DEPARTMENT OF HEALTH & HUMAN SERVICES

Memorandum

Date October 25, 2012

From Chair, NIOSH IRB (HSRB)

Subject Report of NIOSH IRB (HSRB) - Protocol No. HSRB 12-DRDS-06XP "Research to Inform the

Prevention of Asthma in Health Care" Approval of Protocol with Stipulations – Requires

Amendment Prior to Engagement

To Paul Henneberger, Sc.D.

Michael Humann, Ph.D.

Project Officers, FSB, DRDS

Through: /Chief, FSB, DRDS

/Director, FSB, DRDS

General Comments and IRB Actions

I received your revised protocol and consent script (memo dated 10/10/2012) for the subject protocol and find that it is responsive to the issues raised in my 9/19/2012 NIOSH IRB (HSRB) courtesy report. Your protocol was reviewed using the expedited procedure in that it presents no more than minimal risk and involves collection of data through noninvasive procedures routinely involved in clinical practice (criterion #4); and research employing a human factors evaluation (criterion #7); as provided for in 45CFR46.110. Your request for a waiver of documentation of informed consent is approved per 45CFR46.117 (c) (2) in "(2) That the research presents no more than minimal risk of harm to subjects and involves no procedures for which written consent is normally required outside of the research context."

Per our telecom today (10/25/2012) where you informed me that NIOSH IRB (HSRB) approval of your protocol is required for OMB submission. You also informed me that you were seeking NIOSH IRB approval of the content of your questionnaire, the telephone recruitment script including consent, and written communications prior to translating these materials into Spanish. Additionally, you informed me that you need NIOSH IRB approval to move forward on the project with your Union partner (SEIU). Normally the NIOSH IRB requires a complete and final version of the protocol (protocol of record) prior to granting approval. However, you have made the case that NIOSH IRB approval of procedures and content of materials is essential prior to finalizing the tools for implementing the protocol. I have reviewed your NIOSH IRB review responses and revised protocol and determined that your responses and revisions are adequate with exceptions noted below. I approve the protocol with the following stipulations: Before contacting or interacting in anyway with participants you will provide the NIOSH IRB with (1) a final on screen version of the questionnaire (no draft watermarks); (2) Spanish translation with back translation or confirmation of questionnaire translation; recruitment and consent scripts; post card; and letters; (3) approved/signed confidentiality agreement from SEIU-CC; (4) FWA for SEIU-CC and an approved/signed SEIU Agreement CDC 0.1372A to defer IRB review to a CDC IRB (NIOSH IRB) in place; and (5) any deviations from the present protocol of record will require submission of a formal Request for Changes to an IRB Approved Protocol by submitting via hard copy CDC forms 0.1379 (signature page), 0.1252 (amendment request), 0.1370 (non CDC collaborator, if have), a clean copy of the revised protocol and a highlighted copy (track changes or pen/ink) of the revised protocol (all changes highlighted). Electronic submission of your amendment request may facilitate review, but it is not required. The current revised protocol and consent document (dated 10/25/2012) will serve as the documents of record for this study (renewal date 10/25/2013). However, if you make any substantive changes to the protocol or if any adverse reactions occur in any study participants, please notify me immediately (phone: 513-533-8591 or E-mail MToraason@cdc.gov).

The procedure for requesting annual continuing review is to send 45-60 days prior to renewal date completed hard copy forms CDC 0.1379 (signature page), 0.1251 (continuing review request), 0.1370 (non CDC collaborator, if have), a copy of your current consent form (if still consenting or recruiting). An electronic submission of your continuing review may facilitate review, but it is not required.

Please note that the Service Employees International Union (SEIU) does currently possess an active FWA00018478 registered with the HHS Office for Human Research Protections. The current SEIU FWA signatory provided by OHRP is Myra Glassman, 209 West Jackson Boulevard, 2nd Floor, Chicago, IL 60606, ph: 312-980-9007 and E-mail myra.glassman@seiuhcil.org. Generally, HHS OHRP allows for a limited (or only one) FWA registration per institution (SEIU). You may consider contacting Ms. Glassman regarding your research activity to see whether it would be appropriate for SEIU FWA00018478 to be utilized for your research or not. Please follow-up with Kathy Masterson to ensure the proper assurances and agreements are in place, prior to engagement. Thank you.

Protocol Issues, Consent Form Issues, Addenda Issues - None.

End of Report

Mark A. Toraason, Ph.D.

The principal investigator is responsible for obtaining other regulatory reviews as needed, which may include OMB clearance under the Paperwork Reduction Act (PRA) for federally sponsored information collections. Approval by or exemption from the IRB is unrelated to OMB clearance requirements under the PRA. For more information on whether your study requires clearance under PRA or other regulations, please consult the appropriate officials within your national center.

Reminder regarding other regulatory clearance processes

SEV # is CDC's Scientific Ethics Verification Number. CDC NC/division is the national center (or equivalent) and division (or equivalent), or coordinating center or office if submitted at that level.

List all other CDC investigators, if any (name and degrees, user ID, SEV #, CDC NC/division):

3 CDC's role in project

Check yes or no for each of the following.

 \square_n CDC employees or agents will obtain data by intervening or interacting with participants.

CDC employees or agents will obtain or use identifiable (including coded) private data or biological specimens.

CDC employees or agents will obtain or use anonymous or unlinked data or biological specimens.

DC employees will provide substantial technical assistance or oversight.

 $\boxtimes_y \square_n$ CDC employees will participate as co-authors in presentation(s) or publication(s).

"Agents" includes on-site contractors, fellows, and others appointed or retained to work at a CDC facility conducting activities under the auspices of CDC.

CDC's Research Partners

Use this form to report current information on CDC's research partners whenever a partner institution or individual is added or information changes. Supply individual name and SEV number only for investigators collaborating with CDC under an individual investigator agreement (IIA). See HRPO Guide: CDC's Research Partners and either the HRPO Worksheet for Basic Tracking of Research Partners or the HRPO Worksheet for Advanced Tracking of Research Partners for details on how to complete this form.
