2B. DOMINANT HA	ND:							
RIGHT	LEFT 🗌 AMBI	DEXTROUS						
	NO	1AT FLARE-UPS IMPACT TH	IE FUNCTION OF THE CERVICAL SPINE (neck)?					
		DESCRIPTION OF THE IMP	ACT OF FLARE-UPS IN HIS OR HER OWN WORDS:					
2D. DOES THE VE	TERAN REPORT HA	VING ANY FUNCTIONAL LO	DSS OR FUNCTIONAL IMPAIRMENT OF THE CERVICAL SPINE (neck) (regardless of repetitive use)?					
YES	NO							
IF YES, DOCUMEN	NT THE VETERAN'S	DESCRIPTION OF FUNCTION	DNAL LOSS OR FUNCTIONAL IMPAIRMENT IN HIS OR HER OWN WORDS:					
			L RANGE OF MOTION (ROM) MEASUREMENTS					
Measure ROM with	a coniometer. During		nt of painful motion, which could be evidenced by visible behavior such as facial expression, wincing,					
		ument painful movement in Se						
Following the initial	assessment of ROM	, perform repetitive use testin	g. For VA purposes, repetitive use testing must be included in all joint exams. The VA has determined					
	ROM (at a minimum)	, ,	ve test of the effect of repetitive use. After the initial measurement, reassess ROM after 3 repetitions.					
3A. INITIAL ROM N								
	Joint Movement	DOM Massurement	If ROM testing is not indicated for the veteran's condition or not able to be performed,					
	Joint Wovement	ROM Measurement	please explain why, and then proceed to Section 5:					
	Forward Flexion							
	(normal endpoint	Not indicated						
	= 45 degrees)	Not able to perform						
	Extension							
	(normal endpoint	Not indicated						
	= 45 degrees)	Not able to perform						
	Right Lateral							
NECK	Flexion	Not indicated						
	(normal endpoint = 45 degrees)	Not able to perform						
	Left Lateral Flexion							
	(normal endpoint	Not indicated Not able to perform						
	= 45 degrees)							
	Right Lateral							
	Rotation (normal endpoint	Not indicated						
	= 80 degrees)	Not able to perform						
	Left Lateral							
	Rotation (normal endpoint	Not indicated						
	= 80 degrees)	Not able to perform						

YES (you will be asked t	As NOTED ABC	DN III - INITIAL RANGE OF MOT OVE CONTRIBUTE TO FUNCTIONAL ibe these limitations in Section 7 bel OMs DO NOT CONTRIBUTE:		ntinued)			
		NORMAL RANGE OF MOTION IDEN trologic disease), EXPLAIN:	ITIFIED ABOVE BUT IS NORMAL FOR TH	IIS VETERAN (for reas	ons other than a neck		
	SE	CTION IV - ROM MEASUREME	NTS AFTER REPETITIVE USE TEST	TING			
4A. POST-TEST ROM MEASU		epetitive-use testing?	Is there additional limitation in ROM after repetitive-use testing?	Joint Movement	Post-test ROM Measurement		
Yes If yes, perform re	petitive-use test	ina		Forward Flexion	Medsurement		
		proceed to Section 5	No, there is no change in ROM after repetitive testing	Extension			
			If yes, report ROM after a minimum	Left Lateral Flexion			
			of 3 repetitions. If no, documentation of ROM after repetitive-use testing is not required.	Right Lateral Flexion Left Lateral			
				Rotation Right Lateral			
4B. DO ANY POST-TEST ADD	ITIONAL LIMIT	ATIONS OF ROMS NOTED ABOVE	CONTRIBUTE TO FUNCTIONAL LOSS?	Rotation			
	°	ibe these limitations in Section 7 bel DDITIONAL LIMITATIONS OF ROMs	,				
		SECTI E, PASSIVE AND/OR REPETITIVE U	ON V - PAIN				
Are any ROM movements painful on active, passive and/or repetitive use testing? (If yes, identify whether active, passive, and/or repetitive use in question 5D)	If yes <i>(there</i> pain co	<i>are painful movements)</i> , does the ontribute to functional loss or itional limitation of ROM?	If no (the pain does not contribute to fur	nctional loss or addition vain does not contribute:			
Yes		u will be asked to further describe mitations in Section 7 below)					
5B. PAIN WHEN USED IN WE	IGHT-BEARING	G OR IN NON WEIGHT-BEARING-BE	ARING				
Is there pain when the joint is used in weight-bearing or non weight-bearing? (If yes, identify whether weight- bearing or non weight-bearing in question 5D)	or non weigh	pain when used in weight-bearing bearing), does the pain contribute pass or additional limitation of ROM?	If no <i>(the pain does not contribute to fur</i> explain why the p	nctional loss or addition pain does not contribute:	nal limitation of ROM),		
Yes	~	u will be asked to further describe mitations in Section 7 below)					
5C. LOCALIZED TENDERNES	S OR PAIN ON	PALPATION					
Does the Veteran have localize or pain on palpation of joints o		If yes, describe including	location, severity and relationship to condi	tion(s) listed in the Diag	nosis section:		
Yes N	0

