

**Clinical Research and the Role of the Professional Nurse
Student Survey**

OMB No.: 0925-0046
Expiration Date: xx/xx/2016

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0046). Do not return the completed form to this address.

Thank you for attending our guest lecture today! Please take a few minutes to give the National Cancer Institute your thoughts and feedback on whether this class has sparked additional interest in clinical research and how we may continue to refine the content and delivery of this guest lecture. Your participation is voluntary and you may skip any questions that you do not wish to answer. This brief survey should take about 5 minutes of your time.

1. Please tell us what type of nursing program you are enrolled in:
 - Traditional baccalaureate program
 - RN to BSN program
 - 2nd degree

2. How interested would you be in participating in additional learning opportunities on clinical research within your current program?
 - Very interested
 - Interested
 - Somewhat interested
 - Not at all interested

3. Would you be interested in an online course to learn more in-depth about the clinical research topics you were introduced to today?
 - Very interested
 - Interested
 - Somewhat interested
 - Not at all interested

4. In what ways might the clinical research information you learned today influence your thinking about roles or career paths you consider post-graduation? (check all that apply)
 - I am interested in gaining more clinical research knowledge to better care for and educate my patients
 - I would seek out opportunities to be a direct care nurse in a dedicated research setting
 - would be interested in becoming a clinical trials nurse
 - The information I learned today will not affect my decision-making about my career path

5. How informative were the following lecture elements?

	Very informative	Informative	Moderately informative	Not informative
Pre-class readings				
Video stories				
Lecture content				
Vignettes				
Q/A discussion segments				

6. For each of the clinical research topics covered, please specify your level of understanding about the following clinical research topics prior to and after listening to this guest lecture.

	Prior to the lecture, I knew			After the lecture, I know		
	A lot about this	A little about this	I had no prior knowledge	A lot about this	A little about this	I was already knowledgeable about this
Importance and relevance of clinical research						
Characteristics and types of clinical research						
Understanding a clinical trials protocol						
Protecting clinical trials participants						
Understanding the informed consent process						
Nursing roles in clinical research						

7. In thinking about the lecture topics we covered today, please rate the appropriateness of the amount of information provided.

	For each of the following topics, the amount of information provided was:		
Clinical research topic	Not enough information	Appropriate	Too much information
Importance and relevance of clinical research			
Characteristics and types of clinical trials			
Understanding a clinical trials protocol			
Protecting clinical trials participants			
Understanding the informed consent process			
Nursing roles in clinical research			

8. To help us plan future lectures, please tell us how you would rate the following aspects of today's lecture:

	Excellent	Good	Fair	Poor
Quality of the slides				
Organization of the content				
Length of the lecture				
Presentation skills of the lecturers				
Engagement with students				

9. Do you have any additional comments or suggestions you would like to share with us?

Thank you!!
