Re: *Science to Practice: Developing and Testing a Marketing Strategy for Preventing Alcohol-Related Problems in College Communities*  
Project code #: 0484  
Submission form dated: January 2, 2013  
Appendix 1 submitted: January 2, 2013  
Appendix 2 submitted: January 4, 2013

Dear Dr. Saltz:

Pursuant to 45 CFR 46, the human subjects protocol of the above referenced study has been approved by Pacific Institute's IRB #1 (IRB00000630) through expedited review on January 3, 2013. The IRB will continue to review the full protocol at least annually to reconfirm human subjects procedures. **This IRB approval expires on January 7, 2014.**

Should there be any changes in protocols, including the ending of a project, or incidents involving human subjects during the conduct of this research, you are required to report them immediately to the IRB. Changes in research during the period for which IRB approval has already been granted may not be implemented without prior IRB review and approval, except where necessary to protect subjects (see regulations). Proposed changes to approved human subjects protocols must be reported promptly to the IRB for review using the Continuation Review format, or if the project has ended, the Final Report format.

For your records, our Federalwide Assurance number is FWA00003078, and our organization number is IORG0000373.

Sincerely,

A handwritten signature in black ink that reads "Bernard Murphy".

Bernard E. Murphy, Ph.D.
