Program integrity is defined to include efforts that ensure effective internal controls over the administration of CCDF funds. The Lead Agency is responsible for monitoring programs and services, ensuring compliance with the rules of the program, promulgating rules and regulations to govern the overall administration of the plan and oversee the expenditure of funds by sub-grantees and contractors. (§ 98.11(b)) Accountability measures should address administrative error, which includes unintentional agency error, **as well as address** program violations, both unintentional and intentional, that may or may not result in further action by the Lead Agency, including those cases suspected of and/or prosecuted for fraud.

At a minimum, CCDF requires Lead Agencies to give priority for child care assistance to children with special needs, or in families with very low incomes. Prioritization of CCDF assistance services is not limited to eligibility determination (i.e., establishment of a waiting list or ranking of eligible families in priority order to be served). Lead Agencies may fulfill priority requirements in other ways such as higher payment rates for providers caring for children with special needs or waiving copayments for families with very low incomes (at or below the federal poverty level). (658E(c)(3)(B), §98.44)

**2.5.1.** How will the Lead Agency prioritize child care services to children with special needs or in families with very low incomes? (658E(c)(3)(B), §98.44) Lead Agencies have the discretion to define *children with special needs* and *children in families with very low incomes*. Lead Agencies are not limited in defining *children with special needs* to only those children with physical or mental disabilities (e.g., with a formal Individual Education Plan (IEP) required under the Individuals with Disabilities Education Act (IDEA). Lead Agencies could consider children in the child welfare system, children of teen parents, or homeless children as examples of *children with special needs*.

**Reminder** - CCDF requires that not less than 70 percent of CCDF Mandatory and Matching funds be used to provide child care assistance for families receiving Temporary Assistance for Needy Families (TANF), those attempting to transition off TANF through work activities, and those at risk of becoming dependent on TANF.

#### 2.7.3. Market Rate Survey

Lead Agencies must complete a local Market Rate Survey (MRS) no earlier than two years prior to the effective date of the Plan (no earlier than October 1, 2011). The MRS must be completed prior to the submission of the CCDF Plan (see Program Instruction CCDF-ACF-PI-2009-02

<u>http://www.acf.hhs.gov/programs/occ/resource/pi-2009-02</u> for more information on the MRS deadline).

a) Provide the month and year when the local Market Rate Survey(s) was completed (§98.43(b)(2)): \_\_\_\_\_.

b) Provide a <u>summary of the results</u> of the survey. \_\_\_\_\_ The summary should include a description of the sample population, data source, the type of methodology used, response rate, description of analyses, and key findings.

### **2.7.4.** Describe the payment rate ceilings in relation to the current MRS using the tables below.

Because of the flexibility that Lead Agencies have in setting payment rate ceilings, the following tables have been developed to simplify Lead Agency reporting on how their payment rate ceilings compare to their most recent MRS. These tables are not meant to collect comprehensive payment rate ceilings within a State/Territory and ACF recognizes that Lead Agencies are not required to set their payment rate ceilings at the 75<sup>th</sup> percentile. These tables allow Lead Agencies to use a common metric – the 75<sup>th</sup> percentile – as a reference point against which the Lead Agency can report their percentiles for three selected age groups in two geographic areas for licensed child care centers and licensed family child care homes.

In table 2.7.4a and 2.7.4b, *highest rate area* refers to the State or Territory's area or geographic region with the highest maximum payment rate ceiling for child care centers (2.7.4a) and family child care homes (2.7.4b). Identify the highest rate area in the box provided. In column (a), provide the full-time monthly rate at the 75<sup>th</sup> percentile from the most recent MRS, even if the most recent MRS is not used to set rates. In column (b), provide the maximum monthly payment rate ceiling from your CCDF payment rate table. Complete column (c) ONLY IF the percentile for the most recent MRS.

