Library of Chemical Exposure Questions

(Revised June 2009)
Note: Each survey will have the following format.

Form Approved

OMB NO.: 0923-0040

EXPIRATION DATE: XX/XX/XXXX

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road, MS D-74, Atlanta, GA 30333, ATTN: PRA (0923-0040).

Example Script for Environmental and/or Biologic Sampling Events

Sample Introduction for Environmental Investigation:

Hello, my name is SAY NAME. We are doing an Exposure Investigation for ATSDR. ATSDR is a sister agency to the Centers for Disease Control and Prevention. As part of the investigation, we will be asking you some common questions like your name and address. We will also ask questions on your contact with chemicals. We are asking these questions to better understand all the data we collect.

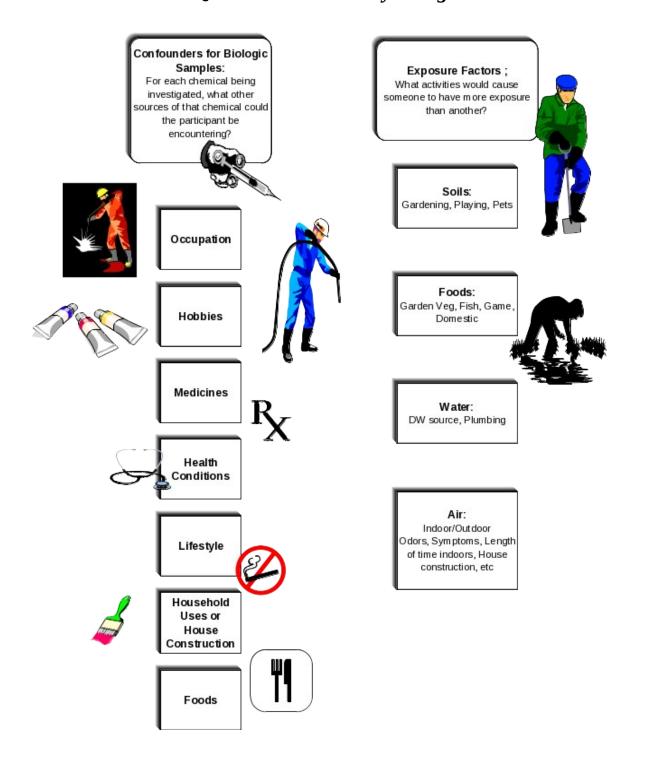

The questions should take less than thirty minutes. After that, we will be offering free FILL IN TYPE(S) = [FOR ENVIRONMENTAL-air, soil, water, foods testing] Once we are done with this investigation, you will be given a copy and details of -your location or the exposure location test results. Generally, we are able to get results to you within (FILL IN ADJUSTED TIME FRAME OR INSERT 4 – 8 WEEKS).

Sample Introduction for Biologic Investigation:

Hello, my name is SAY NAME. We are doing an Exposure Investigation for ATSDR. ATSDR is a sister agency to the Centers for Disease Control and Prevention. As part of the investigation, we will be asking you some common questions like your name and address. We will also ask questions on your contact with chemicals. We are asking these questions to better understand all the data we collect.

The questions should take less than thirty minutes. After that, we will be offering free FILL IN TYPE(S) = [FOR BIOLOGIC-blood, urine, hair, nails, other testing for all people who live in your home]. Once we are done with this investigation, you will be given a copy and details of -you and your minor children's (if you have them) test results]. Generally, we are able to get results to you within (FILL IN ADJUSTED TIME FRAME OR INSERT 4 – 8 WEEKS).

General Information Questions

Example Script: Now I want to ask you questions about how I can contact you. I may also be asking how long you have lived at or visited certain places. This is needed to find out how long you may have had contact with chemicals and how long it may have lasted. We may also ask your age, race, weight and height, and about your jobs. This is useful to put your test results side by side with others like you to see what is typical.

NOTE: It is recommended that you ask the general questions <u>last.</u>

Script: These questions will help us determine if eating locally raised domestic animals may increase your contact with chemicals.

First for the following questions, domestic animals are defined as locally raised animals that are used as a source of meat (such as cattle or chicken). Also the products of these domesticated animals such as milk or eggs are to be included in this survey

At your **present** work:

What best describes the type of work you are doing (at Job 1, Job2, Job3 etc.)?

(*Note to surveyor*: This is an example of an industry or occupation list. It should be edited to only include jobs of interest to your investigation (e.g., jobs that may include chemical use similar to what you are investigating. If you want to include an exhaustive list of occupations or industries, you can use the U.S. Census list found at http://www.census.gov/hhes/www/ioindex/overview.html

If you want to narrow the list to jobs or industries with chemical of interest, consider searching "agents" @ http://hazmap.nlm.nih.gov/, then look at processes, industries, and activities with risk of exposure. You can also search it backward when you know a job and it will tell you the hazards associated with that job.)
