At a minimum, CCDF requires Lead Agencies to give priority for child care assistance to children with special needs, or in families with very low incomes. Prioritization of CCDF assistance services is not limited to eligibility determination (i.e., establishment of a waiting list or ranking of eligible families in priority order to be served). Lead Agencies may fulfill priority requirements in other ways such as higher

payment rates for providers caring for children with special needs or waiving copayments for families with very low incomes (at or below the federal poverty level). $(658E(c)(3)(B), \S98.44)$

2.5.1. How will the Lead Agency prioritize child care services to children with special needs or in families with very low incomes? (658E(c)(3)(B), §98.44) Lead Agencies have the discretion to define *children with special needs* and *children in families with very low incomes*. Lead Agencies are not limited in defining *children with special needs* to only those children with physical or mental disabilities (e.g., with a formal Individual Education Plan (IEP) required under the Individuals with Disabilities Education Act (IDEA)). Part 3

Health and Safety and Quality Improvement Activities

In this section, Lead Agencies are asked to describe their goals and plans for implementation of child care quality improvement activities. Under the Child Care and Development Block Grant Act, Lead Agencies have significant responsibility for ensuring the health and safety of children in child care through the State/Territory's child care licensing system and establishing health and safety standards for children who receive CCDF funds. Health and safety is the foundation of quality, but is not adequate to ensure that programs and staff are competent in supporting all areas of child development and promoting school success.

Quality investments and support systems to promote continuous quality improvement of both our programs and the staff who work in them are a core element of CCDF. This section allows Lead Agencies to describe the steps that they are taking toward continuous quality improvement with a goal of having high quality child care options across settings for all families. While one of the key goals for CCDF is helping more low-income children access higher quality care, the Lead Agency has the flexibility to consider its goals and strategic plans for a child care quality improvement system for all families, not just those receiving assistance under CCDF.

Part 3 is organized based on four key components of quality which encompass most of the quality investments and initiatives undertaken by Lead Agencies:

- 1. Ensuring health and safety of children through **licensing and health and safety standards**
- 2. Establishing early learning guidelines
- 3. Creating pathways to excellence for child care programs through **program quality improvement activities**
- 4. Creating pathways to an effective, well-supported child care workforce through **professional development systems and workforce initiatives.**

For each component, Lead Agencies are asked to conduct a three-part process. In this section, Lead Agencies conduct a self-assessment by describing the current status of their efforts, using common practices and best practices to list characteristics. Lead Agencies then are asked to identify goals for making progress during the FY 2012-2013 biennium and describe their data, performance measure and evaluation capacity for each component.

It is expected that the Lead Agency is making systematic investments towards child care quality improvement across its early childhood and school-age spectrum — including all settings, geographic coverage and age range — that will help show progress toward these outcomes and goals. Ultimately, these child care quality improvement elements should be fully implemented and integrated. Until that point,

States/Territories are expected to fall on a continuum of progress. Baseline information on status and capacity for these elements and goals for the upcoming two-year period will be captured in this section. Progress on these elements will be reported using the Quality Performance Report in Appendix 1 as the final step.

3.1. Activities to Ensure the Health and Safety of Children in Child Care (Component #1)

This section is intended to collect information on how Lead Agencies meet the statutory and regulatory provisions related to licensing and health and safety requirements. The CCDBG statute and the CCDF regulations address health and safety primarily in two ways.

First, Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency ($\S98.40(a)(1)$). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i)). Lead Agencies must describe those licensing requirements and how they are effectively enforced. Second, Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF.

The relationship between licensing requirements and health and safety requirements varies by State/Territory depending on how comprehensive the licensing system is. In some States and Territories, licensing may apply to the majority of CCDF-eligible providers and the licensing standards cover the three CCDF health and safety requirements so the State/Territory has few, if any, providers for whom they need to establish additional CCDF health and safety requirements. In other cases, States and Territories have elected to exempt large numbers of providers from licensing which means that those exempted providers who care for children receiving assistance from CCDF will have to meet to the CCDF health and safety requirements through an alternative process outside of licensing. The State/Territory may also elect to impose more stringent standards and licensing or regulatory requirements on child care providers of services for which assistance is provided under the CCDF than the standards or requirements imposed on other child care providers. ($\S98.40(b)(1)$) Section 3.1 asks the State/Territory to identify and describe the components of both the licensing and CCDF health and safety requirements, indicate which providers are subject to the requirements, and describe compliance and enforcement activities. (658E(c)(2)(F), §98.41)

3.1.1. Compliance with Applicable State/Territory and Local Regulatory Requirements on Licensing

Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of

providers of child care services (658(E)(c)(2)(E)(i). Lead Agencies must describe those licensing requirements and how they are effectively enforced.

Definition: Licensing requirements are defined as regulatory requirements, including registration or certification requirements established under State, local, or tribal law, necessary for a provider to legally operate and provide child care services in a State or locality (§98.2). This does not include registration or certification requirements solely for child care providers to be eligible to participate in the CCDF program. Those requirements will be addressed in 3.1.2.

a) Is the Lead Agency responsible for child care licensing? (§98.11(a))
☐ Yes. ☐ No. Please identify the entity/agency responsible for licen	sing

b) **Provide a brief overview** of the relationship between the licensing requirements and CCDF health and safety requirements in your State/Territory. At a minimum, describe whether the State/Territory's licensing requirements serve as the CCDF health and safety requirements.

c) CCDF identifies and defines four categories of care: child care centers, family child care homes, group child care homes and in-home child care providers (§98.2). The CCDF definition for each category is listed below. Within each CCDF category of care, please identify which types of providers are exempt from licensing in your State/Territory in the chart below.

