

PRIVACY THRESHOLD ANALYSIS (PTA)

**This form is used to determine whether
a Privacy Impact Assessment is required.**

Please use the attached form to determine whether a Privacy Impact Assessment (PIA) is required under the E-Government Act of 2002 and the Homeland Security Act of 2002.

Please complete this form and send it to your component Privacy Office. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Rebecca J. Richards
Senior Director of Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form. If a PIA is required, the DHS Privacy Office will send you a copy of the Official Privacy Impact Assessment Guide and accompanying Template to complete and return.

A copy of the Guide and Template is available on the DHS Privacy Office website, www.dhs.gov/privacy, on DHSConnect and directly from the DHS Privacy Office via email: pia@dhs.gov, phone: 202-343-1717.

SPECIFIC PTA QUESTIONS

1. Please describe the purpose of the project or program:

Please provide a general description of the project and its purpose in a way a non-technical person could understand.

Section 550 of the Department of Homeland Security Appropriations Act of 2007, Pub. L. No. 109-295 authorizes DHS to regulate the security of high-risk chemical facilities. The National Protection and Programs Directorate (NPPD), Office of Infrastructure Protection (IP), Infrastructure Security Compliance Division (ISCD) implements this statutory authority through the Chemical Facility Anti-Terrorism Standards (CFATS) regulations, 6 CFR Part 27. CFATS establishes a risk-based approach to identifying and securing chemical facilities determined by NPPD to be “high-risk.” CFATS provides DHS with authorization to obtain information from high-risk facilities to support the implementation of CFATS.

The purpose of this PTA is to provide updated information regarding the three CFATS collections being submitted to the Office of Management and Budget (OMB) for approval.

As background:

The Paperwork Reduction Act (PRA) requires prior approval from OMB on how NPPD proposes to collect the necessary information for program implementation by affected facilities. NPPD uses three Information Collection Requests (ICRs) to gather information from chemical facilities in order to implement CFATS as follows:

- OMB Collection #1670-0007 supports the Department’s requirements under CFATS to collect the primary core regulatory data electronically through the Chemical Security Assessment Tool (CSAT). This is an ICR for Renewal (revision with change of a currently approved collection), which includes the following changes: (1) Removal of the Chemical-terrorism Vulnerability Information (CVI) Authorization Instrument; (2) Addition of the Request to Improve Program Instrument; (3) Inclusion of Recordkeeping burden for the first time; and (4) Reduction of the Burden Estimate by \$44 million, which is based upon actual historical data collected between January 2009 and December 2011.
- OMB Collection #1670-0014 supports the Department’s requirements to manage the CFATS program. This is an ICR for Extension (revision without change of a currently approved collection). Although the collection hasn’t changed, there is a reduction of the Burden Estimate by \$150,000, which is based upon actual historical data collected between January 2009 and December 2011.
- OMB Collection #1670-0015 supports the Department’s requirements to manage the CVI program in support of CFATS. This is an ICR for Extension (revision without change of a currently approved collection). Although the collection hasn’t changed, there is an increase of the Burden Estimate by \$2,500, which is based upon actual historical data collected between January 2009 and December 2011.

The current Information Collections (ICs) expire on March 31, 2013. Failure to obtain OMB approval to revise these ICs will result in NPPD being unable to collect vital information from our stakeholders.

(Yes/No) • Organization Name & Type (chosen from drop down menu) • Description of Official Duties • Direct Supervisor's Name • Direct Supervisor's Telephone • Agency/Affiliation

¹ DHS defines personal information as “Personally Identifiable Information” or PII, which is any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual, regardless of whether the individual is a U.S. citizen, lawful permanent resident, visitor to the U.S., or employee or contractor to the Department. “Sensitive PII” is PII, which if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. For the purposes of this PTA, SPII and PII are treated the same.

³ When data is sent over the Internet, each unit transmitted includes both header information and the actual data being sent. The header identifies the source and destination of the packet, while the actual data is referred to as the payload. Because header information, or overhead data, is only used in the transmission process, it is stripped from the packet when it reaches its destination. Therefore, the payload is the only data received by the destination system.

PRIVACY THRESHOLD REVIEW

(TO BE COMPLETED BY COMPONENT PRIVACY OFFICE)

Component Privacy Office Reviewer:	Emily Andrew
Date submitted to DHS Privacy Office:	October 29, 2012
Component Privacy Office Recommendation: <i>Please include recommendation below, including what new privacy compliance documentation is needed.</i>	
NPPD is conducting this PTA to provide updated information regarding the three CFATS collections being submitted to OMB for approval. NPPD Privacy recommends that this is a privacy sensitive system and the capabilities/collections are covered under the existing Chemical Facility Anti-Terrorism Standards (CFATS) PIA from July 26, 2012 and relevant System of Records Notices: DHS/ALL-004 - General Information Technology Access Account Records System (GITAARS) and DHS/ALL-002 - Department of Homeland Security (DHS) Mailing and Other Lists System.
