

LAUS Data User Stakeholder Survey

Introduction

Thank you for helping the U.S. Bureau of Labor Statistics (BLS) collect critical feedback regarding the Local Area Unemployment Statistics (LAUS) program. The LAUS program is a Federal-State cooperative effort in which monthly estimates of total employment and unemployment are prepared for approximately 7,500 areas. Your responses will be used to develop new products and improve our existing services.

Even if you are not a frequent user of LAUS products, any feedback you can provide would be appreciated. Your participation in this survey is voluntary. We estimate that it will take approximately 10 minutes to complete. We are collecting this information under OMB Number []. Without this currently approved number, BLS could not conduct this survey (Expiration date:).

The survey questions are based on broad user experience and responses will be aggregated for analysis. Your responses will remain anonymous and confidential.

If you have any questions about this survey, please e-mail [Christopher Erickson](#) or call (202)-691-6458.