UNABLE TO EVALUATE, PROVIDE REASON.						
6C. SPINAL CONTOUR:						
Due to: Muscle spasm						
Guarding						
Other, describe and provide etiology:						
UNABLE TO EVALUATE, PROVIDE REASON:						
SECTION VII - FUNCTIONAL LOSS AND ADDITIONAL LIMITATION OF ROM						
NOTE: The VA defines functional loss as the inability, due to damage or infection in parts of the system, to perform normal working movements of the body with						
normal excursion, strength, speed, coordination and/or endurance. As regards the joints, factors of disability reside in reductions of their normal excursion of						
movements in different planes.						
Using information from the history and physical exam, select the factors below that contribute to functional loss or impairment (regardless of repetitive use) or to additional limitation of ROM after repetitive use for the joint or extremity being evaluated on this DBQ:						
7A. CONTRIBUTING FACTORS OF DISABILITY (check all that apply and indicate side affected):						
Less movement than normal (due to ankylosis, limitation or blocking, adhesions, tendon-tie-ups, contracted scars, etc.)						
More movement than normal (from flail joints, resections, nonunion of fractures,						
relaxation of ligaments, etc)						
Weakened movement (due to muscle injury, disease or injury of peripheral						
nerves, divided or lengthened tendons, etc.)						
Excess fatigability						
Incoordination, impaired ability to execute skilled movements smoothly						
Pain on movement						
Swelling						
Deformity						
Atrophy of disuse						
Instability of station						
Disturbance of locomotion						
Interference with sitting						
Interference with standing						
Other, describe:						

SECTION VII - FUNCTIONAL LOSS AND ADDITIONAL LIMITATION OF ROM (Continued)									
could significant	ly limit functiona	l ability d	uring flare-up	s or when t	he joint is used repeate	edly over a period of t	n on whether pain, weakness, fatigability, or incoordination <i>time</i> and that opinion, if feasible, should be expressed in sist you in providing this required opinion.		
7B. ARE ANY OF THE ABOVE FACTORS ASSOCIATED WITH LIMITATION OF MOTION?									
YES (If yes, complete question 7C and 7D)									
NO (If no, proceed to question 7D)									
7C CONTRIBUT	ING FACTORS C		II ITY ASSOCI		H I IMITATION OF MO				
7C. CONTRIBUTING FACTORS OF DISABILITY ASSOCIATED WITH LIMITATION OF MOTION									
Can pain, weakness, fatigability, or incoordination significantly limit functional ability during flare-ups or when the joint is used repeatedly over a period of time? If yes, please estimate ROM due to pain and/or functional loss during flare-ups or when the joint is used repeatedly over a period of time? If there is a functional loss due to pain, during flare-ups and/or when the joint is used repeatedly over a period of time? Forward Est. ROM is not feasible Est. ROM is