**Note** - Report the "base" maximum reimbursement rate ceiling, not including any rate add-ons or tiered reimbursements. For example, if maximum reimbursement rate ceilings are tiered based on level of quality (e.g., accreditation, or rating within a quality rating system such as gold, silver and bronze), report the rates for the lowest level in the tables below (e.g., bronze), **only** if there is no lower "base" rate paid for child care services by providers **not** participating in the quality rating system.

If your State/Territory has hourly, daily and/or weekly maximum payment rate ceiling, Lead Agencies can use the following assumptions to calculate monthly maximum payment rate ceiling for column (b) – 9 hours a day, 5 days per week, 4.33 weeks per month.

OCC recognizes that States and Territories use a wide variety of age ranges and categories in setting payment rate ceilings. In these charts, report rates for the following ages only – 11 months, 59 months, and 84 months of age – regardless of what that age category may be called in your State/Territory.

2.7.4a – Highest Rate Area (Centers)	(a) Monthly Payment Rate at the 75 <sup>th</sup> percentile from the most recent MRS	(b) Monthly Maximum Payment Rate Ceiling	(c) Percentile if lower than 75 <sup>th</sup> percentile of most recent survey

In table 2.7.4c and 2.7.4d, *lowest rate area* refers to the State or Territory's area or geographic region with the lowest maximum payment rate ceiling for child care centers and family child care homes. Identify the lowest rate area in the box provided. In column (a), provide the full-time monthly rate at the 75<sup>th</sup> percentile from the most recent MRS, even if the most recent MRS is not used to set rates. In column (b), provide the maximum monthly payment rate ceiling from your CCDF payment rate table. Complete column (c) ONLY IF the percentile for the most recent MRS.

**Reminder** - CCDF regulations require the Lead Agency to certify that the payment rates for the provision of child care services are sufficient to ensure equal access for eligible families to child care services comparable to those provided to families not eligible to receive CCDF assistance. In the next three questions, Lead Agencies are asked to describe how their payment policies reflect the affordable copayments for families' provision of equal access (i.e., minimizing additional fees to parents), how payment practices are implemented consistent with the general child care market to be fair to providers (see Information Memorandum on Continuity of Care for examples <u>http://www.acf.hhs.gov/programs/occ/resource/im2011-06</u>), and the summary of facts describing how payment rates are adequate to ensure equal access to the full range of providers.

## 2.7.9. Describe how payment rates are adequate to ensure equal access to the full range of providers based on the Market Rate Survey.

CCDF regulations require the Lead Agency to certify that the payment rates for the provision of child care services are sufficient to ensure equal access for eligible families to child care services comparable to those provided to families not eligible to receive CCDF assistance. To demonstrate equal access, the Lead Agency shall provide at a minimum a summary of facts describing: (§98.43(a))

a) How a choice of the full range of providers, e.g., child care centers, family child care homes, group child care homes and in-home care, is made available (§98.43(a)(1)) \_\_\_\_\_

b) How payment rates are adequate based on the most recent local MRS (§98.43(a)(2)) \_\_\_\_\_

c) How family co-payments based on a sliding fee scale are affordable (§98.43(a)(3)) \_\_\_\_\_

d) Any additional facts the Lead Agency considered to determine that its payment rates ensure equal access, including how the quality of child care providers is taken into account when setting rates and whether any other methodologies (e.g., cost estimation models) are used in setting payment rates \_\_\_\_\_

**2.8 Goals for the next Biennium** – In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium and are encouraged to identify no more than five priority goals total. ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). Lead Agencies will report progress and updates on these goals in the annual Quality Performance Report (Appendix 1), including any barriers encountered.

What are the Lead Agency's goals for the administration of the CCDF subsidy program in the coming Biennium? For example, what progress does the State/Territory expect to make on continuing improved services to parents and providers, continuity of care for children, improving outreach to parents and providers, building or expanding information technology systems, or revising rate setting policies or practices).

**Note** – When identifying your goals below, Lead Agencies are encouraged to begin with an action verb reflecting the desired result over the two year period (e.g., Increase, Improve, Build, Align, Implement, Review, Revise, Streamline, Expand, etc.)

