

Residential Care Home Program Sponsor Application, VA Form 10-2407
OMB 2900-0616

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary. Identify legal or administrative requirements that necessitate the collection of information.

VA Form 10-2407 is necessary for the residential care home to qualify to provide care to veteran patients. This information is collected under the authority of Title 38, Part II, Sections 1720 and 1730. The form covers community providers. Community Nursing Homes (CNHs) already use the form, and the form will cover Home Health and Hospice Care agencies and community adult day health care centers.

2. Indicate how, by whom, and for what purposes the information is to be used; indicate actual use the agency has made of the information received from current collection.

VA Form 10-1170 has been removed from this ICR. Form 10-1170 was an application used by community agencies wishing to provide long-term care to veterans who receive VA benefits. The prospective provider contacted the local Veterans Affairs Medical Center (VAMC) of jurisdiction to request the application form. VA Form 10-1170 served as the only signed "agreement" between some providers and the VA indicating their intent to participate in the program, comply with CMS standards, and agreeing to a price structure. It is replaced by the open bid process for contracts & for provider agreements, the needed information previously provided by 1170 will be gleaned from other public sources.

The VA Form 10-2407 is an application used by a residential care facility or home that wishes to provide residential home care to veterans. It serves as the agreement between the VA and the residential care home that the home will submit to an initial inspection and comply with VA requirements for residential care. The prospective residential care home contacts the local Veterans Affairs Medical Center (VAMC) of jurisdiction to request the application form. Not every residential home that applies will be approved to provide Veterans residential home care. Some homes may not meet strict VHA standards or wish to submit to inspections. Information concerning application requirements is provided before the application form is sent and the review process is initiated to avoid wasted time with applications that are later withdrawn. The VAMC will perform an initial screening to ensure that the residential care home is eligible before providing the application form. The VHA Handbook 1140.01, Community Residential Care Program, (Section 8, Voluntary nature of Facility Operator Participation) states that "facility operators who apply for participation in the CRC program must accept the VA conditions of participation. VA Form 10-2407 is the only signed "agreement" between the home operator and the VA indicating their intent to participate in the program, allow inspections, comply with standards, and others listed on the form. Handbook 1140.01, (Section 9, Selection of Homes, a. application) identifies this form as the way to comply with the requirement to apply in writing for participation in the program. All of the additional information about the home is gathered at the time of inspection(s) and is not documented on a routine numbered form. This information is maintained in the VHA CRC files. The potential home operators are asked to give a reference of at least one neighbor who is preferably not a relative but this is not spelled out as a regulation.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also describe any consideration of using information technology to reduce burden.

The form has low return on investment as a result of low transaction frequency and would not pay for its conversion in five years. Additionally, since nursing homes with a variety of levels of automation will submit the data on the form, it will be difficult to automate this data collection. However, VA has posted a fillable version of the form on the Intranet (at <http://vaww.va.gov/vaforms/>) and on the Internet (at <http://www.va.gov/vaforms/>) for fill, save and print submissions.

4. Describe effort to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

The information requested by VA Form 10-2407 is not available from any other source.

5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden.

The impact on small businesses has been kept to an absolute minimum. The questions are only those required to verify the Home's/Agency's adequacy to render care to veterans.

6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently as well as any technical or legal obstacles to reducing burden.

VA Form 10-2407 is completed only once.

7. Explain any special circumstances that would cause an information collection to be conducted more often than quarterly or require respondents to prepare written responses to a collection of information in fewer than 30 days after receipt of it; submit more than an original and two copies of any document; retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years; in connection with a statistical survey that is not designed to produce valid and reliable results that can be generalized to the universe of study and require the use of a statistical data classification that has not been reviewed and approved by OMB.

There are no such special circumstances.

8. a. If applicable, provide a copy and identify the date and page number of publication in the Federal Register of the sponsor's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the sponsor in responses to these comments. Specifically address comments received on cost and hour burden.

Supporting Statement A for 2900-0616, Continued

The notice of Proposed Information Collection Activity was published in the Federal Register on June 27, 2013, Volume 78, No. 124 at page 38810. We received no comments in response to this notice.

b. Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, clarity of instructions and recordkeeping, disclosure or reporting format, and on the data elements to be recorded, disclosed or reported. Explain any circumstances which preclude consultation every three years with representatives of those from whom information is to be obtained.

Outside consultation is conducted with the public through the 60- and 30-day Federal Register notices. No additional consultation has been necessary as the information is simple, straightforward and is readily available.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

No payment or gift is provided to respondents.

10. Describe any assurance of privacy to the extent permitted by law provided to respondents and the basis for the assurance in statute, regulation, or agency policy.

Information provided on VA form 10-2407 will become part of a system of records, which complies with the Privacy Act of 1974. This system is identified as “Community Placement Program-VA (65VA122)” as set forth in the Compilation of Privacy Act Issuances via online GPO access at <http://www.gpoaccess.gov/privacyact/index.html>.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private; include specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

There are no questions of a sensitive nature.

12. Estimate of the hour burden of the collection of information:

a. The total annual burden is 42 hours

Form	Respondents	Minutes	Divided by 60	Annual Burden Hours
10-2407	500	5	60	42

Supporting Statement A for 2900-0616, Continued

b. If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in Item 13 of OMB 83-1.

The request for approval covers one form.

c. Provide estimates of annual cost to respondents for the hour burdens for collections of information. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14.

The annualized cost to respondents is estimated at \$966. (*Burden hour x \$23 per hr. (Bureau of Labor Statistics)*)

VA Form 10-2407	42 hours	x	\$23 per hour	<u> \$966</u>
-----------------	----------	---	---------------	------------------------

13. Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).

- a. There is no capital, start-up, operation or maintenance costs.
- b. Cost estimates are not expected to vary widely. The only cost is that for the time of the respondent.
- c. There is no additional recordkeeping burden.

14. Provide estimates of annual cost to the Federal Government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operation expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.

Cost to the Federal Government is estimated at \$2,330.50. VA does not anticipate printing these forms because the usage is so low.

VA Form 10-2407	500 forms x \$15.28/hour (GS 4/5) x 6 min./60	\$764.00
	500 forms x \$31.33/hour (GS 11/5) x 6 min./60	\$1,566.50
	TOTAL	\$2,330.50

15. Explain the reason for any program changes or adjustments reported in Items 13 or 14 of OMB 83-1

Adjustment to supporting statement no. 12 and 14: VA Form 10-1170 has been discontinued, thus the burden hours and the cost to the federal government have been reduced. It is replaced by the open bid process for contracts & for provider agreements, the information needed previously provided by 10-1170 will be gleaned from other public sources.

16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.

There are no plans to publish the results of the information collected. VA Medical Centers conduct these reviews, as described above. It allows VA to contract with the best local Nursing Homes available that are interested in contracting with the Department.

17. If seeking approval to omit the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.

VA seeks to minimize the cost to itself of collecting, processing and using the information by not displaying the expiration date. We seek an exemption that waives the displaying of the expiration date on this VA Form. The VA Form may be reproduced by the respondents and veterans service organizations from the Internet and then stocked. If we are required to display an expiration date, it would result in unnecessary waste of existing stock of the forms. Inclusion of the expiration date would place an unnecessary burden on the respondent (since they would find it necessary to obtain a newer version, while VA would have accepted the old one).

18. Explain each exception to the certification statement identified in Item 19, "Certification for Paperwork Reduction Act Submissions," of OMB 83-I.

There are no exceptions.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

No statistical methods are used in this data collection.
