11. REMARKS

Privacy Act Statement

Authority: Under 43 USC 1333, the Coast Guard has the authority to promulgate and enforce regulations concerning lights and other warning devices relating to the promotion of safety of life and property on the artificial islands, installations, and other devices on the outer continental shelf involved in the exploration, development, removal, or transportation of resources there from. 33 CFR 67.35-1 and 33 CFR 67.35-5 provide a means for private individuals to establish privately maintained aids to navigation on artificial islands and fixed structures.

Purpose: To obtain approval to establish a private aid to navigation on an artificial island or fixed structure, the applicant must submit CG Form 4143 (Application for Class 1 Private Aids to Navigation on Artificial Islands and Fixed Structures). Information about the private aid to navigation (type, color, geographic position), as well as the applicant's contact information is stored in the U.S. Coast Guard's Integrated Aids to Navigation Information System (I-ATONIS). I-ATONIS is the U.S. Coast Guard's comprehensive database for managing information about aids to navigation. I-ATONIS has user access controls in place to govern who may view or access information.

Routine Uses: Collecting the applicant's contact information is important because it allows the U.S. Coast Guard to contact the applicant should there be a discrepancy or mishap involving the permitted private aid to navigation. Certain discrepancies create hazards to navigation and must be responded to and corrected or repaired. The contact information is available to U.S. Coast Guard aids to navigation personnel and contact is only initiated if the private aid to navigation becomes discrepant or in need of repair.

Disclosure: Provision of the applicant's contact information is mandatory, as it will allow the U.S. Coast Guard to contact the owner should there be a discrepancy or mishap with the permitted private aid to navigation. Failure to provide the required contact information will lead to disapproval of the private aid to navigation application.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.

The U.S. Coast Guard estimates the average burden for this report is 1 hour. You may submit any comments concerning the accuracy of this burden estimate or any suggestions for reducing the burden to: COMMANDANT (CG-NAV-1), U.S. COAST GUARD, 2100 2ND STREET, SW STOP 7580, WASHINGTON, DC 20593-7580 or OFFICE OF MANAGEMENT AND BUDGET, PAPERWORK REDUCTION PROJECT (1625-xxxx), WASHINGTON, DC 20593.
