RE: Authorizing Statute for OMB Control# 1660-NW79, Community Drill Day Registration Collection

Good Afternoon Tyrone,

I just wanted to follow back up with you on our discussion last week in regards to the authorizing statute for the above reference collection. Only the Presidential Policy Directive/PPD-8 will be used for this collection.

I was advised by FEMA's OCC to inform DHS that a Presidential Policy Directive carries the same legal authority as an Executive Order and suggests that OMB update their ROCIS system to include a dropdown field for Presidential Policy Directives under the authorizing statute section.

Here is the link that was provided:

<http://www.fas.org/irp/offdocs/predirective.html>

Please provide guidance as to how to enter this Presidential Policy Directive into the ROCIS system for this collection. Thank you for your assistance.
