**RFS2 Renewable Biomass Report**  
**Report Form ID: RFS0800**

**Issue Date: 11/05/2010**

The RFS0800 RFS2 Renewable Biomass Report is for RIN-generating producers and importers to provide supplemental feedstock information for feedstocks used to produce renewable fuel and generate RINs under RFS2.

Any producer or importer, except those subject to the aggregate approach in 80.1454(g), that generates RINs during a given quarter for renewable fuel made from feedstocks that are planted crops and crop residue from existing agricultural land, planted trees or tree residue from actively managed tree plantations, slash or precommercial thinnings from forestlands, or biomass obtained from areas at risk of wildfire, shall summarize and submit information verifying that the feedstocks meet the definition of renewable biomass, as required in 80.1451(d). Reports must be submitted individually for each separate plot of land from which feedstocks were harvested, and additional electronic files that identify each plot of land by coordinates of the points defining the boundaries of each plot simultaneously submitted.

RIN-generating renewable fuel producers and importers with more than one registered facility may submit individual reports for each of their facilities or aggregate facilities into a single report.

This report is due quarterly: first quarter (January – March) reports are due May 31; second quarter (April – June) reports are due August 31; third quarter (July – September) reports are due November 30; fourth quarter (October – December) reports are due February 28.

Paperwork Reduction Act Statement

The public reporting and recordkeeping burden for this collection of information is disclosed in the estimates of the individual report form instructions. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
