

Request for Approval under the "Generic Clearance for the Collection of Routine Customer Feedback" (OMB Control Number: 0923-0047)

TITLE OF INFORMATION COLLECTION: Participant feedback at ATSDR-organized conference session, August 5, 2015

PURPOSE: ATSDR is best able to serve the public when it works alongside other organizations and community members to address environmental contamination. The purpose of this information collection is for ATSDR to improve customer service by learning more about how key stakeholders collaborate with ATSDR and other organizations at contaminated sites. ATSDR and the University of Arizona will collect this information through a series of facilitated small group discussions held during an August 5, 2015 EPA Community Involvement Training Conference session (titled "Transdisciplinary Collaborations to Enhance Interactions with Communities at Contaminated Sites"). Collecting this information at this conference session will provide a unique opportunity to better understand ATSDR customer and partner experiences and opinions about site-specific collaborations. This information may be used in future presentations to ATSDR staff about collaborating effectively with other organizations. As a result, ATSDR will be better prepared to establish and/or participate in productive collaborations that further our mission of preventing harmful exposures.

DESCRIPTION OF RESPONDENTS: Conference session attendees will likely include Federal, State, local, and tribal environmental and health department personnel, community leaders from communities located near hazardous waste sites, and academics
