Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Agency Information Collection Activities: Submission for OMB Review; Comment Request.

SUMMARY: The EIA has submitted the Financial Reporting EIA-28 Survey package to the Office of Management and Budget (OMB) for clearance under the provisions of the Paperwork Reduction Act of 1995. The Financial Reporting System, Form EIA-28 collects data used to analyze the energy industry's competitive environment as well as energy industry resource development, supply distribution, and profitability issues. This is a request to conduct a comprehensive voluntary evaluation of an existing data collection to inform a future redesign of the EIA-28. This future redesign will measure upstream oil and gas costs for exploration and production for U.S. companies' foreign and domestic operations. In order to successfully inform this redesign, EIA will assess the feasibility of collecting and measuring upstream oil and gas costs for exploration and production for U.S. energy companies' foreign and domestic operations. EIA will work to identify the policy goals and data needs of its stakeholders with respect to the collection and measurement of upstream oil and gas costs. The goal of this evaluation is to collect enough data to successfully inform the future redesign of the EIA-28.