#### PART 3

#### HEALTH AND SAFETY AND QUALITY IMPROVEMENT ACTIVITIES

In this section, Lead Agencies are asked to describe their goals and plans for implementation of child care quality improvement activities. Under the Child Care and Development Block Grant Act, Lead Agencies have significant responsibility for ensuring the health and safety of children in child care through the State/Territory's child care licensing system and establishing health and safety standards for children who receive CCDF funds. Health and safety is the foundation of quality, but is not adequate to ensure that programs and staff are competent in supporting all areas of child development and promoting school success.

Quality investments and support systems to promote continuous quality improvement of both programs and the staff who work in them are a core element of CCDF. Lead Agencies have been reporting on their efforts to support program quality improvement and professional development since their initial Plans in 1999. This section allows Lead Agencies to continue to describe the steps that they are taking toward continuous quality improvement with a goal of having high quality child care options across settings for all families. While one of the key goals for CCDF is helping more low-income children access higher quality care, the Lead Agency has the flexibility to consider its goals and strategic plans for a child care quality improvement system for all families, not just those receiving assistance under CCDF.

Part 3 is organized around a template of four key components of quality which encompass most of the quality investments and initiatives undertaken by Lead Agencies over the past decade:

- 1. Ensuring health and safety of children through **licensing and health and safety standards**
- 2. Establishing early learning guidelines
- 3. Creating pathways to excellence for child care programs through **program quality improvement activities**
- 4. Creating pathways to an effective, well-supported child care workforce through **professional development systems and workforce initiatives.**

For each component, Lead Agencies are asked to conduct a three-step process. First, in this section, Lead Agencies will conduct a self-assessment of their programs by responding to the questions in Part 3 that describe the current status of their efforts, using common practices and best practices to list characteristics that build off those that have been reported in previous plans. Second, Lead Agencies then are asked to identify goals for making progress during the FY 2014-2015 biennium and describe their data, performance measure and evaluation capacity for each component. Third, Lead Agencies will report progress on their goals using the Quality Performance Report which is included and described in Appendix 1. The QPR will not be

submitted until December 31, 2014.

Based on information reported in past plans, it is expected that the Lead Agency will describe in these first two steps how they will continue to make systematic investments towards child care quality improvement across its early childhood and school-age spectrum – including all settings, geographic coverage and age range – that will help show progress toward these outcomes and goals. Ultimately, these child care quality improvement elements should be fully implemented and integrated. Each State/Territory is expected to fall on a continuum of progress as a result of these first two steps. Lead Agency's individual progress will reported using the Quality Performance Report.

## **3.1.** Activities to Ensure the Health and Safety of Children in Child Care (Component #1)

This section is intended to collect information on how Lead Agencies meet the statutory and regulatory provisions related to licensing and health and safety requirements. The CCDBG statute and the CCDF regulations address health and safety primarily in two ways.

First, Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i). Lead Agencies must describe those licensing requirements and how they are effectively enforced. Questions related to licensing requirements are in sections 3.1.1 and 3.1.2. Second, Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF. Questions related to CCDF Health and Safety requirements are in sections 3.1.3 and 3.1.4.

## 3.1.1. Compliance with Applicable State/Territory and Local Regulatory Requirements on Licensing

Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i). Lead Agencies must describe those licensing requirements and how they are effectively enforced.

**Definition**: Licensing requirements are defined as regulatory requirements, including registration or certification requirements established under State, local, or tribal law, necessary for a provider to legally operate and provide child care services in a State or locality (§98.2). <u>This does not include registration or certification</u> requirements solely for child care providers to be eligible to participate in the CCDF program. Those requirements will be addressed in 3.1.2.

