

1. In which sub-Saharan African countries do you participate in current power-related projects, activities, or investments?
2. In which sub-Saharan African countries are you planning to get involved in additional power-related projects activities, or investments in the near future?
3. In which sub-Saharan African countries would you like to undertake power-related projects, activities, or investments, but are not doing so due to constraints in the enabling environment (legal, regulatory, financial or other)?
4. In which sub-Saharan African countries do you have no plans to undertake any power-related projects activities, or investments in the short or medium term?
