SECTION C – Mothership Declaration (for Catcher Processors)

As provided for at 660.150(f)(2)(i): If a vessel registered to the MS permit will operate as a mothership in the year for which the permit is renewed, the permit owner must make a declaration as part of the permit renewal that while participating in the whiting fishery it will operate solely as a mothership during the calendar year to which its limited entry permit applies. Any such declaration is binding on the vessel for the calendar year, even if the permit is transferred during the year, unless it is rescinded in response to a written request from the permit owner. Any request to rescind a declaration must be made by the permit holder and granted in writing by the Regional Administrator before any unprocessed whiting has been taken on board the vessel that calendar year.

Will the vessel registered to this Catcher Processor (C/P) endorsed permit operate solely as a mothership in the Pacific Coast groundfish fishery for calendar year 2014?

YES NO

SECTION D – Small Business Certification to be Completed by Permit Owner

As part of various rulemakings related to the Pacific Coast groundfish fishery, the National Marine Fisheries Service (NMFS) is required to analyze the effect of such regulations. To assist with these Regulatory Impact Reviews (RIR)/Initial Regulatory Flexibility Analysis (IRFA), NMFS must determine if permit and license owners participating in the fishery are big businesses or small businesses as defined by the Small Business Administration.

Small businesses. The Small Business Administration has established size criteria for all major industry sectors in the US, including fish harvesting and fish processing businesses.

- **A business involved in fish harvesting** is a small business if it is independently owned and operated and not dominant in its field of operation (including its affiliates) and if it has combined annual receipts not in excess of \$4.0 million for all its affiliated operations worldwide.
- **A seafood processor** is a small business if it is independently owned and operated, not dominant in its field of operation, and employs 500 or fewer persons on a full time, part time, temporary, or other basis, at all its affiliated operations worldwide.
- **A business involved in both the harvesting and processing of seafood products** is a small business if it meets the \$4.0 million criterion for fish harvesting operations.
- **A wholesale business servicing the fishing industry** is a small business if it employs 100 or fewer persons on a full time, part time, temporary, or other basis, at all its affiliated operations worldwide.
- **For marinas and charter/party boats**, a small business is one with annual receipts not in excess of \$7.0 million.

Small organizations. The Regulatory Flexibility Act defines **small organizations** as any nonprofit enterprise that is independently owned and operated and is not dominant in its field.

Small governmental jurisdictions. The Regulatory Flexibility Act defines **small governmental jurisdictions** as governments of cities, counties, towns, townships, villages, school districts, or special districts with populations of less than 50,000.

Is the permit owner a small business, small organization, or small governmental jurisdiction according to the standards outlined above? **Please check one box.**

YES NO
