

publication of the **Federal Register** notice of the filing of the Final EIS.

Decision: As soon as practical San Juan Island National Historical Park will begin to implement design and initiate construction of the Cattle Point Road relocation project, in concert with the Federal Highway Administration and San Juan County. Duration of the construction phase is expected to last approximately two years. The park will undertake construction as detailed in the *Preferred Alternative* (Alternative B) in the Final EIS (which includes realignment of 4,950 feet of roadway approximately 300 feet upslope of the current location, which will subsequently be restored to a natural appearance). There are no substantive changes from the course of action as presented in the Draft EIS. The full range of foreseeable environmental consequences was assessed, and appropriate mitigation measures are included in the approved project. Both a No Action alternative and two additional alternatives were identified and analyzed in the Draft and Final EIS. Alternative B was deemed to be the "environmentally preferred" course of action.