DOES THE VETERAN HAVE ANY OTHER OBJECTIVE NEUROLOGIC ABNORMALITIES OR FINDINGS (including, but not limited to bowel or bladder problems due to cervical myelopathy) ASSOCIATED WITH A CERVICAL SPINE (neck) CONDITION? YES NO IF YES, DESCRIBE CONDITION AND ITS RELATIONSHIP TO ANY CONDITION LISTED IN THE DIAGNOSIS SECTION: NOTE: If there are neurological abnormalities other than those addressed in the Physical Exam or Radiculopathy sections above, ALSO complete appropriate Disability Benefits Questionnaire for each condition identified. SECTION XIV - INTERVERTEBRAL DISC SYNDROME (IVDS) AND INCAPACITATING EPISODES NOTE: For VA purposes, IVDS is a group of signs and symptoms due to nerve root irritation that commonly includes back pain and sciatica (pain along the course of the sciatic nerve) in the case of lumbar disc disease, and neck and arm or hand pain in the case of cervical disc disease. 14A. DOES THE VETERAN HAVE IVDS OF THE CERVICAL SPINE? YES NO 14B. IF YES TO QUESTION 14A ABOVE, HAS THE VETERAN HAD ANY INCAPACITATING EPISODES (a period of acute signs and symptoms due to IVDS that requires
13. DOES THE VETERAN HAVE ANY OTHER OBJECTIVE NEUROLOGIC ABNORMALITIES OR FINDINGS (including, but not limited to bowel or bladder problems due to cervical myelopathy) ASSOCIATED WITH A CERVICAL SPINE (neck) CONDITION? YES NO IF YES, DESCRIBE CONDITION AND ITS RELATIONSHIP TO ANY CONDITION LISTED IN THE DIAGNOSIS SECTION: NOTE: If there are neurological abnormalities other than those addressed in the Physical Exam or Radiculopathy sections above, ALSO complete appropriate Disability Benefits Questionnaire for each condition identified. SECTION XIV - INTERVERTEBRAL DISC SYNDROME (IVDS) AND INCAPACITATING EPISODES NOTE: For VA purposes, IVDS is a group of signs and symptoms due to nerve root irritation that commonly includes back pain and sciatica (pain along the course of the sciatic nerve) in the case of lumbar disc disease, and neck and arm or hand pain in the case of cervical disc disease. 14A. DOES THE VETERAN HAVE IVDS OF THE CERVICAL SPINE? YES NO 14B. IF YES TO QUESTION 14A ABOVE, HAS THE VETERAN HAD ANY INCAPACITATING EPISODES (a period of acute signs and symptoms due to IVDS that requires bed rest prescribed by a physician and treatment by a physician) OVER THE PAST 12 MONTHS? YES NO
13. DOES THE VETERAN HAVE ANY OTHER OBJECTIVE NEUROLOGIC ABNORMALITIES OR FINDINGS (including, but not limited to bowel or bladder problems due to cervical myelopathy) ASSOCIATED WITH A CERVICAL SPINE (neck) CONDITION? YES NO IF YES, DESCRIBE CONDITION AND ITS RELATIONSHIP TO ANY CONDITION LISTED IN THE DIAGNOSIS SECTION: NOTE: If there are neurological abnormalities other than those addressed in the Physical Exam or Radiculopathy sections above, ALSO complete appropriate Disability Benefits Questionnaire for each condition identified. SECTION XIV - INTERVERTEBRAL DISC SYNDROME (IVDS) AND INCAPACITATING EPISODES NOTE: For VA purposes, IVDS is a group of signs and symptoms due to nerve root irritation that commonly includes back pain and sciatica (pain along the course of the sciatic nerve) in the case of lumbar disc disease, and neck and arm or hand pain in the case of cervical disc disease. 14A. DOES THE VETERAN HAVE IVDS OF THE CERVICAL SPINE? YES NO 14B. IF YES TO QUESTION 14A ABOVE, HAS THE VETERAN HAD ANY INCAPACITATING EPISODES (a period of acute signs and symptoms due to IVDS that requires bed rest prescribed by a physician and treatment by a physician) OVER THE PAST 12 MONTHS? YES NO 14C. IF YES TO QUESTION 14B ABOVE, PROVIDE THE TOTAL DURATION OF ALL INCAPACITATING EPISODES OVER THE PAST 12 MONTHS:
13. DOES THE VETERAN HAVE ANY OTHER OBJECTIVE NEUROLOGIC ABNORMALITIES OR FINDINGS (including, but not limited to bowel or bladder problems due to cervical myelopathy) ASSOCIATED WITH A CERVICAL SPINE (neck) CONDITION? YES NO IF YES, DESCRIBE CONDITION AND ITS RELATIONSHIP TO ANY CONDITION LISTED IN THE DIAGNOSIS SECTION: NOTE: If there are neurological abnormalities other than those addressed in the Physical Exam or Radiculopathy sections above, ALSO complete appropriate Disability Benefits Questionnaire for each condition identified. SECTION XIV - INTERVERTEBRAL DISC SYNDROME (IVDS) AND INCAPACITATING EPISODES NOTE: For VA purposes, IVDS is a group of signs and symptoms due to nerve root irritation that commonly includes back pain and sciatica (pain along the course of the sciatic nerve) in the case of lumbar disc disease, and neck and arm or hand pain in the case of cervical disc disease. 14A. DOES THE VETERAN HAVE IVDS OF THE CERVICAL SPINE? YES NO 14B. IF YES TO QUESTION 14A ABOVE, HAS THE VETERAN HAD ANY INCAPACITATING EPISODES (a period of acute signs and symptoms due to IVDS that requires bed rest prescribed by a physician and treatment by a physician) OVER THE PAST 12 MONTHS? YES NO 14C. IF YES TO QUESTION 14B ABOVE, PROVIDE THE TOTAL DURATION OF ALL INCAPACITATING EPISODES OVER THE PAST 12 MONTHS: Less than 1 week