The relationship between licensing requirements and health and safety requirements varies by State/Territory depending on how comprehensive the licensing system is. In some States and Territories, licensing may apply to the majority of CCDF-eligible providers and the licensing standards cover the three CCDF health and safety requirements so the State/Territory has few, if any, providers for whom they need to establish additional CCDF health and safety requirements. In other cases, States and Territories have elected to exempt large numbers of providers from licensing which means that those exempted providers who care for children receiving assistance from CCDF will have to meet to the CCDF health and safety requirements through an alternative process outside of licensing as defined by the State/Territory. The State/Territory may also elect to impose more stringent standards and licensing or regulatory requirements on child care providers of services for which assistance is provided under the CCDF than the standards or requirements imposed on other child care providers. (§98.40(b)(1)) (658E(c)(2)(F), §98.41).

a) Is the Lead Agency responsible for child care licensing? (§98.11(a))

No. Please identify the State or local (if applicable) entity/agency responsible for licensing

- b) Provide a brief overview of the relationship between the licensing requirements and CCDF health and safety requirements in your State/Territory.

d) CCDF identifies and defines four categories of care: child care centers, family child care homes, group child care homes and in-home child care providers (§98.2). The CCDF definition for each category is listed below. For each CCDF category of care, please identify which types of providers are subject to licensing and which providers are exempt from licensing in your State/Territory in the chart below. Note: OCC recognizes that each State/Territory identifies and defines its own categories of care. OCC does not expect States/Territories to change their definitions to fit the CCDF-defined categories of care. For these questions, provide responses that closely match the CCDF categories of care but consistent with your reported 801 data.

#### 3.1.2 Enforcement of Licensing Requirements

Each Lead Agency is required to provide a detailed description of the State/Territory's licensing requirements and how its licensing requirements are effectively enforced. ## 3.1.3. Compliance with Applicable State/Territory and Local Regulatory Requirements on Health and Safety

Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF. Such requirements shall include the prevention and control of infectious diseases (including immunization), building and physical premises safety, and minimum health and safety training appropriate to the provider setting. These health and safety requirements apply to all providers caring for children receiving CCDF services and which also may be covered by the licensing requirements. (658E(c)(2)(F), §98.41)

Check if the Lead Agency certifies that there are in effect within the State (or other area served by the Lead Agency), under State or local law, requirements designed to protect the health and safety of children; these requirements are applicable to child care providers that provide services for which assistance is made available under the Child Care and Development Fund. (658E(c)(2)(E))

**3.1.6 Data & Performance Measures on Licensing and Health and Safety Compliance** – What data elements, if any, does the State/Territory currently have access to related to licensing compliance? What, if any, performance measures does the Lead Agency use for ensuring health and safety? The purpose of these questions is for Lead Agencies to provide a description of their capacity to provide information, not to require Lead Agencies to collect or report this information. For any data elements checked in (a) below, Lead Agencies may provide an optional description about the data they have access to (e.g., the Lead Agency may have data for only licensed programs, only programs caring for children receiving CCDF subsidies, only providers participating in quality improvement systems, or only for certain age groups (e.g., infants and toddlers or school-age children).

**a)** Data on licensing and health and safety. Indicate if the Lead Agency or another agency has access to data on:

Number of licensed programs. Describe (optional) Numbers of programs operating that are legally exempt from licensing. Describe (optional) Number of programs whose licenses were suspended or revoked due to non-compliance. Describe (optional) Number of injuries in child care as defined by the State/Territory. Describe (optional) Number of fatalities in child care as defined by the State/Territory. Describe (optional) Number of monitoring visits received by programs. Describe (optional) Caseload of licensing staff. Describe (optional) Number of programs revoked from CCDF due to non-compliance with health and safety requirements. Describe (optional) Other. - b) **Performance measurement**. What, if any, performance measures does the State/Territory use in its licensing system to monitor compliance with CCDF health and safety requirements?
- c) **Evaluation**. What, if any, are the State/Territory's plans for evaluation related to licensing and health and safety? Evaluation can include efforts related to monitoring implementation of an initiative, validation of standards or assessment tools, or looking at outcomes in programs or the system and may be ongoing or conducted periodically.