Note: In lieu of submitting or attaching licensing regulations to certify the requirements of §98.40(a)(1), Lead Agencies may provide their licensing regulations to the National Resource Center for Health and Safety in Child Care and Early Education. Please check the NRCKid's website at http://nrckids.org/ to verify the accuracy of your licensing regulations and provide any updates to the National Resource Center. **Check this box to indicate that the licensing requirements were submitted and verified at NRCKid's**.

3.2 Establishing Voluntary Early Learning Guidelines (Component #2)
For purposes of this section, voluntary early learning guidelines include the expectations for what children should know (content) and be able to do (skills). The term <i>early learning guidelines</i> (ELGs) refers to age-appropriate developmental learning guidelines for infants and toddlers and school-age children.

3.3 Creating Pathways to Excellence for Child Care Programs through Program Quality Improvement Activities (Component #3)

This section builds on the significant investments States and Territories have made in the area of program quality improvement systems. In this section, States and Territories provide a self-assessment on current program quality improvement activities and describe their goals for the upcoming Biennium.

For purposes of this section, States and Territories will respond according to a Quality Rating and Improvement System (QRIS) framework. QRIS refers to a systematic framework for evaluating, improving and communicating the level of quality in early childhood programs and contains five key elements:

- 1. Program standards
- 2. Supports to programs to improve quality
- 3. Financial incentives and supports
- 4. Quality assurance and monitoring
- 5. Outreach and consumer education

While not all States and Territories have developed or implemented a formal QRIS, all are pursuing quality improvement strategies that can be described within this framework (based upon previous CCDF Plans). Using this framework to organize this section allows States/Territories to report on their quality improvement activities systematically whether they have a QRIS or not. Over time, States and Territories are encouraged to work on linking their quality improvement initiatives and strategies across all of these elements, culminating in a comprehensive Quality Rating and Improvement System with adequate support for providers to attain

AMENDMENTS LOG

CHILD CARE AND DEVELOPMENT FUND PLAN FOR: ______
FOR THE PERIOD: 10/1/11 – 9/30/12

Lead Agencies are required to request approval from Administration for Children and Families (ACF) whenever a "substantial" change in the Lead Agency's approved CCDF plan occurs. Please refer to the ACF Program Instruction regarding CCDF Plan amendments for more information

 $\frac{http://www.acf.hhs.gov/programs/ccb/law/guidance/current/pi2009-01/pi2009-01.htm}{01.htm}$

Plan amendments must be submitted to ACF within 60 days of the effective date of the change. Under the regulation, the plan amendment must be approved no later than the 90th day following the date on which the amendment is received by ACF unless the Lead Agency and ACF mutually agree in writing to extend the period. (§98.18 (b)).

ACF encourages Lead Agencies to contact the Child Care program staff in the appropriate ACF Regional Office to discuss any proposed amendment as early as possible.

Instructions for Submitting Amendments:

Complete the first 3 columns of the Amendment Log and send a copy of the Log (showing the latest amendment sent to ACF) <u>and</u> the amended section(s) to the ACF Regional Office contact. Lead Agency also should indicate the Effective Date of the amended section in the footer at the bottom of the amended page(s). A copy of the Log, showing the latest amendment pending in ACF, is retained as part of the Lead Agency's Plan.

ACF will complete column 4 and returns a photocopy of the Log to the grantee following its review and approval of the amendment. The Lead Agency replaces this page in the Plan with the copy of the Log received from ACF showing the approval date.

Note: This process depends on repeated subsequent use of the <u>same</u> Log page over the life of the Plan. At any time the Log should reflect all amendments, both approved and pending in ACF. The Lead Agency is advised to retain "old" plan pages that are superseded by amendments in a separate appendix to its Plan. This is especially important as auditors will review CCDF Plans and examine effective date of changes.

Quality Performance Report

The purpose of this annual report is to capture State/Territory progress on improving the quality of child care. Specifically, this report will:

- Provide a national assessment of State's and Territory's progress toward improving the quality of child care, including a focus on program quality and child care workforce quality;
- Track State's and Territory's annual progress toward meeting high quality indicators and benchmarks, including those that they set for themselves in their CCDF Plans and those that are of interest to the U.S. Department of Health and Human Services in measuring CCDF program performance;
- Assist national and State/Territory technical assistance efforts to help States/Territories make strategic use of quality funds; and
- Assist with program accountability and compliance efforts tied to quality investments.

This report collects data in relation to the four components of child care quality used as a quality framework in Part 3 of the Child Care and Development Fund Plan for FY 2012-2013:

- 1. Ensuring health and safety of children through licensing and health and safety standards
- 2. Establishing early learning guidelines
- 3. Creating pathways to excellence for child care programs through program quality improvement activities
- 4. Creating pathways to an effective, well-supported child care workforce through professional development systems and workforce initiatives.

Lead Agencies are asked to provide the status on the State/Territory's progress in meetings its goals as reported in the FY 2012-2013 CCDF Plan, and provide data on the results of those activities. This annual report will be submitted to ACF no later than December 31, 2012 and the first submittal will reflect the period October 1, 2011 through September 30, 2012.
