## Medications Form

Form Approved OMB No. 0923-XXXX Exp. Date $x x / x x / 20 x x$

Note: It is important to ask the participants to bring in all medications used regularly during the past two weeks before coming in for the physical measurements \& blood draw. This includes both Over-theCounter and Prescription Medications. These include pills, liquid medications, skin patches, eye drops, salves, inhalers and injections, as well as cold or allergy medications, herbal remedies, aspirin, ointments, vitamin supplements, Tylenol and Motrin are all examples. They could possibly affect the test and lab results.

1. Ask the participant about all medications, including over the counter, herbal remedies, fish oil, and vitamin or dietary supplements.
2. If the participant refuses to bring the medications or to allow you to record them, write "refused" on the medications form and proceed to next step.
3. Provide dose (e.g. 50 mg ), frequency (e.g. twice a day), and route (e.g. by mouth). Add lines as necessary.
4. Ask about any medications left at home, such as those needing refrigeration.