**3.1.7 Goals for the next Biennium** - In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium and are encouraged to identify no more than five priority goals total. ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). Lead Agencies are not required to establish a goal for each sub-section of 3.1. Lead Agencies will report progress and updates on these goals in the annual Quality Performance Report (Appendix 1), including any barriers encountered.

What are the Lead Agency's goals for the licensing and health and safety system in the coming biennium? What progress does the State/Territory expect to make on core areas (e.g. licensing standards, monitoring visits or other effective enforcement, improved technical assistance, or fewer serious non-compliances?)

**Note** – When identifying your goals below, Lead Agencies are encouraged to begin with an action verb reflecting the desired result over the two year period (e.g., Increase, Improve, Build, Align, Implement, Review, Revise, Streamline, Expand, etc.)

### New!

CCDF has a number of performance measures that are used to track progress for key aspects of the program at the national level. These performance measures are included in budget materials submitted to Congress and other documents. Please follow this link <u>http://www.acf.hhs.gov/programs/occ/resource/government-performance-and-results-act-gpra-measures</u> to see the CCDF performance measures. A number of these performance measures rely on information reported in

the State and Territorial Plans as a data source. We have added a ruler icon in Section 3.2 through 3.4 in order to identify the specific questions used in the performance measures. When answering these questions, Lead Agencies should ensure that their answers are accurate and complete in order to promote the usefulness and integrity of the performance measures.

#### 3.2 Establishing Voluntary Early Learning Guidelines (Component #2)

For purposes of this section, voluntary early learning guidelines (also referred to as early learning and development standards) include the expectations for what children should know (content) and be able to do (skills) at different levels of development. These standards provide guidelines, articulate developmental milestones, and set expectations for the healthy growth and development of young children. The term *early learning guidelines* (ELGs) refers to age-appropriate developmental learning guidelines for infants and toddlers and school-age children. These early learning guidelines are voluntary because States/Territories are not required to develop such guidelines or implement them in a specified manner.

## **3.2.1** Has the State/Territory developed voluntary early learning guidelines for children? Check any early learning guidelines the State/Territory has developed.

**3.2.2 Do the early learning guidelines cover a range of domains across physical, cognitive, and social and emotional development?** Check

all that apply for each age group as applicable in the chart below. Because States vary in their domain names and which domains to include, we have used the domains identified in the Head Start Child Development and Early Learning Framework for reference purposes.

**3.2.6 Describe how your State/Territory uses ongoing assessments and measures of school readiness assessment using the following series of questions.** In this section, assessment is framed with two distinct purposes/tools – 1) ongoing assessment of children's progress within the classroom to improve and individualize instruction (this corresponds to 3.2.6a) and 2) assessments conducted within pre-kindergarten and/or at kindergarten entry to inform policymakers about the school readiness of children across the State on a broad range of domains, used to guide program initiatives (this corresponds to 3.2.6b).

In the description for each Yes response, please include a) who administers, and b) how often assessments are conducted, and c) what assessment tools are used.

a) Are programs required to conduct ongoing assessments of children's progress of children using valid, reliable and age-appropriate tools aligned with the early learning guidelines or other child standards?

#### 3.2.7 Data & Performance Measures on Voluntary Early Learning

**Guidelines** – What data elements, if any, does the State/Territory have access to on the dissemination of, implementation of, or children's attainment of the early learning guidelines? What, if any, performance measures does the State/Territory use for dissemination and implementation of the early learning guidelines? The purpose of these questions is for Lead Agencies to provide a description of their capacity to provide information, not to require Lead Agencies to collect or report this information. For any data elements checked in (a) below, Lead Agencies may provide an optional description about the data they have access to (e.g., the Lead Agency may have data for only licensed programs, only programs caring for children receiving CCDF subsidies, only providers participating in quality improvement systems, or only for certain age groups (e.g., infants and toddlers or school-age children).

