- C. Fences. Unless specifically accepted by Grantee, all costs associated with the construction and maintenance of fences and similar facilities to exclude livestock shall be the responsibility of Grantor. All fences must be constructed in accordance with the terms and conditions of the conservation plan.
- D. Liability. Grantor shall be liable for actions occurring within or on the contract area.

Grantee's written authorization shall prescribe the amount, method, timing, intensity, and duration of the compatible use.

If access across the contract area will not adversely affect the resource protected by the contract, Grantor may be allowed access across existing roads or paths in accordance with the terms and conditions of the conservation plan.

(a)  The existing road network is more particularly described in (b)

(c)  There is no existing road network

**11. Grantee's Rights.** The rights of Grantee include:

- A. Management activities. Grantee shall have the right to enter the contract area to undertake, at its own expense or on a cost-share basis with Grantor or other entity, any activities to restore, protect, manage, maintain, enhance, and monitor the wetland, upland, highly erodible land, wildlife, and other natural values of the contract area. Grantee, at its own cost, may apply or impound additional waters on the contract area to maintain or improve wetland, upland, wildlife habitat, and other natural values.

- B. Access. Grantee has a right of reasonable ingress and egress to the contract area over Grantor's property, whether or not the property is adjacent to the contract area, for the exercise of any of the rights of Grantee under this contract. The authorized representatives of Grantee may utilize vehicles and other reasonable modes of transportation for access purposes.
- C. Contract management. Grantee may delegate all or part of the management, monitoring, or enforcement responsibilities under this contract to any entity authorized by law that it determines to have the appropriate authority, expertise, and resources necessary to carry out such delegated responsibilities. State or Federal agencies may utilize their general statutory authorities in the administration of any delegated management, monitoring or enforcement responsibilities for this contract. The authority to modify or terminate this contract is reserved to Grantee.
- D. Violations and remedies. The Parties agree that this contract may be introduced in any enforcement proceedings at the stipulation of the Parties; notwithstanding any violation or breach of the terms of this contract, this contract shall remain in full force. If Grantor fails to comply with any of the provisions of this contract, Grantee shall have any legal or equitable remedy provided by law and the right to:
- (1) Liquidated damages. If Grantor violates the terms of this contract, Grantee may assess liquidated damages against each parcel upon which the violation occurred. Damages will be assessed by imposing a lien upon each acre of the parcel involved in the violation. This lien will have the same lien priority as enjoyed by this contract. Damages will be calculated as follows:
    - (a) multiply the number of acres in violation by the per-acre amount of debt written down at the time the contract was executed,
    - (b) add the restoration costs for the contract acres on which the violation occurred,
    - (c) add Grantee's administrative expenses;
  - (2) Reinstate all or a portion of the debt. If the violation occurs while Grantor is still indebted to Grantee and no restoration costs have occurred, Grantee may reinstate all or a portion of the debt canceled in lieu of assessing liquidated damages. Grantor will cooperate in executing any documents necessary to reestablish the secured debt. Such reinstated debt shall be deemed a mortgage on the real property encumbered by this contract and other lands which were under mortgage at the time this contract was entered into;
  - (3) Enter upon the contract area. Grantee retains the right to enter the contract area to perform necessary work for prevention of or remediation of damage to wetland, upland, highly erodible land, wildlife, and other natural values;
  - (4) Assess all expenses incurred by Grantee. All expenses incurred by Grantee, including any legal fees or attorney fees, may be assessed against Grantor, to be owed to Grantee immediately upon assessment.

## 12. General Provisions

- A. Contract modifications. The terms and conditions of this contract shall not be modified except by the Grantee as provided in Item 10. Grantee may modify the conservation plan to add or substitute conservation practices.

- B. Successors-in-interest. The rights granted to Grantee shall accrue to any of its agents, successors, or assigns. The agents, successors, or assigns shall have all of the discretionary powers of Grantee under this contract, except that the power to release or modify in any manner the terms of this contract may be exercised only by a designated employee of the U.S. Department of Agriculture. All obligations of the Grantor under this contract shall also bind Grantor’s heirs, successors, agents, assigns, lessees, and any other person claiming under them. All the landowners who are parties to this contract shall be jointly and severally liable for compliance with its terms.
  
- C. Rules of construction and special provisions. All rights in the contract area not reserved by Grantor shall be deemed granted to Grantee. Any ambiguities in this contract to affect the conservation, recreation, or wildlife purposes shall be construed in favor of Grantee. The grants, covenants, and servitudes benefiting Grantee under this contract shall be unaffected by any action related to any loan or mortgage between Grantor and Grantee, including satisfaction or foreclosure, or by any subsequent amendments or repeal of Section 349 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1997).
  
- D. In the event any provision of this contract is held to be invalid, it shall be stricken while leaving the remaining provisions in force.
