention.

Proposed Project

Laboratory Response Network (LRN) (OMB No. 0920–0850, Exp. 5/31/2013)—Extension—National Center for Emerging and Zoonotic Infections (NCEZID, Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Laboratory Response Network (LRN) was established by the Department of Health and Human Services (HHS), Centers for Disease Control and Prevention (CDC) in accordance with Presidential Decision Directive 39, which outlined national anti-terrorism policies and assigned specific missions to Federal departments and agencies. The LRN's mission is to maintain an integrated national and international network of laboratories that can respond to suspected acts of biological, chemical, or radiological threats and other public health emergencies.

When Federal, State and local public health laboratories voluntarily join the LRN, they assume specific responsibilities and are required to provide information to the LRN Program Office at CDC. Each laboratory must submit and maintain complete information regarding the testing capabilities of the laboratory. Biennially, laboratories are required to review, verify and update their testing capability information. Complete testing capability information is required in