### a) **Data on voluntary early learning guidelines**. Indicate if the Lead Agency or another agency has access to data on:

- b) **Performance measurement**. What, if any, are the Lead Agency's performance measures related to dissemination and implementation of the early learning guidelines?
- c) **Evaluation**. What are the State/Territory's plans, if any, for evaluation related to early learning guidelines and the progress of children in child care? Evaluation can include efforts related to monitoring implementation of an initiative validation of standards or program assessment tools, or looking at outcomes in programs or the system and may be ongoing or conducted periodically.

**3.2.8 Goals for the next Biennium** - In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium. Lead Agencies are encouraged to include measurable and achievable goals. Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). What are the Lead Agency's goals for using voluntary early learning guidelines in the coming biennium? What progress does the Lead Agency expect to make related to early learning guidelines?

#### 3.3 Creating Pathways to Excellence for Child Care Programs through Program Quality Improvement Activities (Component #3)

Many States have chosen to use targeted quality funds and other resources to develop a systematic framework for evaluating, improving, and communicating the level of quality in early childhood programs (i.e. QRIS). States and Territories will provide a self-assessment on current program quality improvement activities by responding to questions in this section and then describe their goals for the upcoming Biennium.

For purposes of this section, States and Territories will respond according to a Quality Rating and Improvement System (QRIS) framework. QRIS refers to a systematic framework for evaluating, improving and communicating the level of quality in early childhood programs and contains five key elements:

- 1. Program standards
- 2. Supports to programs to improve quality
- 3. Financial incentives and supports
- 4. Quality assurance and monitoring
- 5. Outreach and consumer education

While not all States and Territories have developed or implemented a formal QRIS, all are pursuing quality improvement strategies that can be described within this framework (based upon previous CCDF Plans). Using this framework to organize this section allows States/Territories to report on their quality improvement activities systematically whether they have a QRIS or not. Over time, States and Territories are encouraged to work on linking their quality improvement initiatives and strategies across all of these elements, culminating in a comprehensive Quality Rating and Improvement System with adequate support for providers to attain higher levels of quality and transparency for parents and the community regarding the quality of child care.

a) Describe which entities are involved in planning and administering the program quality improvement activities in 3.3, including State/Territory entities and local or community level entities.

#### 3.3.1 Element 1 – Program Standards

**Definition** – For purposes of this section, program standards refers to the expectations for quality, or quality indicators, which identify different levels of and pathways to improved quality. <u>Minimum licensing standards and health and safety requirements provided in section 3.1 are also program standards but in this section, we focus on those standards that build upon and go beyond those minimum requirements.</u>

a) Does your State/Territory's have quality improvement standards that include indicators covering the following areas beyond what is required for licensing? Check any indicators, if any, that your State/Territory has chosen to

establish.

- Ratios and group size
- Health, nutrition and safety
- Learning environment and curriculum
- Staff/Provider qualifications and professional development
- Teacher/providers-child relationships
- Teacher/provider instructional practices
- Eamily partnerships and family strengthening
- Community relationships

# AMENDMENTS LOG

#### CHILD CARE AND DEVELOPMENT FUND PLAN FOR: \_\_\_\_\_ FOR THE PERIOD: 10/1/11 – 9/30/12

Lead Agencies are required to request approval from Administration for Children and Families (ACF) whenever a "substantial" change in the Lead Agency's approved CCDF plan occurs. Please refer to the ACF Program Instruction regarding CCDF Plan amendments for more information

http://www.acf.hhs.gov/programs/occ/resource/pi-2009-01

Plan amendments must be submitted to ACF within 60 days of the effective date of the change. Under the regulation, the plan amendment must be approved no later than the 90th day following the date on which the amendment is received by ACF unless the Lead Agency and ACF mutually agree in writing to extend the period. (§98.18 (b)).

ACF encourages Lead Agencies to contact the Child Care program staff in the appropriate ACF Regional Office to discuss any proposed amendment as early as possible.