13. DOES THE VETERAN HAVE ANY OTHER OBJECTIVE NEUROLOGIC ABNORMALITIES OR FINDINGS (including, but not limited to bowel or bladder problems due to cervical myelopathy) ASSOCIATED WITH A CERVICAL SPINE (neck) CONDITION? YES NO IF YES, DESCRIBE CONDITION AND ITS RELATIONSHIP TO ANY CONDITION LISTED IN THE DIAGNOSIS SECTION: NOTE: If there are neurological abnormalities other than those addressed in the Physical Exam or Radiculopathy sections above, ALSO complete appropriate Disability Benefits Questionnaire for each condition identified. SECTION XIV - INTERVERTEBRAL DISC SYNDROME (IVDS) AND INCAPACITATING EPISODES NOTE: For VA purposes, IVDS is a group of signs and symptoms due to nerve root irritation that commonly includes back pain and sciatica (pain along the course of the sciatic nerve) in the case of lumbar disc disease, and neck and arm or hand pain in the case of cervical disc disease. 14A. DOES THE VETERAN HAVE IVDS OF THE CERVICAL SPINE? YES NO 14B. IF YES TO QUESTION 14A ABOVE, HAS THE VETERAN HAD ANY INCAPACITATING EPISODES (a period of acute signs and symptoms due to IVDS that requires bed rest prescribed by a physician and treatment by a physician) OVER THE PAST 12 MONTHS? YES NO 14C. IF YES TO QUESTION 14B ABOVE, PROVIDE THE TOTAL DURATION OF ALL INCAPACITATING EPISODES OVER THE PAST 12 MONTHS: Less than 1 week At least 1 week but less than 2 weeks
13. DOES THE VETERAN HAVE ANY OTHER OBJECTIVE NEUROLOGIC ABNORMALITIES OR FINDINGS (including, but not limited to bowel or bladder problems due to cervical myelopathy) ASSOCIATED WITH A CERVICAL SPINE (neck) CONDITION? YES NO IF YES, DESCRIBE CONDITION AND ITS RELATIONSHIP TO ANY CONDITION LISTED IN THE DIAGNOSIS SECTION: NOTE: If there are neurological abnormalities other than those addressed in the Physical Exam or Radiculopathy sections above, ALSO complete appropriate Disability Benefits Questionnaire for each condition identified. SECTION XIV - INTERVERTEBRAL DISC SYNDROME (II/DS) AND INCAPACITATING EPISODES NOTE: For VA purposes, IVDS is a group of signs and symptoms due to nerve root irritation that commonly includes back pain and sciatica (pain along the course of the sciatic nerve) in the case of lumbar disc disease, and neck and arm or hand pain in the case of cervical disc disease. 14A. DOES THE VETERAN HAVE IVDS OF THE CERVICAL SPINE? YES NO 14B. IF YES TO QUESTION 14A ABOVE, HAS THE VETERAN HAD ANY INCAPACITATING EPISODES (a period of acute signs and symptoms due to II/DS that requires bed rest prescribed by a physician and treatment by a physician) OVER THE PAST 12 MONTHS? YES NO 14C. IF YES TO QUESTION 14B ABOVE, PROVIDE THE TOTAL DURATION OF ALL INCAPACITATING EPISODES OVER THE PAST 12 MONTHS: Less than 1 week At least 1 weeks but less than 2 weeks At least 2 weeks but less than 4 weeks
13. DOES THE VETERAN HAVE ANY OTHER OBJECTIVE NEUROLOGIC ABNORMALITIES OR FINDINGS (including, but not limited to bowel or bladder problems due to cervical myelopathy) ASSOCIATED WITH A CERVICAL SPINE (neck) CONDITION? YES NO IF YES, DESCRIBE CONDITION AND ITS RELATIONSHIP TO ANY CONDITION LISTED IN THE DIAGNOSIS SECTION: NOTE: If there are neurological abnormalities other than those addressed in the Physical Exam or Radiculopathy sections above, ALSO complete appropriate Disability Benefits Questionnaire for each condition identified. SECTION XIV - INTERVERTEBRAL DISC SYNDROME (<i>IVDS</i>) AND INCAPACITATING EPISODES NOTE: For VA purposes, IVDS is a group of signs and symptoms due to nerve root irritation that commonly includes back pain and sciatica (pain along the course of the sciatic nerve) in the case of lumbar disc disease, and neck and arm or hand pain in the case of cervical disc disease. 14A. DOES THE VETERAN HAVE IVDS OF THE CERVICAL SPINE? YES NO 14B. IF YES TO QUESTION 14A ABOVE, HAS THE VETERAN HAD ANY INCAPACITATING EPISODES (<i>a period of acute signs and symptoms due to IVDS that requires bed rest prescribed by a physician and treatment by a physician)</i> OVER THE PAST 12 MONTHS? YES NO 14C. IF YES TO QUESTION 14B ABOVE, PROVIDE THE TOTAL DURATION OF ALL INCAPACITATING EPISODES OVER THE PAST 12 MONTHS: Less than 1 week At least 1 weeks but less than 4 weeks At least 2 weeks but less than 4 weeks At least 4 weeks but less than 6 weeks
13. DOES THE VETERAN HAVE ANY OTHER OBJECTIVE NEUROLOGIC ABNORMALITIES OR FINDINGS (including, but not limited to bowel or bladder problems due to cervical myelopathy) ASSOCIATED WITH A CERVICAL SPINE (neck) CONDITION? YES NO IF YES, DESCRIBE CONDITION AND ITS RELATIONSHIP TO ANY CONDITION LISTED IN THE DIAGNOSIS SECTION: NOTE: If there are neurological abnormalities other than those addressed in the Physical Exam or Radiculopathy sections above, ALSO complete appropriate Disability Benefits Questionnaire for each condition identified. SECTION XIV - INTERVERTEBRAL DISC SYNDROME (II/DS) AND INCAPACITATING EPISODES NOTE: For VA purposes, IVDS is a group of signs and symptoms due to nerve root irritation that commonly includes back pain and sciatica (pain along the course of the sciatic nerve) in the case of lumbar disc disease, and neck and arm or hand pain in the case of cervical disc disease. 14A. DOES THE VETERAN HAVE IVDS OF THE CERVICAL SPINE? YES NO 14B. IF YES TO QUESTION 14A ABOVE, HAS THE VETERAN HAD ANY INCAPACITATING EPISODES (a period of acute signs and symptoms due to II/DS that requires bed rest prescribed by a physician and treatment by a physician) OVER THE PAST 12 MONTHS? YES NO 14C. IF YES TO QUESTION 14B ABOVE, PROVIDE THE TOTAL DURATION OF ALL INCAPACITATING EPISODES OVER THE PAST 12 MONTHS: Less than 1 week At least 1 weeks but less than 2 weeks At least 2 weeks but less than 4 weeks

