A few months ago, this household responded to a brief questionnaire about the people living here. Some of the questions in that survey asked about recreational saltwater fishing activities, over the previous 12 months, by members of this household.

Now we would like to know about activity that may have occurred in the four months since you answered the first questionnaire. The names, age and gender of each household member has been filled in for you. Please respond only for these persons – if someone else is now living here who was not here previously, there is no need to answer for this person.

Please complete for those household members whose information is shown below.

# Outdoor Activity Survey

Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other suggestions for reducing this burden to Rob Andrews, NOAA Fisheries Service, 1315 East-West Hwy., Silver Spring, MD 20910.

This is a voluntary survey, and responses are kept confidential as required by section 402(b) of the Magnuson-Stevens Act and NOAA Administrative Order 216-100, Confidentiality of Fisheries Statistics, and will not be released for public use except in aggregate statistical form without identification as to its source. Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subjected to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