## Instructions for Submitting Amendments:

Complete the first 3 columns of the Amendment Log and send a copy of the Log (showing the latest amendment sent to ACF) <u>and</u> the amended section(s) to the ACF Regional Office contact. Lead Agency also should indicate the Effective Date of the amended section in the footer at the bottom of the amended page(s). A copy of the Log, showing the latest amendment pending in ACF, is retained as part of the Lead Agency's Plan.

ACF will complete column 4 and returns a photocopy of the Log to the grantee following its review and approval of the amendment. The Lead Agency replaces this page in the Plan with the copy of the Log received from ACF showing the approval date.

**Note**: This process depends on repeated subsequent use of the <u>same</u> Log page over the life of the Plan. At any time the Log should reflect all amendments, both approved and pending in ACF. The Lead Agency is advised to retain "old" plan pages that are superseded by amendments in a separate appendix to its Plan. This is especially important as auditors will review CCDF Plans and examine effective date of changes.

# **Quality Performance Report**

This annual report will be submitted to ACF no later than December 31, 2014 and will reflect the period October 1, 2013 through September 30, 2014. Lead Agencies will leave this report blank when the Plan is initially submitted.

In this report, Lead Agencies are asked about the State/Territory's progress in meetings its goals as reported in the FY 2014-2015 CCDF Plan, and provide available data on the results of those activities. At a minimum, Lead Agencies are expected to respond to the first question in each section of the Quality Performance Report (QPR) which asks for their progress toward meeting their goal(s) articulated in Part 2 and Part 3 of the CCDF Plan for this Biennium.

Because of the flexibility in administering the CCDF program, it is expected that Lead Agencies may not have information and data available to respond to all questions. A <u>Describe box</u> is provided for each question for Lead Agencies to provide descriptive context for data reported and narrative updates in each data section, including any plans for reporting data in the future, if actual data is not currently available or if specific questions are not applicable. Lead Agencies may use data collected by other agencies and entities (e.g., CCR&R agencies or other contractors) as appropriate. The term Lead Agency is used in questions when the data relate to a CCDF-specific activity, otherwise the term State/Territory is used when another entity may be responsible or involved with an activity (e.g., licensing).

The purpose of this annual report is to capture State/Territory progress on improving the quality of child care. Specifically, this report will:

- Provide a national assessment of State's and Territory's progress toward improving the quality of child care, including a focus on program quality and child care workforce quality;
- Track State's and Territory's annual progress toward meeting high quality indicators and benchmarks, including those that they set for themselves in their CCDF Plans and those that are of interest to the U.S. Department of Health and Human Services in measuring CCDF program performance;
- Assist national and State/Territory technical assistance efforts to help States/Territories make strategic use of quality funds; and Assist with program accountability

This report collects progress on the five goals identified in Part 2 and Part 3 of the Child Care and Development Fund (CCDF) Plan for FY2014-2015 along with key data in relation to the four components of child care quality used as a quality framework in Part 3 of the Child Care and Development Fund Plan for FY 2014-2015:

- 1. Ensuring health and safety of children through licensing and health and safety standards
- 2. Establishing early learning guidelines
- 3. Creating pathways to excellence for child care programs through program quality improvement activities
- 4. Creating pathways to an effective, well-supported child care workforce through professional development systems and workforce initiatives.

## <u>A1.2 Key Data</u>

OCC is collecting this information as one part of our overall effort to better understand States/Territories' activities to improve the quality of child care. OCC recognizes that the data requested in this report will only provide part of that picture because there are many factors which affect the data being collected here and that some data requested may be collected by another agency or entity other than the Lead Agency. Each State/Territory's policy context and priorities and standards will play a role in the way that quality improvement activities are developed and implemented. For example, the number of programs with licensing violations will be affected by how stringent the licensing standards are. States with more stringent standards may be more likely to report more violations than those with less stringent licensing standards. OCC intends to work with the States/Territories to gather any additional contextual information necessary in order to fully understand the context of these data for any reporting activities involving this information.