SECTION XIV - INTERVERTEBRAL DISC SYNDROME (IVDS) AND INCAPACITATING EPISODES (Continued)							
14D. COMMENTS, IF ANY:							
	INENT PHYSICAL FINDINGS, COMPLICATIONS, CONDITIONS, SIGNS, SYMPTOMS AND SCARS						
(surgical or otherwise) RELATED TO A	ER PERTINENT PHYSICAL FINDINGS, COMPLICATIONS, CONDITIONS, SIGNS OR SYMPTOMS, OR ANY SCARS NY CONDITIONS OR TO THE TREATMENT OF ANY CONDITIONS LISTED IN THE DIAGNOSIS SECTION ABOVE?						
	ETE QUESTIONS 15B-15D.						
15B. DOES THE VETERAN HAVE ANY OTHE CONDITIONS LISTED IN THE DIAGNOS	ER PERTINENT PHYSICAL FINDINGS, COMPLICATIONS, CONDITIONS, SIGNS OR SYMPTOMS RELATED TO ANY SIS SECTION ABOVE?						
YES NO IF YES, DESCRI	BE (brief summary):						
THE DIAGNOSIS SECTION ABOVE?	RS (surgical or otherwise) RELATED TO ANY CONDITIONS OR TO THE TREATMENT OF ANY CONDITIONS LISTED IN						
LOCATED ON THE HEAD, FACE OR NECK?							
	OMPLETE VA FORM 21-0960F-1, SCARS/DISFIGUREMENT.						
IF NO, PROVIDE LOCATION AND MEASURE							
Location:	Measurements: length cm X width cm.						
,	any reason, there is frequent loss of covering of the skin over the scar. If there are multiple scars, enter additional locations w. It is not necessary to also complete a Scars DBQ.						
15D. COMMENTS, IF ANY:							
	SECTION XVI - ASSISTIVE DEVICES						
16A DOES THE VETERAN USE ANY ASSIS	TIVE DEVICES AS A NORMAL MODE OF LOCOMOTION, ALTHOUGH OCCASIONAL LOCOMOTION BY OTHER METHODS						
MAY BE POSSIBLE?							
YES NO IF YES, IDENTIFY	ASSISTIVE DEVICES USED (check all that apply and indicate frequency):						
Wheelchair	Frequency of use: Occasional Regular Constant						
Brace	Frequency of use: Occasional Regular Constant						
Crutches	Frequency of use: Occasional Regular Constant						
Cane	Frequency of use:						
Walker	Frequency of use: Occasional Regular Constant						
Other:	Frequency of use: Occasional Regular Constant						
16B. IF THE VETERAN USES ANY ASSISTIV	/E DEVICES, SPECIFY THE CONDITION AND IDENTIFY THE ASSISTIVE DEVICE USED FOR EACH CONDITION:						
SECTION XVII - REMAINING EFFECTIVE FUNCTION OF THE EXTREMITIES							
17. DUE TO THE VETERAN'S CERVICAL SPINE (<i>neck</i>) CONDITION, IS THERE FUNCTIONAL IMPAIRMENT OF AN EXTREMITY SUCH THAT NO EFFECTIVE FUNCTION REMAINS OTHER THAN THAT WHICH WOULD BE EQUALLY WELL SERVED BY AN AMPUTATION WITH PROSTHESIS? (<i>Functions of the upper</i> <i>artemity include granning, manipulation, atc., while functions for the lower artemity include belance, and propulsion, atc.</i>)							
	extremity include grasping, manipulation, etc., while functions for the lower extremity include balance and propulsion, etc.)						
YES, FUNCTIONING IS SO DIMINISHED THAT AMPUTATION WITH PROTHESIS WOULD EQUALLY SERVE THE VETERAN.							
IF YES, INDICATE EXTREMITIES FOR WHIC	IF YES, INDICATE EXTREMITIES FOR WHICH THIS APPLIES: RIGHT UPPER LEFT UPPER						
	FY THE CONDITION CAUSING LOSS OF FUNCTION, DESCRIBE LOSS OF EFFECTIVE FUNCTION AND PROVIDE						
SPECIFIC EXAMPLES (brief summary):							
NOTE: The intention of this section is to per	rmit the examiner to quantify the level of remaining function; it is not intended to inquire whether the Veteran should						
undergo an amputation with fitting of a proth	nesis. For example, if the functions of grasping (hand) or propulsion (foot) are as limited as if the Veteran had an						
amputation and prosthesis, the examiner show same degree as if there were an amputation of	uld check "yes" and describe the diminished functioning. The question simply asks whether the functional loss is to the of the affected limb.						

