SUPPLEMENTARY INFORMATION:

Title: FERC-607: Report on Decision or Action on Request for Federal Authorization.

OMB Control No.: 1902-0240.

Type of Request: Three-year extension of the FERC-607 information collection requirements with no changes to the reporting requirements.

Abstract: The FERC-607 information collection requires agencies (Federal agency or officer, or State agency or officer acting pursuant to delegated Federal authority, responsible for a Federal authorization) to submit to the Commission a copy of a decision or action on a request for Federal authorization and an accompanying index to the documents and materials relied on in reaching a conclusion. The Commission authorizes the construction and operation of proposed natural gas projects under Natural Gas Act Sections 3 and 7; however, the Commission does not have jurisdiction over every aspect

of each natural gas project. Hence, for a natural gas project to go forward, in addition to Commission approval, several different agencies must typically reach favorable findings regarding other aspects of the project. The Energy Policy Act of 2005 (EPAAct 2005) modified FERC's role in order to better coordinate the activities of the separate agencies with varying responsibilities over proposed natural gas projects. Section 313 of EPAAct 2005¹ directs FERC to compile a record of each agency's decision along with the record of the Commission's decision. The Commission compiles this record in order to serve as a consolidated record for the purpose of appeal or review (including judicial review).

Type of Respondents: Government agencies responsible for issuing authorizations for proposed natural gas projects.

*Estimate of Annual Burden*²: The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-607—REPORT ON DECISION OR ACTION ON REQUEST FOR FEDERAL AUTHORIZATION

Number of respondents	Number of responses per respondent	Total number of responses	Average burden hours per response	Estimated total annual burden
(A)	(B)	(A) × (B) = (C)	(D)	(C) × (D)
1	1	1	6	6

The total estimated annual cost burden to respondents is \$414 [6 hours ÷ 2080 hours/year³ * \$143,540/year⁴ = \$414]

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: March 11, 2013.

Kimberly D. Bose,
Secretary.

SUPPLEMENTARY INFORMATION:

Title: FERC-606: Notification of Request for Federal Authorization and Requests for Further Information.

OMB Control No.: 1902-0241.

Type of Request: Three-year extension of the FERC-606 information collection requirements with no changes to the reporting requirements.

Abstract: The FERC-606 information collection requires agencies (Federal agency or officer, or State agency or officer acting pursuant to delegated Federal authority, responsible for a Federal authorization) responsible for issuing, conditioning, or denying requests for Federal authorizations for a proposed natural gas project to report regarding the status of an authorization request. This reporting requirement is intended to allow agencies to assist the Commission to make better informed

decisions in establishing due dates for agencies' decisions. The Commission authorizes the construction and operation of proposed natural gas projects under NGA Sections 3 and 7. However, the Commission does not have jurisdiction over every aspect of each natural gas project. For a natural gas project to progress the Commission must approve and several different agencies must typically reach favorable findings regarding other aspects of the project. To coordinate better the activities of the separate agencies with varying responsibilities over proposed natural gas projects, the Energy Policy Act of 2005 (EPAct 2005) modified FERC's role. Section 313 of EPAct 2005 directs FERC to establish a schedule for agencies to review requests for federal authorizations required for a project.

Type of Respondents: Government agencies responsible for issuing authorizations for proposed natural gas projects.

*Estimate of Annual Burden:*² The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-606: NOTIFICATION OF REQUEST FOR FEDERAL AUTHORIZATION AND REQUESTS FOR FURTHER INFORMATION

Number of respondents (A)	Number of responses per respondent (B)	Total number of responses (A) × (B) = (C)	Average burden hours per response (D)	Estimated total annual burden (C) × (D)