SECTION XVIII - DIAGNOSTIC TESTING
NOTE: Testing listed below is not indicated for every condition. The diagnosis of degenerative arthritis (osteoarthritis) or traumatic arthritis must be confirmed by imaging studies. Once such arthritis has been documented, even if in the past, no further imaging studies are required by VA, even if arthritis has worsened. Imaging studies are not required to make the diagnosis of IVDS; Electromyography (EMG) studies are rarely required to diagnose radiculopathy in the appropriate clinical setting. For purposes of this examination, the diagnoses of IVDS and radiculopathy can be made by a history of characteristic radiating pain and/or sensory changes in the legs, and objective clinical findings, which may include the asymmetrical loss or decrease of reflexes, decreased strength and/or abnormal sensation.
18A. HAVE IMAGING STUDIES OF THE CERVICAL SPINE BEEN PERFORMED AND ARE THE RESULTS AVAILABLE?
YES NO
IF YES, IS ARTHRITIS DOCUMENTED?
18B. DOES THE VETERAN HAVE A VERTEBRAL FRACTURE?
YES NO IF YES, PROVIDE PERCENT OF LOSS OF VERTEBRAL BODY HEIGHT: %
18C. ARE THERE ANY OTHER SIGNIFICANT DIAGNOSTIC TEST FINDINGS OR RESULTS?
YES NO IF YES, PROVIDE TYPE OF TEST OR PROCEDURE, DATE AND RESULTS (brief summary):
18D. IF ANY TEST RESULTS ARE OTHER THAN NORMAL. INDICATE RELATIONSHIP OF ABNORMAL FINDINGS TO DIAGNOSED CONDITIONS:
SECTION XIX - FUNCTIONAL IMPACT
SECTION XIX - FUNCTIONAL IMPACT NOTE: Provide the impact of only the diagnosed condition(s), without consideration of the impact of other medical conditions or factors, such as age.
NOTE: Provide the impact of only the diagnosed condition(s), without consideration of the impact of other medical conditions or factors, such as age.
NOTE: Provide the impact of only the diagnosed condition(s), without consideration of the impact of other medical conditions or factors, such as age. 19. REGARDLESS OF THE VETERAN'S CURRENT EMPLOYMENT STATUS, DO THE CONDITION(S) LISTED IN THE DIAGNOSIS SECTION IMPACT HIS OR HER
 NOTE: Provide the impact of only the diagnosed condition(s), without consideration of the impact of other medical conditions or factors, such as age. 19. SECTION XXI	PHYSICIAN'S	CERTIFICATION	AND SIGNATURE

CERTIFICATION - To the best of my knowledge, the information contained herein is accurate, complete and current.

21A. PHYSICIAN'S SIGNATURE		21B. PHYSICIAN'S PRINTED NAME	21C. DATE SIGNED	
21D. PHYSICIAN'S PHONE NUMBER	21E. PHYSICIAN	L 'S MEDICAL LICENSE NUMBER	21F. PHYSICIAN'S ADDRE	ĒSS

NOTE: VA may request additional medical information, including additional examinations, if necessary to complete VA's review of the veteran's application.

IMPORTANT - Physician please fax the completed form to

(VA Regional Office FAX No.)

NOTE: A list of VA Regional Office FAX Numbers can be found at www.vba.va.gov/disabilityexams_or obtained by calling 1-800-827-1000.

PRIVACY ACT NOTICE: VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58/VA21/22/28, Compensation, Pension, Education and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by a Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine maximum benefits under the law. The responses you submit are considered confidential (38 U.S.C. 5701). Information submitted is subject to verification through computer matching programs with other agencies.

RESPONDENT BURDEN: We need this information to determine entitlement to benefits (38 U.S.C. 501). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 30 minutes to review the instructions, find the information, and complete the form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed. Valid OMB control numbers can be located on the OMB Internet Page at www.reginfo.gov/public/do/PRAMain. If desired, you can call 1-800-827-1000 to get information on where to send comments or suggestions about this form.
